We have received an announcement of the marriage of James Percy Wells, the popular Superintendent of the Jackson county schools to Miss Minnie Maye Brady. The ceremony was performed at Halterville, Cal. Oct. 31. The Post extends congratulations and wishes the young couple a long and happy married life.

MRS. HELENE HANNA

Died at San Francisco, Tuesday evening.

The announcement of the death of Mrs. Helene Hanna, which occurred at San Francisco, Monday night was not entirely unexpected as she had been in failing health for some time.

Mrs. Hanna was a native of Germany, having been born in Brunan, and was aged about 63 years. She was the widow of the late Judge Hanna who died in July 1910. Her two sons Herbert and Leon, were present with her at her death.

Mrs. Hanna came to Jacksonville in the seventies and has resided here ever since. Besides her two sons, Herbert and Leon, she leaves two daughters, children of a former marriage, and a large number of friends and acquaintances to mourn her death.

Funeral services were held at the family residence Friday afternoon conducted by Rev. Chas. H. Johnson, pastor of the M. E. church of this city, after which the cortege slowly wended its way to the cemetery on the hill where the body was laid beside the remains of the husband who had preceded her so short a time before and to whom in life he had been so devoted.

CALENDAR REVERSED

**October has September Weather
Rainfall is Light.**

Corvallis, Ore., Nov. 4.—"The weather calendar was reversed this fall, when our usual October weather conditions were experienced during the month following August," said W. L. Powers, the weather man at Oregon Agricultural College, in speaking of his October report just out. "This delayed the September weather which we have been enjoying during the month just passed. Rains which occurred during September replenished the supply of soil moisture rendered the ground more easily tillable; while the extended spell of good weather following has made possible a large amount of fall plowing and seeding."

The rainfall during October was 1.33 inches, which is 1.61 inches below normal, as light as it has been in any corresponding month in the passed 22 years. The total rainfall to date, however, is 1.38 inches in excess of the normal for the rainfall for the year.

The highest temperature was 75, and the lowest 27, while the monthly mean was 51.2 degrees, or 1.4 degrees below normal. There were 15 clear days, 8 partly cloudy, and 8 cloudy day. Rain fell on 10 different days.

Oregon Sidelights.

Ground has been broken for the new Presbyterian church at Lebanon.

The name of Hillman, in Central Oregon, has been changed to Terribonne.

Union people expect work to be begun soon on a Carnegie library building.

The first three story building is to be erected in Monroe soon. It will be of concrete.

A ledge of marble has been discovered on Jackson creek, just west of Jacksonville.

Students of the Monmouth high school are preparing to publish a monthly paper.

The Roup ranch in Wallowa county sold in 1892 for \$1700, a few days ago it sold for \$11,600.

Hauling fence posts and hogs and chickens to market in touring cars is the Lebanon farmers' way of doing things.

Citizens of Douglas county have petitioned the governor for 40 convicts to work on the roads between Roseburg and Myrtle Point.

Tillman Reuter, the dry farming wizard of Madras took 11 first prizes at the dry farming congress exhibit at Colorado Springs.

Mrs. E. T. Gisan, who was stabbed to death by her son near Antelope had the best collection of Oregon stones and crystals in the state, it is said.

Public lands in Coos, Jackson and Klamath counties withdrawn from entry July 1, 1910 are to be opened to homestead entry February 14, 1912.

Fall City News: The inventive genius who will design a speedy and certain gopher exterminator can soon make a fortune in Oregon. Many of our citizens are busy all the time trying to rid their premises of this pest.—Journal.

Wanted Wives.

Lakeview, Or., Nov. 7.—As a result of the organization of the Lakeview County Bachelors Club, which was formed last winter by some of the young men of this section who were in search of wives, there have been 42 marriage licenses issued by County Clerk Frank Payne, to couples in and around Lakeview. Many of the charter members were men who had homestead claims, and who came from all sections of this county. All went well and the club prospered until the president of the organization, Dan Brennan, decided to marry, and the secretary was obliged to resign because he was unable to attend to all the correspondence with which his office was flooded daily. He stated that it was an easy matter to say nice things to one young woman, but that when it came to answering the questions of several dozen "man hunters," he would be forced to quit. There was no one who cared to fill the place that he vacated. The remaining single young men are now considering the advisability of seeking the aid of the newly formed Commercial Club in obtaining for them a matrimonial engagement. They state that the organization will have to help them in this matter or it will be a case of their having to leave their claims and go courting.—Telegram.

Dynasty Tottering.

Peking, Nov. 7.—Legations believe the end of the Manchu dynasty is imminent. There seems no hope of saving even the nominal throne. The provinces north of the Yangtse river now declare for the republic. India-

tions tonight are that Peking will be surrendered before many days to the Chinese soldiers. Where the court will take refuge is a question. There are evidences that it will proceed to Chang Kian Kau (Kalgan), 125 miles northwest of Peking, and after the passage of the train bearing the imperial party the troops will dynamite the tunnel.

The legation has advised the Americans to come into the quarter or seek other places of safety. No concerted attack on the foreigners is expected, but there many in the city opposed to the foreigners. The government reports two train loads of troops on the gas to Hankow, which may not be sufficient to prevent the mutiny. The city is quiet tonight there is no sign of any intended movement. Che Foo, Chantung province has gone over to the insurgents.

BRIDGE AT SACRAMENTO

**Is Third Largest in World.
Weight More than
5,000 Tons.**

On the outskirts of the city of Sacramento, California, the Southern Pacific Company is erecting a steel bridge across the Sacramento river that contains the heaviest swing span of any bridge in the world. This span is 400 feet in length and its weight is 6,300,000 pounds. The entire bridge, however, will weigh more than 10,000,000 pounds when it has all been placed in position upon the heavy concrete piers.

There are only two steel bridges in the world that have swing spans that exceed the new Sacramento river bridge in length. One is across the Willamette river and is a part of the Spokane, Portland and Seattle railway system. Its weight, however, is only 5,400,000 pounds, 900,000 pounds less than that of the Sacramento river bridge. The Omaha Terminal Company operates a large steel bridge across the Missouri river that has a swing span 520 feet in length, but the steel is of much lighter construction, the weight being only 5,100,000 pounds.

The new Sacramento river bridge of the Southern Pacific is a part of the double tracking of the Harriman Lines. It will contain not only two tracks for the trains but a concrete wagon and automobile road. The American bridge company, which is fabricating the steel work for the structure, have records of numerous heavy swing spans but none that can equal that of the new Southern Pacific bridge.

The piers for this structure were sunk by the pneumatic process under the direction of the Southern Pacific engineers, and the construction of the abutments, as well as the erection of all of the steel superstructure, is being done by the company's engineering forces.

WASHINGTON LETTER.

Buildings for the Panama Exposition Given High Praise

Washington, Nov. 1.—Those who have been privileged to see the photographs of Panama-California Exposition buildings, so far as the plans have been approved by the management, have pronounced them not only beautiful and artistic, but different from anything else they have seen before. Architects give them high praise. The buildings, standing as they will in a slightly location commanding a magnificent view of the beautiful of San Diego and the Pacific Ocean, will be a landmark as well as an architectural feature of rare charm. Domes, towers and arches will be characteristic of the romantic mission architecture and will bring back to the recollections of the pioneers the memories and romances of old California, the land of gold, the land of chivalry, and the land of boundless hospitality and deep-rooted friendships "before the Gringo came."

An Ideal Xmas Present--A Cedar Chest

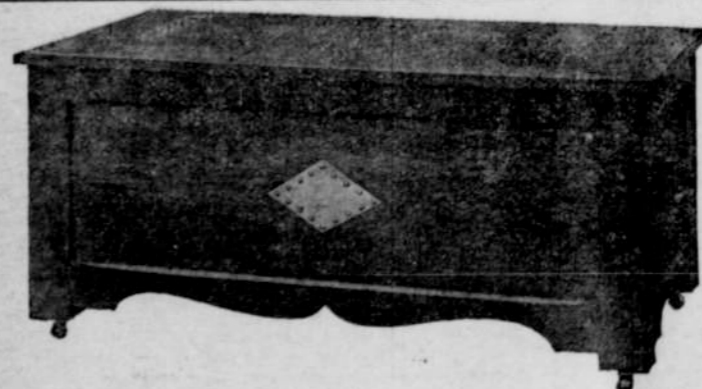

They are useful and ornamental, making a most acceptable gift for most any lady. We make these chests in very large quantities and are thus enabled to offer them at very enticing prices. -- -- --

OUR CEDAR CHEST

Is a most practical piece of furniture for the home.

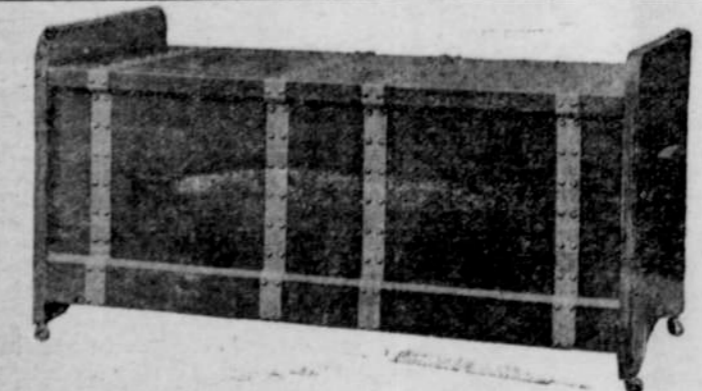

A few reasons why:

- Useful in the extreme.
- Lasts a lifetime; being well made of solid cedar.
- Anti-damp, moth, mice and dust.
- Pays for itself in what it saves.
- Beautiful to look upon and an ornament to any room.
- Makes a handsome window or hall seat.
- Refined, dignified, imposing, durable and stylish.
- No home is complete without one.
- These chests make an ideal and acceptable Xmas, Birthday or Bridal gift.

No.	Length	Width	Height
No. 34	44 inches	23 inches	20 inches
No. 25	50 "	23 "	20 "
No. 36	60 "	23 "	20 "

SPECIAL SIZES TO ORDER

No.	Length	Width	Height
No. 40	44 inches	20 1/2 in.	20 1/2 in.
No. 41	50 "	20 1/2 in.	20 1/2 in.
No. 42	60 "	20 1/2 in.	20 1/2 in.

SPECIAL SIZES TO ORDER

We manufacture our chests from solid, well-seasoned Red and Port Orford cedar which gives them a delicious and fragrant odor. They are ornamented with bands of solid copper (or brass), studded with antique brass nails.

The cabinet work is first class. Beautiful velvet-like finish. Just the thing in which to store your furs, bedding, wearing apparel, etc., etc.

The five-foot lengths will accommodate full-length garments without folding.

No. offensive moth balls necessary in a Cedar Chest.

Smaller chests make an excellent receptacle for shirtwaists.

Their many uses, their beauty and our low prices, commend them to a place in every home.

We also do anything in the cabinet work line, manufacture Library, Dining Room, Office, Bed Room or Den Furniture to order. Also White Enameled Furniture. Correspondence or phone inquiries solicited.
