 A number of accidents to coasting parties have been reported during the past week but as the snow is gone with our last summer's wages and there will probably be no more coasting accidents until next winter we will defer our sermon there until later.  
 Postmaster Miller never does things by halves; in addition to the blooming cactus mentioned last week, he has placed a number of other handsome plants and several clusters of palm berries in the public room at the postoffice, the whole combining to produce a tasty and novel effect. Mr. Miller informed us that the palm clusters were grown at his residence in this city and that the plant flourishes in the open air without protection from cold.

 The fastest flying machine is gossip. There is always room on the sunny side of the road; let us walk there.  
 When the sparerib is put to roast, sprinkle it lightly with powdered sage and minced onion.  
 It is an easy matter to size up a man if his dog crawls under the house when it sees him approaching.  
 Sifted coal ashes, mixed with a little vinegar, make a splendid mixture for polishing faucets, brass kettles and the like.  
 Tack pieces of rubber, cut from overshoes, to the bottom of the step-ladder legs, and they will not slide on a slippery floor.  
 Whenever a bottle has been emptied, wash it right out, and do not set it away to dry. You can clean it more easily by doing this.  
 The cork in a bottle of cement or glue is apt to stick and break when it is opened for the second time. To prevent this, grease it lightly when first taken out.  
 If housewives would have rubber heels and soles on their every-day shoes, they would find that much discomfort from aching, tired feet would be avoided.  
 Cabbage is more delicate if, after it is boiled a little while, it is turned out into a colander and cold water run over it; then put again in boiling water and finished.  
 After boiling salt ham or tongue, remove it from the fire and plunge it at once in cold water. This instantly loosens the skin, which then pulls off without any trouble.

warm and last nearly as long as new. Saves money too.

Have buttons, or hooks and eyes, for the slips you use on the sofa-pillows. Then you can often take the pillows out and wash the slips. Saves a lot of sewing and the slips are apt to get washed a good deal oftener.

It saves much hard work in keeping heavy bedclothes tidy under the usage they ordinarily receive from the boys and hired men, to have a breadth of muslin or calico firmly basted over the upper end of quilts and bed comforters. This can be removed often and washed with much less work than to put the whole big comforter in tub.—From January Farm Journal.

**Ballard's SNOW LINIMENT**  
 In the Right Remedy for All Abrasions of the Flesh.  
 If the wound is cleansed and the liniment applied promptly, the healing process begins at once and the wound heals from the inside outwardly, thus performing a perfect cure that leaves no scar. If the wound heals on the outside too quickly, pus forms under the surface and breaks out into a running sore that is hard to cure and inevitably leaves a bad scar.  
 Owners of blooded stock prefer this liniment to all others for that reason, and they use it not only on fine animals, but on human flesh, as it does its work quickly and thoroughly.  
 Price 25c, 50c and \$1.00.

**KEEPING IN TOUCH WITH HOME**

IT IS wonderful how much satisfaction can be obtained from a talk over the Bell Telephone.

A letter carries words, but the Bell Service has been brought up to such a point of perfection that the modulations of the voice are clearly heard.

The cheery tones show that the talker is well and in good spirits. The call may come from a suburban village or a distant city, but within the limits of the carrying power of the voice the Bell Service carries the tone as well. You get a personal interview with a friend hundreds of miles away.
