VOL. VI.

JACKSONVILLE, JACKSON COUNTY, OREGON, JUNE 15, 1912

NO. 7

\$600 PRIZES FOR CHILDREN

Long List of Cash and Commodity Awards for Girls and Boys Next August.

Corvallis, Ore., June 12.—A list of cash and commodity prizes amounting to \$600 has been announced for the Benton County School Fair to be held at Corvallis August 28. The county superintendent of schools H. L. Mack, and director of extension of O. A. C. Prof. R. D. Henzel, are cooperating to make the fair a success in every way.

In the rules announced it is provided that every boy and girl under 21 is eligible, those over twelve forming Class A, and those under that age Class B. Accompanying each exhibit must be a statement signed by the parent or guardian to show that the exhibit has been prepared by the child, who must do all the work, except that, in gardening, the ground may be plowed by some one else. No child is allowed to make more than one entry for each prize, though each may enter as many of the different contests as he desires. Supt. Mack will furnish the entry blanks which must be attached to each exhibit.

All exhibits from children of one school should be entered as one school exhibit, though they will be judged also as individual exhibits. The schools should apply to the superintendent for space and entry blank as soon as possible, reporting as nearly as possible the number of entries to be made from that school.

The children are urged to send their exhibits to the state fair at Salem, held Sept. 2-7, after they have been shown at Corvallis. Those intending to do so should write the secretary of the state fair for entry blanks and instructions. The cost of the care of these exhibits at Salem will be met by the State Board of Agriculture, though shippers must prepay express and freight. When they are delivered for return shipment the Southern Pacific will refund the money upon presentation of a certificate from the secretary of the State board of Agriculture. Similar concessions may be made by other roads.

No fee will be charged for entering exhibits at the state fair, and each exhibitor will be given a ticket for the fair good for one day.

Since the county fair offers prizes for exactly the same contests as the state fair, the boys and girls may easily prepare their exhibits for both, and thus have opportunity to win two prizes on one exhibit. Every school

sending exhibits from one-fourth of its students will be given a prize in addition to the individual prizes offered.

GOOD ENOUGH FOR U. S.

United States Census Bureau Adopts Modern Woodmen Mortality Table.

The Texarkana (Texas) Texarkanian reports that the United States census bureau has recently adopted the new Modern Woodmen mortality table as the new standard. The department of the government census bureau which deals with the mortality question adopted the use of the M. W. of A. table for a guide in the future for the reason that it is now considered the only absolutely correct table of mortality in existence, as it was based upon three times as many lives as were used in formulating the American Experience table of mortality, and upon twice as many lives as were used in formulating the National Fraternal Congress table.

The Spectator Company of New York City, the largest insurance publication in the world, is now printing the new Modern Woodmen table in its rate books and has designated it as "The New American Mortality Experience Table."

Card of Thanks

The undersigned desires to express his sincere thanks to all who so kindly assisted at the funeral of his brother, John Simmons, and especially Chas. H. Basye who directed the arrangements on behalf of the I. O. O. F.; to B. F. Mulkey for the address at the Lodge room.

S. B. SIMMONS.

Catarrh Cannot be Cured

with Local Applications, as they can not reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

F. J. CHENEY & CO., Props., Toledo, Ohio.
Sold by Druggists, price 75 cents.
Take Hall's Family Pills for constipation

CORONER'S JURY

Find the Company Guilty of Negligence in Recent Accident.

The coroner's jury in the matter of the explosion at the rock quarry last week found the following verdict:

"We find the deceased came to their death on the 6th day of June, 1912, at the city of Medford's quarry one-half mile west of Jacksonville, Ore., operated by Twoby Brothers Company, by the premature explosion of powder.

"We further find the company are guilty of negligence by employing inexperienced and incompetent workmen and find the explosion was caused by tamping the powder with a steel drill in the hands of careless and incompetent powder men.

"T. Cameron, foreman; John B. Renault, A. R. Thompson, W. C. Denoff, E. Arnold, E. A. Thompson; A. E. Kellogg, coroner."

Conservation of Human Life.

Science has made strides in the conservation of human life and energy, as it has done in conserving natural resources, and the medical world is now working along more advanced lines than it was fifty years ago.

We sometimes rail at the doctors when we have aches or twinges, or when the bills come in rather bigger than is agreeable, but nevertheless it will be instructive if the management of the San Diego Panama Exposition shall be able to add to the other conservation exhibits one which shall show how science is working to take care of the greatest asset a nation has,—its boys and girls, its men and women.

President D. C. Collier is intensely interested in this kind of conservation. He does not believe it is good policy for the State to spend money to bring up a child to maturity only to see it die through preventable disease just when the community should be able to enjoy some benefit from the labor of the individual. He would like to see the government, aided by societies interested in human welfare, make a great exhibit at the San Diego Exposition, of the conservation of human life.

During the summer months mothers of young children should watch for any unnatural looseness of the bowels. When given prompt attention at this time serious trouble may be avoided. Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon. For sale by all dealers.

PORTLAND LETTER

Portland Entertains Thousands of Rose Festival Guests. Water Power to be Developed.

Portland, Ore., June 11, (Special)—Portland is busy this week entertaining its guests from outside points, both in Oregon and outside the state lines. Thousands of visitors are thronging the city, enjoying the annual Rose Festival, its varied entertainments, parades and show of prize roses.

Never before has the annual event been on such a big scale, with such attractive features and the number of visitors is greater than at any previous festival. Each year this flower fête grows in importance and interest. Business men are keeping open house and entertaining their out-of-town customers, while practically every household in the city has guests from outside who have come to see the festival. Seattle has sent a big delegation of boosters and from far Pasadena comes a motor car to be entered in the decorated auto parade.

Central Oregon came in for considerable praise the past week from immigration officials of the Great Northern Railway who completed an extended tour through Harney, Lake and Malheur counties. They spoke in the highest terms of the country traversed and predict it will produce immense wealth when properly settled. To bring more people to this idle land is their avowed intention.

Oregon dogwood, the graceful that fills our woods with its beautiful star flowers in Spring and Summer will be introduced at Teplitz, a watering place in Germany. Both seed and young trees have been sent abroad upon request as the management of this resort has heard of this attractive tree and wants to plant it there.

The biggest single shipment of packing house products for an Alaska customer ever made left Portland recently by special train for Tacoma where it will be put aboard a refrigerator vessel and re-shipped north. The shipment amounted to 400,000 pounds of frozen meats, valued at over \$50,000. The meat will be kept frozen until used. Heretofore, such big shipments have been supplied by eastern packers but Oregon is now able to fill these orders.

Many extra trains will be provided by Northwestern railways to handle the crowds from the local territory who will come to Portland during the Grand Reunion of Elks, 8-13. The O. W. R. & N. Co. has arranged for 100 Pullman cars in addition to its full regular equipment and the Great Northern, Northern Pacific and S. P. & Rys. will also run many extra passenger trains. The Elks give assurances that hotel accommodations at Portland during the reunion will be ample. Rooms at private homes are being listed in addition.

Development of a big water power plant on the Coquille River, south of Myrtle Point, involving the investment of \$1,000,000 of Oregon capital, was announced during the week. It is proposed to supply light and electricity to all the cities in Coos County and it is said that work will go forward on the plant at once.

Oregon Sidelights

William Zottman is preparing to establish a steam laundry at Nehalem.

W. A. Showman, former owner of the Oregon City Courier, has been enlisted as editor and manager of the Stockman's Journal published Oregon City.

A deal for the sale of the Independence Enterprise to Washington parties has fallen through, owing to the inability of the prospective buyers to take up their option.

Coquille Sentinel: Both the local mills are now running with full crews and sawing to capacity and both creameries are turning out capacity churnings every day of the week.

Oakland Advance: Thousands of acres of land worth hundreds of dollars per acre in some cases for diversified farming and gardening are being used merely for pasture lands in Douglas county.

Silver Lake Leader: Railroad companies don't send men over the country in expensive automobiles for pleasure. They always have an object in view,

and when those trips become frequent the country evidently looks good to them.

Oregon City Courier: You may think the matter of a public playground is nonsense, but you didn't think so when you were a boy, and your boy doesn't think so now. No community ever had too large a place for the boys and girls to play.

Joseph Herald: Not so much money is sent from this section to the mail order houses as formerly. The reason is because the Joseph merchants sell a better quality of goods and at lower prices than are charged by the mail order houses.

Silverton Appeal: In the last ten years there has been a very notable change in the appearance of Aumsville and surrounding farms; also a steady gain in population. The honk honk of two or three autos owned by residents occasionally breaks upon the clear atmosphere and many pass through.

Woodburn Independent: It is beginning to be suggested that the 20 horsepower engine just contracted for by the city may be able to furnish electric light and power while it is resting from the pumping business. A good many towns have found that city waterworks and a city light plant go well together.—Journal.

Electric Sparks

United States soldiers by this time almost know the way to Cuba with their eyes shut.

"London Suffragettes break windows wherever they go," says a Headline. Gee! Are they as homely as that?

Senator Depew says that under the primary system a candidate can't be nominated without gall and gab; but can't be neglected to numerate cash, coin, kale, mazuma, dough, and spondulics?

Charles M. Schwab at personal risk rescued a fellow fisherman from drowning, and it was not because the man's struggles were frightening the fish, either.

Nothing else is quite so refreshing as a political campaign free from personalities. Neither is anything else quite so scarce.

Col. Watterson's fevered imagination sees civil war in the "hideous spectacle" of the Roosevelt movement. Col. Watterson should consult a reliable nerve specialist.

Leading automobilists desire a municipal board to curb the law-breaking automobile scorchers. Would not a club be better than a board?

Ohio acts like a stepmother of presidents.

The bill to curb joy riding sounds suspiciously like a scam at the band wagon.

When one speaks of Mr. Cobb of Georgia now, reference is not made to the former speaker of the House, but to the Present King of the diamond.

An amateur aviator on Long Island fell out of his aero-plane into his backyard the other day and now we suppose he is complaining of his hard lot.

The first lady drummer to enter the South American field has just been dispatched to Brazil, to show something choice in silk stockings.

"All the world loves a good liver," observes the Atlanta Journal. Also a sound heart and a nice pair of lungs.

And a little while ago we were deploring that friendly scrap between Diaz and Madero!

Isn't it about time for Doc. Cook to announce the discovery of the East Pole?

Nat Goodwin denies that he is married, but his Panama is in the ring.

Mr. Taft's decision to continue fighting, though he said sometime ago that the Ohio result would be decisive, demonstrates that the momentum of a heavy body when it is set in motion is wonderful.

Train Hits Picnic Party

Los Angeles, June 10.—Their private coach struck by a speeding "newspaper" train, five Los Angeles picnickers are suffering today from severe injuries, while the eighteen months old infant of Mrs. Elsie Frye was the only occupant of the car to escape unhurt. The babe slept through the crash. The picnic car was sidetracked at Mateo, halfway between Los Angeles and San Diego, early yesterday. Practically all its passengers had alighted for breakfast through an open switch and struck the machine. None of the injured was fatally hurt.—Sun.

DEATH OF PIONEER

Lippman Sachs, a Former Merchant of this City Died at San Francisco Monday.

From a news item in an exchange we learn of the death at San Francisco, Monday morning of Lippman Sachs, a prominent merchant of that city.

Mr. Sachs was a resident and merchant of this city in the early mining days, built and owned the brick building on California street next door to Ulrich Bros. store.

Mr. Beekman informs us that Mr. Sachs came here as a clerk in the early days of the town and having some influential friends decided to engage in business on his own account; that he put in the first stock of ladies furnishings, millinery, notions, etc. ever brought to this town. Being strictly honest and trustworthy he met with abundant success in his business venture and in a few years amassed what in those days was considered a comfortable fortune. He then moved to San Francisco where he has been in business almost continuously since leaving here.

Mr. Sachs was prominent in the Jewish religious faith and was noted for his endeavors to ameliorate the conditions of his race and humanity at large.

MODERN WOODEN ENDO. SED

State Insurance Commissioners in National Convention Approve New Rates.

The state insurance commissioners in national convention at Chicago recently paid the Modern Woodmen of America a high compliment by unanimously adopting the following:

The National Convention of Insurance Commissioners congratulated the Modern Woodmen of America upon the action taken at the recent meeting of its Head Camp in placing the Society upon a permanent basis, and urges upon all friends of fraternal insurance the support of the action so taken and that all attempts to nullify such action or to induce members of said Society, or of any society so referring, to discontinue their membership, be discouraged by informing both members and the public as fully as possible.

FRANK H. HARDISON, Mass.,
W. T. EMMETT, N. Y.,
JAMES R. YOUNG, N. C.,
J. H. SCHI VELEY, Wash.,
Committee of Commissioners.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by all dealers.

The American Bonding Co. of Baltimore will go on your bond and write burglary insurance.

D. W. BAGSHAW, Agent.

MUST BELIEVE IT

When Well Known Jacksonville People Tell it so Plainly.

When public endorsement is made by a representative citizen of Jacksonville the proof is positive. You must believe it. Read this testimony. Every backache sufferer, every man, woman or child with any kidney trouble will find profit in the reading.

Frank Kashafer, Applegate Road, Jacksonville, Ore., says: "For years I was a miner and no doubt this work caused my kidney and bladder trouble. The first symptom was pain and stiffness in the small of my back, especially severe when I first arose in the morning. I also had much trouble from the kidneys but it did not take Doan's Kidney Pills long to bring me relief. Whenever I catch cold and feel any slight recurrence of my old complaint, I take Doan's Kidney Pills and they relieve me."

For sale by all dealers. Price 50 cents, Foster-Milbran Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
