

## THE BOND ELECTION

### Was a Surprise to All. Bond Issue Carries by a Majority of 1466.

The result of the special election held Saturday was a surprise to all. Even the most enthusiastic of the good roads workers were astonished at the size of the majority. Many of the friends of the measure expected its defeat while others claimed it would carry by a small margin.

The returns disclose a total vote of 4158 of which 2811 were for the bonds and 1346 against them, the majority being 1466.

Of all the precincts in the county, Meadows stands on a pedestal of its own,—it cast 23 votes against the bonds and none in favor of them. Perhaps the residents use air ships and so do not need good roads.

Ashland gave a majority of 231 against the bonds, the vote being yes 192, no 426.

Jacksonville came out for the measure strong—about six to one in favor of good roads.

Medford gave a majority of 1331 for the measure. It will be noticed that the total majority was 1466, so if Medford had not voted at all the bonds would have carried by a majority of 85.

## WATKINS WIRELESS.

Correspondence to the Post.

D. H. Harrell of Hutton spent Tuesday at Watkins.

A. E. Collings made Jacksonville a visit the forepart of the week.

M. M. Welch returned from a business trip to Jacksonville Friday.

J. H. Wilcox who has been employed at the sawmill here returned to Medford last Tuesday. He will depart soon for his home in Seattle.

R. E. O'Brien who has been spending several months at Watkins left last week for Medford where he has employment.

P. J. Sullivan came out of the hills Saturday to serve on the election board, procure supplies, and vote for good roads.

Chester Kubli, Hiram Benson, and Irvin Bostwick of lower Applegate are chasing bovine herds in the tall timber about Squaw Lake.

Messrs Hoke and Dudley of Medford came out in the former's car Thursday to look over some mining property

which they are interested in here, and were unavoidably detained until Saturday afternoon. Mr. Hoke who is a staunch supporter of good roads was very anxious lest he lose his vote, and was last seen burning gasoline at a great rate, trying to reach Medford before 7 p. m.

W. W. Moses and Collings Bros. recently extracted five bushels of honey from a bee tree on the west side of Grouse creek. The boys were pretty badly stung and have been eating honey as an antidote ever since.

C. J. Bartels has disposed of his interests in these parts and is looking for new fields to operate in.

The voters of Watkins precinct got tired of hibernating through the long winter months, and decided to come out for the bond issue. As a result the vote stood 15 to 4. All we want now is good roads and plenty of them.

## Buncom Reports.

J. F. Crump spent Tuesday night in Medford.

Mrs. Dorn of Big Applegate is visiting her daughter Mrs. Will Louden.

Mrs. Maud Buck accompanied by her mother was visiting Mrs. Chas. Buck Sunday.

William Cameron was up Little Applegate Tuesday.

Fred Kleinhammer was in town Monday on business.

Byron Johnson and Harry Ryan are cutting wood for Mr. Garrett.

Mr. and Mrs. Will Louden's baby is not expected to live at this writing.

J. E. Wren was in Jacksonville and Medford last week.

Wilbur Cameron tarried a few hours in town Wednesday.

## Catarrh Cannot be Cured

with Local Applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

F. J. CHENEY & CO., Props., Toledo, Ohio. Sold by Druggists, price 75 cents. Take Hall's Family Pills for constipation.

MINERS NOTICE—Notice of Location both Quartz and Placer, for sale at this office, JACKSONVILLE POST.

## FREIGHT VS. EXPRESS

### Southern Pacific Makes New Record for Quick Service.

Freight service that is as quick as express service is now being given to the patrons of the Southern Pacific Company from San Francisco bay points. The regular freight train leaving San Francisco at 8:30 in the evening, arrives at Fresno at 10:30 in the morning. This train has not failed to reach Fresno in the specified time since April 23, this year. Similar service is maintained on the coast division, a freight train leaving San Francisco in the evening and arriving at Pajaro and Salinas valley points about 6 o'clock in the morning. Another train of the same kind leaves Oakland every evening and serves those points in the Sierra Nevada mountains and the upper Sacramento valley as expeditiously as would express service. The operating officials of the Southern Pacific Company are quite proud of these records.

## LYMAN CAUGHT.

### Charged With Fraudulent Use of U. S. Mails.

Deputy United States Marshal Frank Beatty of Portland was in Ashland a short time Saturday morning while en route to Klamath Falls to get Dr. Grant Lyman, who escaped from a hospital at Oakland, Cal., a few days ago and made his way into Oregon by auto.

Dr. Lyman was arrested early in September, charged with fraudulent misuse of the mails in connection with a Panama land deal. Last week he escaped from the Oakland hospital and came north with a nurse named J. M. Thorne as chauffeur. The detectives there thought he would pass through Ashland and the officers here were notified. Instead he struck east for Klamath Falls and was arrested there. —Tidings.

Fruits, soft drinks, cigars and tobacco at Shaw's Confectionery.

A vast amount of ill health is due to impaired digestion. When the stomach fails to perform its functions properly the whole system becomes deranged. A few doses of Chamberlain's Tablets is all you need. They will strengthen your digestion, invigorate your liver, and regulate your bowels, entirely doing away with that miserable feeling due to faulty digestion. Try it. Many others have been permanently cured—why not you? For sale by all dealers.

## PORTLAND LETTER

### Great Power Project Will Pump Water on Thirsty Oregon Lands.

Portland, Or., Oct. 6 (Special)—A big project is that just launched by the Deschutes Rimrock Power Company, which plans the expenditure of \$9,000,000 in developing electric energy on the Lower Deschutes and operating pumping plants with it to lift water onto the semi-arid lands lying near the Columbia River. This concern, capitalized for \$1,000,000, has interested English capitalists in the plan and British money will be available within 90 days to start the work. It is expected to be irrigating 15,000 acres within 18 months and more land will probably be added later.

This is thought to be the biggest investment of foreign capital ever made in the Pacific Northwest, exclusive of the transcontinental railroads. It is also the greatest individual power project in the Pacific Northwest. But it is nevertheless essentially an irrigation scheme, which can be carried out only by pumping water from one river onto thirsty lands through the power furnished by the swiftly flowing waters of another stream. The company just formed will harness the Deschutes near its mouth and the project contemplates the development of a maximum of 140,000 horsepower.

The first knock is yet to be heard on the Pendleton Roundup. For an affair that attracted the wide attention this unique celebration enjoyed, this is indeed an enviable record. The Northwest press gave wide publicity to the Roundup and in not a single instance so far found after careful search, has there been an adverse criticism of either the amusement features, the event as a whole, or the treatment of visitors by Pendleton people.

The Rogue River Valley Industrial Fair that has been attracting attention during the past week at Medford, will develop into a pear show of national importance. At least, that is the plan now being developed and there is little doubt that it will succeed. Next year it is planned to have a competition between all pear districts of this Coast and finally enlarge the annual event until it includes exhibits from all over the country.

Hoed River's annual apple fair, an event of wide interest, will be held this year on October 9, 10 and 11. The management of the show is now erecting a suitable building to house the exhibits. They are always exceedingly attractive and well worth going a long way to see.

The State Land Board will probably try to secure title within a short time to Summer and Albert lakes in Southern Oregon. It has been recommended that this be done because of the value of the salts in the waters of the two lakes. Reports show there are 40,000 tons of salt in the two bodies of water and the state may claim them from the federal government. A plant to extract the salt will then probably be built.

The Oregon State Hotel Men's Association will meet at the Portland Commercial Club auditorium October 30 and 31, when plans will be discussed for increasing tourist travel to Oregon. Hotel and railroad men from all over the Northwest will attend and the commercial bodies will be asked for suggestions.

## Oregon Sidelights.

The Scio high school opened with an enrollment of 30.

Jefferson Review: The potato yield is said to be light this year, yet J. A. Aupperle dug 21 pounds from one hill.

A petition for a greater Clatskanie is being circulated. The municipality at present covers half a square mile.

Newport Signal: Charles Rolfsen, whose place is east of Olesonville, is preparing to build a large greenhouse, 100 by 50 feet. He will raise early vegetables for the Newport market.

Eugene Register: The United States army recruiting station has been discontinued in Eugene and Sergeant James R. McDermott has returned to Vancouver and will shortly go to the Philippines.

Astorian: The big new water supply pipe line is now complete. The old line has been practically torn out and discarded. The city is assured plenty of water for years to come at the present increase in population.

Harrisburg Bulletin: J. R. Hochdanner has grown peaches which he

claims will outclass some of the prize winners which have been given prominent mention in fruit papers. Laid side by side, 11 of them make over a yard.

Albany Herald: Rev. Father Van Nevel, who has been an able assistant to Rev. Father Lane of St. Mary's Catholic church of this city for some time, has been transferred to Medford, where he will be chaplain of the new \$150,000 hospital recently built at that place.

Buxton Correspondence Forest Grove News-Times: Mrs. Henry Reinemer is suffering from a long walk, having walked 28 miles in five hours after their cow, which was headed for Greenville. A pig was following the cow, the cow bawling for the pig the same as a calf.

Albany Democrat: Reports from the country are that even though wheat has been injured some, it will be good for feed, and, as a matter of fact, is worth just about as much for that as the market offers for other purposes. The loss by the recent rain is practically of no consequence.

Silver Creek Correspondence Stayton Mail: A bear has been doing sad havoc among the sheep and goats in this neighborhood. He started in at P. H. Brown's place and made quite a slaughtering all along his pathway. Mr. Bear nearly killed old "Roosevelt," a faithful dog belonging to Jacob Scott.

## Electric Sparks.

The hoboes recognized Washington as the ideal convention city.

It need only opportunity to demonstrate that Canada has its full share of spell-binding jingoism.

When they begin to send the magazines by freight the smart set will doubtless be in the fast-freight class.

It is not a discouraging fact that the voice of the people sounds a little louder than the voice of the politicians.

People are getting mighty sour over this increase in the price of sugar.

President Taft will have the entire democratic party on the run before the snow flies. The way Champ Clark flutters is proof of it.

Governor Hoke Smith is demonstrating how you can keep your pie and eat it at the same time. Hoke is senator and still holds on to the government in Georgia.

Nothing convinced the ex-shah of Persia that a new era has dawned until he met the machine guns.

Mr. Taft may well view the future with anxiety if the progressives are able to live up to the noise they are making.

"Secretary Fisher says the valuable coal lands in Alaska should be leased." Secretary Ballinger thought they ought to be presented to Guggenheim.

George Ade came back all right.

Rudyard Kipling should take lessons in knowing when to keep still.

Illinois democracy is experiencing some difficulty in deciding whether it is twins or triplets.

Judging from their actions, some of the republicans do not care much who wins the next election.

Will somebody tell Canada how another country could annex it without its knowledge or consent.

So long as there are armies and navies to build up and equipped European war scares will continue to lurk around the corner.

"New York is certainly the home of E. Z. Mark," confesses the Press of that town. This makes it unanimous.

Ferdinand Pinney Earle can get more about his marriages into print and less about his pictures than any artist living.

Abe Ruef is said to be working hard in prison to reform other criminals. Strange that reform always begins with the other fellow.

## County Treasurer's Thirty-fourth Call.

State of Oregon, County of Jackson, Treasury Department.

Jacksonville, Oregon, Oct. 7, 1911.

Notice is hereby given that there are funds on hand for the redemption of all county warrants protested from Nov. 8, 1909, to Dec. 2, 1909, dates inclusive. Interest ceases on all above called warrants, the date of first publication of this notice, which is Oct. 7, 1911.

Jas. M. Cronmiller, Treasurer of Jackson County, Oregon.

## PICKLING TIES

### Tried as Experiment But May Become Important Industry

Ten thousand railroad ties that have been "pickled" in Great Salt Lake, Utah for the last three years have just been removed from that body of highly mineralized water and are now being transported to Hazen, Nevada, there to be given a trial on the New Hazen cut off of the Southern Pacific Company. "Pickling" railroad ties in the Great Salt Lake is by no means a new experiment on the part of the railroad company.

There are ties in the old Promostory line of the Central Pacific Railway, which were placed there 40 years ago and have not decayed, proving the preservative qualities of the salt formation in which they "pickled" for years before being laid on the roadbed. Piling is also being preserved in this lake as excellent results have been obtained by the piling in the great trestle across the lake, which, since the day it was first placed in the first part of the construction of the Lucin cut off, has shown no deterioration.

The ties that have just been removed from the Great Salt Lake will be subjected to a hard test in the alkali soils of Nevada. The "pickling" process has caused them to become heavily impregnated with salt and they act as a "ground" to the electric current in the block signal service. This fact makes them unfit for use on the main line of the company over which the block signals play a most important part.

The preserving of ties and piling in Great Salt Lake may become an important industry, if the experiment now being worked out prove as successful as former tests.

## New Frost Fighting Bulletin

Corvallis, Ore. Sept. 29—The report of the frost fighting experiments in the Rogue River Valley conducted by the horticulture department of the Oregon Agricultural College has just been published in a bulletin of 64 pages by Prof. C. I. Lewis and F. R. Brown.

The results of these studies led the college authorities to advise orchardists with a paraffin base in preference to those with an asphalt base, since the latter leave a residue in the heaters which will not burn, thus decreasing the burning time in each heater. At least one thermometer should be used to the acre. The average cost per acre for four hours is \$5.10 for oil and \$5.40 for wood. Oil is the best fuel it is thought since it is handled with less labor and maintains a more even temperature.

## Notice of Dissolution.

Notice is hereby given that the firm doing business under the name of C. C. Shaw & Co. is dissolved this day by mutual consent.

The business will be conducted in future by C. C. Shaw, who will collect all accounts owing to and pay all bills owing by the former firm, Jacksonville, Ore., Oct. 4, 1911.

T. T. SHAW,  
C. C. SHAW.

## WEAK, WEARY WOMEN

### Learn the Cause of Daily Woes and End Them.

When the backaches and throbs. When housework is torture. When night brings no rest nor sleep. When urinary disorders set in. Woman's lot is a weary one.

There is a way to escape these woes. Doan's Kidney Pills cure such ills. Have cured thousands.

Read this woman's testimony.

Mrs. Jennie Sevey, 1023 Ninth St., Medford Ore. says: "I first used Doan's Kidney Pills while living in Idaho. I had suffered a great deal from kidney trouble and I was subject to severe attacks of pain in the small of my back. The kidney secretions were also unnatural and showed that my kidneys were at fault. Doan's Kidney Pills relieved me promptly and finally effected a cure. I am now in good health and my kidneys do their work as they should."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
