

Jacksonville Post

VOL. IV.

JACKSONVILLE, JACKSON COUNTY, OREGON, MARCH 11, 1911

NO. 45

COUNCIL MEETING

Held Tuesday Evening--Returns of Election Canvassed--Bills Audited--Lights Ordered.

The regular meeting of the council was held in the city hall Tuesday evening. Present Mayor Shaw; Councilmen Britt, Dunford, Fick, and Grieve. Minutes of previous meeting read and approved. Reports of officers submitted. The usual monthly bills for labor, materials, salaries, supplies, etc. presented, audited and ordered paid.

The returns of the recent municipal election canvassed and approved.

On motion two additional street lights were ordered put in; one near the residence of Frank Kiser and one near C. F. Dunford's.

Buncom Reports.

Correspondence to the Post.

Wilber Cameron was in the city recently.

Jim Cantrall was doing business in town a few days ago.

Walter Bostwick and wife spent Sunday with home folks at Ruch. A very severe attack of colds is going around which isn't very enjoyable.

Mrs. E. Fellow left last week for her home in Oregon City.

Miss Gay Webb has commenced her school here and is well pleased with the beginning of eleven pupils.

Mrs. R. J. Jennings was visiting Mrs. Emma Buckley the first of the week.

Mrs. S. Cantrall was visiting her daughter Mrs. Amy Dow, in Jacksonville Monday.

Miss Ella Parks was visiting in Jacksonville recently.

M. R. Buck is doing his spring plowing over his new ground he recently cleared.

Mrs. Frank Cameron is spending a few days with friends in Jacksonville and Medford.

MINERS NOTICE--Notice of Location both Quartz and Placer, for sale at this office, JACKSONVILLE POST.

RICH STRIKE

Made in Tunnel 9 at the Opp Mine. \$3,000 in Small Pocket.

Lee Benson and Roscoe Thomas, the lessees of Tunnel No. 9 in the Opp mine are reported to have made rich strike Monday, in the shape of a small pocket, literally filled with the precious metal to the value of about \$3000.

These gentlemen are working Tunnel No. 9 under a lease from the Opp Co. and of course are well pleased with their find.

The Opp mine is located about 1 mile west of this city and has been a steady producer for many years, the great difficulties in the working being the hardness of the rock and the erratic nature of the lode; the vein sometimes almost entirely disappearing and then at other places "doubling up" in knots, as seems to have been the case in this instance.

Further work is expected to disclose larger deposits of the yellow metal, but whether it does or not, the present strike has been sufficient to arouse considerable interest in the mine.

For Diseases of the Skin.

Nearly all diseases of the skin such as eczema, tetter, salt rheum and barbers' itch, are characterized by an intense itching and smarting, which often makes life a burden and disturbs sleep and rest. Quick relief may be had by applying Chamberlain's Salve. It allays the itching and smarting almost instantly. Many cases have been cured by its use. For sale by City Drug Store.

Rich Quariz.

The following news letter was sent out from Medford, this week:

Medford, Or., March 7.—A sample of gold was brought in to Medford yesterday from a claim in the Illinois Valley by Gus Anderson that is one of the richest found in recent years in Southern Oregon. The sample is a large piece of quartz that fairly teems with the yellow metal. From one quantity of rock that weighed 1200 pounds Anderson extracted 117 pounds of free gold. At this rate the strike of Anderson's will net him over \$30,000 to the ton.

CITY ELECTION

Results in the Election of Everyone of the Present Officers.

The municipal election held Tuesday, resulted in the re-election of the present officers to a man, as follows: Mayor—T. T. Shaw; Councilmen—Emil Britt, C. F. Dunford, Fred J. Fick and W. T. Grieve; Recorder—Henry G. Dox; Treasurer—James M. Cronmiller; Marshal—M. D. Jones; Street Commissioner—Lewis Eaton.

Only a small vote was polled, about 140 in all.

Saves Farmers Dollars.

Oregon Agricultural College, Corvallis, Ore., March 8.—An actual saving of over \$1,000 in horse feed resulted from the information gained by a prominent business man and farmer of Salem, Ore., in the winter short course at the Oregon Agricultural College. Last year he came himself to the course, and this year, unable to attend, he sent his ranch foreman. The knowledge gained in the course on feeding of horses alone, netted him a saving of over \$1,000 in his feed bills, and his animals are in finer condition than ever before, he says.

Over \$5,000 would have been saved by S. W. Jamieson of Dell, Ore., he estimates, if he had taken the short course two years ago. Inexperience lack of training when he came west two years ago to develop his holdings of 4,000 acres of fruit lands, caused Mr. Jamieson to make the usual mistakes of the beginner. Upon attending the course at the college this winter he discovered his mistakes, and made a careful computation of his consequent losses, which amounted to over \$5,000.

These are but two of a large number of similar cases which have come to the attention of Dean Arthur B. Cordley of the college. It is a special aim of the college not only to equip men to go out after graduation and develop the new lands to their utmost capacity, but to help the farmers stockmen and orchardmen of the state who are already caring for lands of their own or in charge of large estates, to get the greatest possible value out of the land, and help them to solve the problems that arise, and to get rid of the pests which injure crops.

PORTLAND LETTER.

Commercial Club Work Will Continue; Boosters Plan Another Two-Year Campaign.

Portland, Or., March 9 (Special).—Booster spirit ran high at the biennial dinner of the Portland Commercial Club the past week when the continuation of the Promotion Committee work was discussed. The accomplishments of the past two years were recounted and new enthusiasm gained for the future. The dinner brought together 370 prominent business men of Portland and a Greater Oregon and a united Pacific Northwest were pledged by the speakers.

Telegrams were read from James J. Hill, Judge Robert S. Lovett, Louis W. Hill, Theodore B. Wilcox, Howard Elliott, and others in which encouragement was given for the work accomplished. Speeches were full of optimism. C. C. Chapman, Geo. F. Johnson and others told of the progress of the work. President Stevens of the Hill lines in Oregon urged further promotion work and it was decided to raise \$200,000 for publicity during the coming two years.

Manager Chapman of the Promotion Committee laid special stress upon the Oregon Development League work and told of the splendid spirit shown throughout the state. The sentiment of all was that this co-operation should be maintained and all Oregon should be boosted, rather than any one section. Portland must grow with the northwest instead ahead of it.

Driving of last spikes on new railroads is a favorite festivity for Oregonians this year. The latest road to hold a celebration is the Grants Pass & Rogue River, which has just started a line of 30 miles from Grants Pass to southern Josephine county where the celebrated caves are located. The first or silver spike was driven at Grants Pass during the week and a demonstration by the Commercial Club and the people of the city and surrounding country accompanied it.

Oregon dairymen will probably receive considerable benefit from the dairy dinner at the Commercial Club March 9, when methods to aid the industry will be discussed and means suggested to help foster it and encourage those engaged in it. Dairymen, state officials, members of the health boards and experts from the Oregon Agricultural College will attend and in the interchange of ideas how best to develop dairying, much of value may be expected.

The Fat Stock Show of the Pacific Northwest Livestock Association at the Portland Stockyards March 20, 21 and 22 will attract a great deal of attention from cattlemen and stock raisers. Indications are that a large number of people will attend the show and special rates of one and one-third fare have been made from Oregon, Washington, Idaho and northern California for the round trip. Tickets will be on sale March 16 to 22, return limit March 20 to 24. The premium list is out and provides for the exhibition of cattle, horses, sheep and hogs, with liberal prizes for winning stock. There is no admission fee whatever, nor is there an entry charge for animals exhibited.

Believing that central Oregon offers unusual inducements to the hog raiser, the traffic department of the Harriman lines will make special efforts to aid the farmers in that region in the development of the industry. Special literature on the subject will be issued and distributed to interest the men on the soil in the production of more hogs. The book has been compiled by D. O. Lively, manager of the Portland Union Stockyards and a practical livestock man. It will be distributed widely throughout the state and particularly in the interior.

Build Airship at Ashland

Ashland, Or., March 6.—A model of a Blériot monoplane is being built here by Cliff Payne for George H. Gage, a local chauffeur. The spread of wings of the ship is to be 30 feet. It is being built from blueprint designs furnished from New York. It is to have a gasoline propeller. The weight of the ship will be 400 or 600 pounds.

Good hay for sale, \$13. a ton. Inquire of Rogue River Valley Railway Co.

OREGON PRODUCTS ATTRACT BIG CROWDS

Indications are for great movement of Homeseekers into Oregon's rich unsettled parts during 1911. Fruit Industry interests Central States.

"The way to get people into the Northwest is to take the Northwest to them." This is what President Hill of the Great Northern has done for Oregon by completely equipping a car with Oregon products and sending it on a 7,000 mile tour through the eastern states with traveling representatives in charge who are well versed on western conditions. The interest this car has created everywhere on its tour through Michigan, eastern Ohio and southern Indiana

good working field and the interested class seemed to be listed among the best people.

New Albany, Ind.—Nothing so far equals the attendance to the Oregon car such as we had at New Albany. Starting early in the morning we had a steady crowd of visitors for the two days. On the evening of the second day we passed through the car not less than 1,500 people between 7:00 and 9:00 p. m. It was necessary to do this, as we left at 9:30 p. m. I would

OREGON EXHIBIT BY GREAT NORTHERN RY. AT WESTERN LAND PRODUCTS EXHIBIT, HELD IN OMAHA, NEB. RECENTLY.

has been nothing short of wonderful. Oregon is bound to gain from this practical publicity, and the value of it can only be reckoned when the colonial period is over and some idea can be had of the number of new settlers brought into the State.

The following reports of the Traveling Immigration Agents in charge of Oregon's Exhibition Car were furnished by E. C. Leedy, General Immigration Agent of the Great Northern Ry. Greenwood, Ind.—Fifteen hundred visitors, a great many of whom were farmers. A large per cent of interest was for homesteads in Oregon. The hall where the stereopticon lecture was held in the evening was crowded, and some were turned away. The apple display in the car is drawing many favorable comments.

Jeffersonville, Ind.—Tremendous crowd. At least 5,000 people visited the car. The crowd kept up all day long and the lecture hall was crowded in the evening. We estimated the attendance at about 1,400. The interest seems to be mostly in farm lands with a little for fruit culture. This is a

estimate the attendance during both days at no less than 9,000 people.

Franklin, Ind.—Enthusiasm and interest shown here set a new mark for the Oregon Car. We had fully 4,000 visitors and the hall in the evening was filled to overflowing. I have never experienced quite such an enthusiastic audience as we encountered at our lecture. After the lecture we were kept busy for some time giving personal interviews. We also opened the car and allowed the people to look the exhibits over until almost 11:00 p. m. We secured the names of a large number of prospective homesteaders and tourists for Oregon.

Ansonia, Ohio.—Attendance about 600. At the stereopticon lecture in the evening every seat in the hall was taken. It was a rousing and especially interested crowd and the attendance was large considering the size of the town. Several came to me after the lecture in the evening and stated that they were going west this spring or summer.

BEAMER PLEADS GUILTY

Young Man Arrested for Assault Pleads Guilty to Three Charges Fines Amount to \$65.

D. M. Beamer, a well known plumber of this city was arrested on Monday evening for an alleged assault committed upon W. B. Cook.

The arrest was made about 6 p. m. by Marshal Jones who called upon J. Hartman for assistance in lodging the accused in the city prison. Sometime about midnight Beamer was released upon cash bail furnished by a friend.

It seems that at the time of the fracas, Beamer was carrying a gun, so the charge of carrying concealed weapons was also filed against him.

Arraigned before Judge Dox, the accused plead guilty on three counts and on Thursday morning was fined for each offence, making a total of \$65, in addition to the costs.

Eye witnesses of the encounter state that the assault upon Cook was entirely unprovoked and without apparent cause and unprovoked.

A Pleasant Physic.

When you want a pleasant physic give Chamberlain's Stomach and Liver Tablets a trial. They are mild and gentle in their action and always produce a pleasant cathartic effect. Call at City Drug Store for a free sample.

Out of the Ginger Jar.

Woman may possibly not know enough to vote, though we don't admit it; but she certainly knows enough not to sell that vote to the first briber who may happen along.

When a man comes along whining that he is the victim of circumstances, the chances are that the circumstances were contained within iron-bound staves and labeled "Old Rye."

Not infrequently the exalted lodge member, the whack of whose gavel brings all the members up standing, takes off his shoes outside the door when he goes home, lest he waken his wife.—From March Farm Journal.

ANSWERS EVERY CALL

Jacksonville People Have Found That This is True.

A cold, a strain, a sudden wrench. A little cause may hurt the kidneys. Spells of backache often follow. Or some irregularity of the urine. A certain remedy for such attacks. A medicine that answers every call. Is Doan's Kidney Pills, a true specific. Thousands of people rely upon it. Here is one case:

M. Powell, 265 Oak St., Ashland, Ore., says: "I suffered a great deal from kidney trouble and backache and sometimes I could hardly get around. On arising in the morning, I was stiff and lame and the kidney secretions annoyed me by their irregularity in passage. As soon as I commenced taking Doan's Kidney Pills, I improved and I am now in good health. I still use Doan's Kidney Pills for no substitute could be as effective as they."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
