

Jacksonville Post

VOL. V.

JACKSONVILLE, JACKSON COUNTY, OREGON, MAY 13, 1911

NO. 2

FORTY-ACRE TRACT SOLD

To John Loudon Monday. Sale Made by Luy & Collins.

A tract of land containing forty acres, lying west of this city was sold Monday to John Loudon who it is stated will improve the land at once. The sale was made through Luy & Collins of this city. The consideration was not stated but was considered a fair figure for the property.

Bunco Reports.

Ernest Foreman was in the city recently.

Jim Cantrill was in town last week.

Ed Saltmarsh and Mollie Cleinhammer were in Medford Tuesday.

J. Goldsby has three or four men and is busy stretching wire on the new telephone poles from Ruch to Jacksonville.

Vance Bostwick of Ruch is working for Wilbur Cameron.

Bert McKee attended the circus at Medford.

Mrs. J. Parks spent several days with her daughter, Mrs. C. Buck in Medford.

Frank Cameron and wife were in Jacksonville the first of the week.

J. N. Dehart, J. L. Short and F. D. Pattee from San Francisco accompanied by John Lyden of Jacksonville took dinner at J. Goldsby's Tuesday.

Frank Crump was in Medford a few days ago.

Mrs. H. E. Ankeny was visiting her daughter Mrs. F. Crump last week.

Steamboat News.

We will soon hear the clack of the old hydraulic on Brush creek.

The Moss and Rock Co. has let the contract for digging the Grand Trail & Brush Creek ditch to an old and experienced ditchman and the work is progressing very rapidly. They are going to put a giant on a group of claims which are very rich placers. Mr. Moss is an old Klondike miner and knows a good thing when he sees

it. Mr. Rock is a native son of California, and he also knows the yellow metal when he sees it.

We need a few more men in our district like Messrs Moss and Rock. There is lots of wealth along Brush creek, if we only had the men to get it out.

Mr. Wright and his partner, of Seattle, are going to build a stamp mill at their quartz mine on Brush creek, in the near future.

Mr. O'Connell has quit mining for a few months, he is now helping Mr. Agee with his cattle on the Sweetland ranch. His partner, Mr. Sanderson is cleaning up the ground that they sluiced off last summer.

Botting & Stewart are getting ready to cut a trail up to their quartz mine, the "Fourth of July." Mr. Botting also has some good placer ground on the creek.

Mr. Wagner is working his rich placer ground on Brush creek.

Our school commenced last week in the West district.

RICH STRIKE MADE.

In Sterling Mine. Gold May be Seen in Seams in Rock.

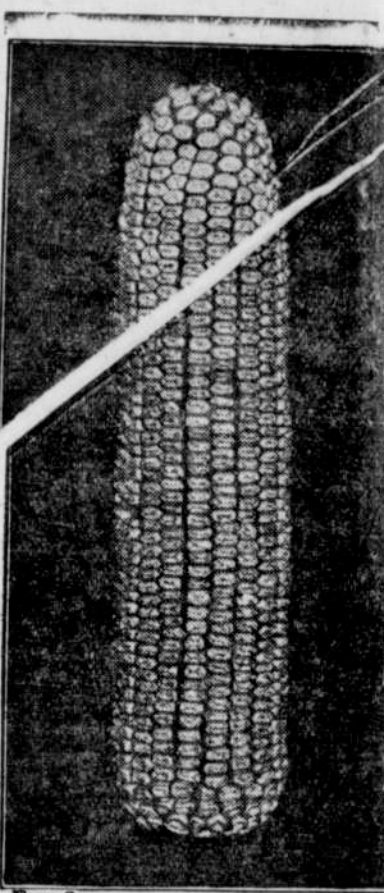

A gold strike that is better than all expectation of the stockholders of the Sterling-Gold Quartz Mining property has been made in that property within the past few days. It is so rich that tiny seams of gold may be seen through the rock in various parts of a streak about ten inches wide. A party of gentlemen just returning from there brings the information. In the party were E. C. Ireland, F. J. Newman, K. L. Ray and T. W. Daily.

Just before their arrival a shot had been put in and they had to wait until the fumes cleared away before they could enter and examine the ledge as exposed. When they did so it was easy to find rock with visible gold in it. When gold is visible in the rock it means that it is very rich and with its continuation that a bonanza has been struck. The shot broke through the hard diorite material and is now in softer stuff that works with the greatest ease.—Sun.

For soreness of the muscles whether induced by violent exercise or injury, Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by City Drug Store.

BEST EAR OF CORN

For 1910, Grown by R. A. James of Charleston, Ill.

World's Best Ear of Corn for 1910

The above cut represents the ear of corn grown by R. A. James of Charleston, Ill. for which he was awarded the W. K. Kellogg National Corn Trophy, at the National corn show recently held at Columbus, Ohio.

The ear of corn grown by Mr. James is of the yellow Dent variety. It is 10 inches long, 7 1/2 in circumference, and has 20 rows of kernels, 6 to the inch in the row, averaging 3/4 of an inch in depth and 3/8 of an inch in width. It is a very correct type of yellow Dent corn.

Card of Thanks.

We desire to express our heartfelt and sincere thanks to our friends and neighbors for their kind assistance and sympathy during the illness and death of our beloved husband and father.

Mrs. L. F. Parks and family.

PORTLAND LETTER.

Central Oregon Will Organize League June 30—July 1. Rains Benefit Crops. Portland Will Have Sane Fourth.

Portland, Or., May 9 (Special)—Central Oregon cities will send delegates to Prineville Commercial Club is issuing invitations to cities of the interior to be represented there and the Oregon Development League is aiding the movement as much as possible.

"The value of the smaller development league," said Secretary C. C. Chapman, of the Oregon Development League, "is that each operates in its own section and ever so much more good will result from Central Oregon being organized as a unit. A separate league will give that territory an entity that never would be received by the individual communities. The work of the central organization will supplement that done by each unit on its own behalf."

Cities in Crook, Wheeler, Grant, Harney and the north half of Lake and Klamath counties will be eligible to membership in the proposed league. Central is taking an interest in the matter and it is expected there will be a large attendance at the Prineville meeting.

Lebanon will hold a strawberry festival for three days beginning June 1. The "Garden City" as Lebanon is known, will also have a rose show and a horse and stock exhibition in connection with the carnival.

Dr. Woodrow Wilson, governor of New Jersey, will be entertained by the Portland Commercial Club when he visits Portland May 18 and 19. He will be the guest at a banquet in his honor at the Club on the night of May 18 and he will address a public meeting at the Masonic Temple.

Rains of the past week have been hailed with delight by all sections of the state. Eastern Oregon has welcomed the showers for they were needed to supply moisture to the grain fields. All other sections report that the rainfall makes crop prospects particularly bright.

A sane Fourth of July is promised for Portland. It is now the intention to make a quiet one, without the usual noisy features that are usually so prominent in the observance of Independence Day. People of the city for the most part plan to spend the Fourth in the country and to enjoy picnics and outings in the fields and woods within reach of Portland.

To aid the development of the northwest states, from Minnesota to the east, delegates from the section interested met during the past week at Helena, Montana, and took steps to form the Northwest Development League. It will exploit the states of Oregon, Washington, Idaho, Montana, North and South Dakota, Minnesota and the territory of Alaska. Meetings will be held each June and December, to be known as the Northwest Development League Congress. The December meeting will be held in Minnesota, in connection with a big land show. The 1912 congress will meet in Seattle.

Biliousness and Constipation.

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, purify the stomach, liver and blood, helping the system to its work naturally.—Mrs. Rosa Potts, Birmingham, Ala. These tablets are for sale by City Drug Store.

THE BALL GAME.

Jacksonville Team Wins at Applegate Sunday Afternoon—25 to 9.

The Jacksonville Athletic Club's aggregation of ball tossers journeyed to Fern Flat, near Applegate, Sunday and crossed bats with a select nine of that vicinity in the afternoon.

Although Applegate is the stamping ground of "Jud" Pernoll the famous twirler of the south paw, the boys found that the players of that region

were not equal to Pernoll when it comes to playing baseball.

Although the weather was very disagreeable there was a good attendance at the game, people coming from all parts of the valley to witness it.

A number of good plays were made by members of each team, also some errors. The score at close of game was 25 to 9, in favor of the visitors.

Notwithstanding the disagreeable weather, the boys enjoyed the trip and are loud in their praise of the hospitality and courteous treatment of players and citizens of Applegate and vicinity.

MRS. PUTNAM WINS.

In Damage Suit on Account of Death of Daughter at Portland.

Mrs. Fred L. Putnam, of this city, won her suit against the Pacific Monthly Publishing Company, of Portland, for \$7500 damages on account of the death of her daughter, Miss Mabel Putnam in an elevator September 2. The jury that tried the case returned a verdict giving Mrs. Putnam the entire amount asked.

The defense sought to invoke the fellow-servant law, claiming that the elevator boy was to blame for the casualty. The accident was admitted, but the effort made to shift the responsibility from the company to the operator of the elevator. In its answer to the suit, the company contended "that the defendant furnished said Mabel Putnam a competent servant to discharge the duties of operating the elevator and that if the injury sustained by Mabel Putnam was in fact caused by the unskillful and negligent manipulation of the elevator by the said J. P. Gerardy, then such negligence was the act of a fellow servant, and not the negligence of the defendant company." Judge Gatens refused however to instruct the jury that the "fellow servant" rule applied in this case.

A great deal of interest was aroused in the case in Portland because an attempt was made during the progress of the case to force the accident and casualty insurance companies interested in the suit to show their hand. These companies were interested to the extent of \$5000, for which amount they had insured the elevator against any accident.—Ashland Tidings.

MEDFORD MAN ARRESTED

Charged With Violating Speed Laws of State

Ernest C. Waterman was arrested yesterday on a warrant sworn out by W. G. Miller, charged with violating the law of travel of the state, and will have a hearing this afternoon before Justice Taylor.

Miller is the father of Frank Miller, the young man who was run down by a car Saturday afternoon of which Waterman was acting as chauffeur. The young man himself is confined to his bed at Central Point and was unable to appear, so that his parent acts in his stead.

The law of travel is that persons must turn to the right and the complaint will attempt to show that Waterman turned to the left. This was the explanation at the time, it being claimed that owing to another auto standing in the street Waterman could not turn further to the right and that he therefore swung to the left and saw-sawed with the young man on the bicycle until the latter was run down and underneath the car when it was brought to a stop.

It will also be claimed by the elder Miller that under the circumstances Waterman should have stopped the car, and if he claims he could not have done so he had no business going so fast that the car could not be stopped just as he was about to pass over the railway track.

Waterman appeared yesterday and entered a plea of not guilty. He was released on bond furnished by W. W. Boyd, owner of the car, and E. C. Aylor, whose wife with Mrs. Boyd and Miss Boyd, were in the car. Sun, May 11.

There's always something missing without I. W. HARPER whiskey. It's so old and so extensively used everywhere that we should find it hard to get along without it. Sold by E. H. HELMS.

GOVERNOR ORDERS SUIT

To Get Back 50,000 Acres Lieu Lands Valued at \$750,000

Salem, Ore., May 8.—In a communication addressed to Attorney General Crawford this morning, Governor West instructed him to take whatever action he deems most expedient to recover title to about 50,000 acres of lieu lands, worth to the state about \$750,000, which were obtained by Benson and Hyde, lieu land operators, in a fraudulent manner, and against whom the United States government has brought criminal proceedings for their part in the transactions. A list of the lands referred to accompany the communication to the attorney general, which follows:

"I am enclosing herewith a list of school sections, which are included within the boundary of national forests in this state, covering about 50,000 acres. These lands were purchased by or for the notorious lieu land operators, Benson and Hyde, whom the federal government has been trying to and has partially succeeded in convicting of conspiracy to defraud it of its public lands.

"The lands covered in this list are within the Cascade forest reserve, and were purchased by these operators, and in fraudulent manner, for the purpose of being used as base or scrip for indemnity selections, and have already been used for that purpose. The government, however, after thorough investigation and discovery of the fraudulent character of the applications by which these school lands were purchased from the state, is taking steps toward setting aside patents to the lands given in lieu of these said school sections.

"If there is fraud sufficient, and there undoubtedly is, to justify the federal government in setting aside its patents to the lieu lands, there is surely fraud sufficient to justify the state in bringing suit to set aside the deeds from the state to Benson and Hyde.

"Should the state recover title to these lands they may be used as basis for indemnity selections, and at the present price of base would net the state easily about \$750,000.

"There has been sufficient evidence gathered and now on file with the state and federal land departments to establish the fraudulent character of the applications to purchase these lands. I would ask, therefore, that you take such action as in your opinion is necessary to recover title to these lands for the state."

The Real Power.

The prosperity of a nation depends, not on the abundance of its revenues, nor on the strength of its fortifications, nor on the beauty of its public buildings, but on the number of its cultivated citizens, on its men of education and character. Here are to be found its true interest, its chief strength, its real power.—Martin Luther.

THE ONLY WAY

Many Jacksonville Citizens Have Discovered It.

Just what to do when the kidneys are affected, is a question that concerns both young and old. Weak kidneys neglected in childhood lead to lifelong suffering. People of advanced years, with less vitality, suffer doubly. In youth or age, languor, backache, urinary irregularity, dizziness and nervousness make life a burden.

There is one remedy that acts directly on the kidneys and cures these troubles. Doan's Kidney Pills owe their world-wide fame to the fact that they cure sick kidneys and cure them permanently. Follow the example of this Jacksonville citizen and you will be convinced that this is so.

John Kremer, farmer, Jacksonville, Ore., says: "For years I suffered from kidney trouble and although I used one remedy after another, I was unsuccessful in finding relief until I commenced taking Doan's Kidney Pills. They proved so beneficial that I am only too pleased to give them my endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
