Electric Sparks.

The National Treasury is in bad as a result of the large expenditures in July and August. And so are a lot of the more or less plain people. But fortunately the vacation season is about over.

It has been demonstrated in a boating accident in Finland that woman wearing hobble skirts cannot swim; yet some women will continue to believe they are not in the swim unless they wear them.

A San Francisco woman identified a body found in the bay as that of her husband and gave it a handsome funeral. Some weeks later the husband returned, which shows it a wise woman who knows her own husband.

A few having cigarette stumps can keep a whole fire department busy. Mayhap here and there you will find a small boy who is not overjoyed at getting back to school.

The minister who married Mr. Astor will have to take a year or two off to explain. Maine finds that she just can't satisfy everybody.

Perhaps the conference of governors would like to hit upon a uniform plan to get themselves re-elected.

If the law were like mathematics, the sentence of a man to eleven months and twenty nine years in the penitentiary for stealing two subway tickets would imply tremendous sentence for stealing a street railway; but law is not like mathematics.

A fool who attends a bargain sale rushes in where angels do not fear to tread, but he never forgets the experience.

Forty cities are happier today than they were last week. Postal Savings bank have been established in them.

If the battle ship Delaware can hit the old ship Texas at nine miles how soon will congress be able to reduce

the tariff on wool and woollen goods. Perhaps the President should not be too hard on the members of congress because of their pastimes. As many of them are not golfers or aviators, playing politics is about the only exercise they get.

Senator Works of California although a LaFollette insurgent concedes the renomination of Taft in 1912. Senator Works evidently sees that some of his political associates insist on shutting their eyes to.

Then again the political orators can induce the Chautauqua managers to call an extra session.

Mr. Cannon gave up golf after discovering that it is a game that three of a kind do not beat two pairs.

In short senator LaFollette would rather be fighting than be the President.

Why did the fellow Burgess swim across the English channel when it would be much easier to fly across.

"I was cured of diarrhoea by one dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes M. E. Gebhardt, Oriole, Pa. There is nothing better. For sale by all dealers.

Verifying His Statement.

Old Mr. and Mrs. Smiley were giving their annual party, and Mr. Smiley was making his usual speech.

"For forty years have my good wife and I traveled hand in hand down life's thorny path," he said. "In all those years not one single harsh, nasty, unkind word has passed our lips. Isn't that true, mother?"

"Mother" had quietly fallen asleep on the sofa, and as he laid his hand caressingly on her shoulder she snorted defiantly and said sharply:

"Get up yourself and light the fire, Sam. I lit it last, and I'll see you far enough before I'll do it this morning, you— Oh, oh, I—I—why, I must have dropped off to sleep!"

"And I think you'd better have stayed asleep, Lily," hissed Samuel into her ear.—London Tit-Bits.

Some Welsh Words.

Welsh is a marvellously expressive language. In a souvenir guide to Carnarvon there is a list of Welsh railway stations with their English equivalents. Here are some of them: Aber-gwynn, entrance to the place of bliss; Amwlch, a place of frequent expansion; Cefn Brynlich, the back of the screening hill; Dowlais, the voice of God; and Llambister, the manure yard road. There is also one station the name of which runs to fifty-eight letters. Its meaning is merely, "The fair church at the pool of the white seagull near the alder grove where the fodder for the oxen is stored in the red barn." And surely teetotalism ought to flourish in a country where beer is known as "cwrw."—Pall Mall Gazette.

A Glimpse of Dr. Johnson. From Boswell's "Life of Johnson." "In one of Dr. Johnson's manuscript diaries there is the following entry, which marks his curious minute attention: July 28, 1788—I shaved my nail by accident in whetting the knife about an eighth of an inch from the bottom and about a fourth from the top. This I measure that I may know the growth of nails." And Aug. 15, 1783, I cut from the vine forty-one leaves which weighed five ounces and a half and eight scruples. I lay them upon my bookcase, to see what weight they will lose by drying."

The Lion Didn't Roar. It is related that Pinnow, the faithful servant and personal valet of Prince Bismarck, once trod on his master's gaily foot. Instead of swearing at him or even declaring he was a clumsy fool, Bismarck, noticing that Pinnow himself was frightened, said: Consider yourself honored. No other person, my dear Pinnow, not even the kaiser himself, would have been suffered to tread on my corns."

A Vast Difference in Floor Finishes

It means economy—it means satisfaction—it means a beautiful, lasting finish on your floors, to know the difference before you buy.

Common varnishes are brittle and soon show unsightly scratches.

Elastica Floor Finish is so tough that nothing mars it. Heels, scraping chairs, casters, leave no marks.

Common varnishes turn white under water.

Elastica Floor Finish never does. It is water-proof.

Common varnishes and wax need constant care and refinishing.

Elastica Floor Finish keeps its original lustre. It outlasts any finish ever before offered. It saves work and saves expense.

We cannot overstate the importance of knowing the facts about floor finishes. Come in and ask us.
