JACKSONVILLE, JACKSON COUNTY, OREGON, JUNE 22, 1912

NO. 8

## APPLEGATE SCHOOL

### Closes Successful Term. Entire Eighth Grade Passes Examination

The Applegate public schools closed after a most successful term, May 31. The commencement exercises were attended by more than 300 people, patrons of the school and friends of the parents and pupils.

As an indication of the thoroughness of the work done, we need only refer to the examination of the eighth grade pupils; out of a class of 8 taking the state examinations everyone passed—several with high markings.

The people of Applegate are to be congratulated upon having had the services of an excellent teacher, Miss Laura Couch, to whom is due in a great measure, the credit for the excellent work done during the past year. That her work is appreciated is shown by the fact that the directors have retained her for the next term and have voluntarily increased her salary \$15.00 per month above that paid during the present term and also have asked her to select her assistant for the next term. This school board has set an example which might be followed by others with advantage to their schools.

Miss Couch is a niece of Mrs. B. M. Collins of this city and is from the old home of the Collins family, in Illinois.

## Buncom Reports.

Little Applegaters are busy haying. Campers are moving this way fast. All kinds of agents are traveling in our community.

B. J. Palmers family accompanied by Mrs. Holmer and family are going to spend the summer camping here.

Gage M. Pierce called on his neighbors recently.

M. E. Forman took dinner with Bill Simmons at Sterling last week.

Floyd Pearce and family was up Applegate Sunday.

Quite a number of pupils gathered at the ball ground on Sunday and passed an enjoyable time.

A. D. McKee and Polk Dews were in town last week.

W. T. Bostwick and wife were in town Monday.

Mr. and Mrs. John Cantrall spent Sunday with Mrs. Dora Saltmarsh.

R. J. Cameron of Medford spent a few days on the ranch on Applegate,

recently.

Hollis and Ella Parks did trading in Jacksonville Wednesday.

Services will be held at the Union, town school house June 30th, at 2:30 p. m., by a new minister who lately arrived here. He will be well pleased to meet a large crowd.

Frank Silva made a business trip to Jacksonville last week.

Hollis Parks hauls cream twice a week to the Valley Pride Co-operative Creamery Co., near Pernoll's store.

Sylvester Wertz has purchased a new horse.

Joe Goldsby and wife visited the hospital in Medford last week.

Frank Cameron and Joe Daly were in Medford last week.

Mrs. H. E. Ankeny is visiting her daughter, Mrs. J. F. Crump this week.

Mrs. M. R. Buck and daughter Grace of Ashland, are now visiting relatives in this locality.

W. R. Garrett is busy in the hay field at this writing.

## Small Loss of Life in Alaska

Seward, Alaska, June 17.—The revenue cutter McCulloch has arrived here from Kodiak with the news that conditions there are much improved and that there is no confirmation of the reports of heavy loss of life on the mainland. All the inhabitants of Katmai, a mainland village near the volcano, are safe and have been taken to Afognak. The only fatalities so far as known were those of a woman and a baby who were ill before the eruption and probably would have succumbed in a short time anyway. Heavy rains followed by drought have caked the layer of ashes which covers the land. The natives are killing and salting their stock, as there is no grass left for them. The water is undrinkable.

## Catarrh Cannot be Cured

with Local Applications, as they can not reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

F. J. CHENEY & CO., Props., Toledo, Ohio. Sold by Druggists, price 75 cents. Take Hall's Family Pills for constipation

## PROHIBITION CONVENTION

### Held in Ashland, Nominate a Partial County Ticket.

At a convention held in Ashland this week, the Jackson County Prohibitionists nominated the following named persons:

Representatives—John Arnell Medford G. A. Morse, Talent. Joint Rep.—A. W. Selsby.

Prosecutor—J. A. Lemery, Ashland.

Sheriff—S. B. Stoner, Ashland.

Commissioners—H. H. Tuttle, Medford C. W. Sharp, Central Pt.

County Recorder—E. W. Bramard-School Supt.—Miss Cary Van Nice, Ashland.

Gardner for county clerk, and Kellogg for coroner, republican nominees were endorsed.

No nominations were made for county judge, assessor, treasurer or surveyor.

## Socialists to Name Ticket Soon

At a mass meeting of the socialists of Jackson county to be held in this city next Saturday afternoon the socialists ticket for county offices will be decided upon. The locals over the county have already taken a referendum vote on the nominees and the convention to be held next Saturday will be for the purpose of confirming the results of this vote.

Local socialist leader decline to give out a list of their nominees until the convention has held its session as changes may be made. It is understood, however, that each part of the county will be represented on their ticket.—Mail-Tribune.

## Hookworm Raging at Seattle

Seattle, June 18.—An epidemic of hookworm is raging among Oriental immigrants to this country, and thirty persons suffering from this disease are held in quarantine at the United States immigration station at Smith's Cove. More than 20 of them are Japanese "picture brides," who while in Japan married men in this country.

Dr. Bolivar of the United States marine hospital said today: "About fifty per cent of the Japanese women entering this country are victims of the hookworm."

The American Bonding Co. of Baltimore will go on your bond and write burglary insurance. D. W. BAGSHAW, Agent.

## LAMPMAN SELLS

### Gold Hill Editor Turns Over Plant to His Brother.

Rex Lampman, guiding star of the Gold Hill News, poet laureate of the Rogue and principal prop of the Scott banking plan, has forsaken the journalistic tanyard and will hereafter tread other paths to glory. Unlike most poets, Mr. Lampman writes some real poetry, and whether he follows the forge or the plow, his pen will be busy in the future.

Lampman has been editor of the Gold Hill News for about two years and his paper was always well edited and widely read. An article regarding a school-scandal in which a boy was spanked and the side he took in the fracas caused several Gold Hill merchants to boycott him. The boycotters threatened to make him walk out of town, and to forestall any such proceedings the fighting scribe bought a whole block of Gold Hill property with the proceeds of his newspaper sale. Ben Lampman, brother of Rex, is the new editor.—Ashland Tidings.

## Oregon Sidelights

Fossil Journal: Arrangements are being made for a big celebration at Long Creek on the Fourth by the Equal Rights club.

The Port Orford Tribune complains of coasting vessels that promise to call and then disappoint shippers who have freight piled up on the wharf on the strength of such promises.

Harrisburg Bulletin: How easy to enjoy a real pleasure trip in this grand state. A few hours and you are at the seashore. Or if you choose a mountain resort it is but a day's drive. To an easterner the plain Willamette valley would be good enough.

F. M. Sherman, a Lebanon berry grower, has exhibited a Marshall strawberry seven inches in circumference, which the Lebanon Express pronounces a local record breaker.

Professor Joseph Benner of Lebanon, and Professor J. W. Bolin of Brownsville, have been reelected county school supervisors of Linn county.

Jacksonville Post: The water system is completed. Now get busy; tell your friends about it in your letters; let the outside world know we have the best little city on the coast.

Canyon City Eagle: If literary lights are looking for Joaquin Miller cabins to dedicate there is one in Canyon City still intact that Miller lived in during the early sixties or long before he ever aspired to be a poet. The old cabin is going to decay, but if admirers want a real relic of the days when he was only a county judge, here is the place to get it.

Burns News: Both truck lines are now running full blast between Burns and Bend bringing in freight in great "gobs."

Shawiko Star: Sherman county to the front again. Mrs. J. D. Bell of Kent writes the Star that a Merino buck sheared at the Bell place this season yielded a fleece weighing 35 pounds. Can anyone beat it.

After 18 years on the Dallas school board, John Gavin wished to retire, but at the urgent request of many taxpayers and teachers he has agreed to stand for reelection for a five-year term.—Journal.

## WEEVIL PEST

### Remedial Measures Discussed by Entomologist from Agricultural College.

Corvallis, Ore., June 18.—"No really satisfactory treatment is at present known for this serious pest," says Assistant Entomologist A. L. Lovett, O. A. C., discussing the attacks of the strawberry-root weevil on beds in the Freewater-Milton district.

"Fields do not generally begin to show the attacks until the beginning of the third season, and those planted in hills not so soon as those in the mat system. The Magoon and Clark Seedling are especially prone to attack, while the Gibson seems practically immune. Where fields were watered from the Hudson Bay ditch they were usually infested, though often absolutely free if watered from private wells.

"This indicates that the beetles do not migrate from infested patches to new ones."

into the ditch and are washed down to fields below. As they cannot fly, and can only crawl, outside agencies must be used for transportation any great distance. They feed and crawl at night, resting in darkened or sheltered nooks by day.

"Since the adult beetles feed on the foliage, spraying with one of the arsenical poisons would seem effective. But two factors argue against this: the beetles emerge and commence depositing eggs when the berries are in full fruit, and they have a wide range of host plants and are not heavy feeders, so avoid sprayed foliage, either feeding on other crops or waiting for new growth.

"I am trying out different materials with a view to repelling or killing the grubs in the soil. It is a great problem to obtain something which will destroy the grub and yet not injure the tender plant. One Freewater grower reports success in using ashes and lime on infested fields and then flooding with water. Another grower plans to flood the soil this fall after the picking season, and keep the plants submerged several days. This should kill the grub, but just what the possible effect on the strawberry plants and young fruit trees will be is yet to be seen. The treatment would, at best, be confined to irrigated districts, which do not include all the fields infested.

"Since the beetles can not fly, the barrier method may be used. A field of about an acre and a half is enclosed by a low fence such as, it is hoped, will keep the pest out. The weevil is a serious pest with many factors making its control a complex problem. We hope eventually for satisfactory solution and are not discouraged. We are at all times, however, glad of suggestion, reports of experience and observation from growers, and will appreciate any offers of cooperation.

## Turn Desert Into Vast Garden

London, June 19.—The plans for turning the desert regions of Mesopotamia into an agricultural paradise are being pushed by the Turkish government in spite of its external troubles. The irrigation scheme, which originated in the brain of Sir William Wilcocks, will involve the expenditure of \$150,000,000 before it is complete.

The dam which is to control the flood waters of the river Euphrates is under construction by a British company, and the Turkish government is now anxious to proceed with the initial stages of the irrigation works.

The success of the plan will enable enough grain to be grown to affect the cereal markets of the world. In ancient times the whole of the Euphrates delta was irrigated, and the rank growth of grain excited the wonder of Greek travelers.

According to the sometimes veracious Herodotus, the rich land yielded three hundredfold, and there is no doubt that at the time of the Greek historian's visit the delta was the chief granary of the world. But its tradition can be relied upon, its fertility was of even greater antiquity, for it was here that popular belief located the Garden of Eden.

It is a matter of history, moreover, that, from the delta, wheat, found here in its wild and uncultivated state, was taken and gradually transplanted all over the world.

The land which gave birth to the world's staff of life is now a barren waste threatened with the ruins of the great dikes and ditches built by the Chaldeans. The ruin of the greatest of ancient irrigation works was accomplished in the eleventh century by the forebears of the Turks, who are now seeking their restoration.

During the summer months mothers of young children should watch for any unnatural looseness of the bowels. When given prompt attention at this time serious trouble may be avoided. Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon. For sale by all dealers.

## Losses \$50,000 in Morning Fire

Chehalis, Wash., June 15.—Fifty thousand dollars' worth of business property was destroyed at the mill town of Napavine early this morning. M. F. Marshall, merchant, is the biggest loser, with \$20,000, on which he had \$7000 insurance. Other losers are Linney & Hawkins, saloon, \$1500 insurance, loss \$3000; W. A. Morton, butcher shop; Ed Griffin, barber shop; C. A. Burnham, saloon building; Mantley Parker's rooming house. There was no insurance except as stated. The origin of the fire is unknown.

## CANNOT RAISE RATES

### Conflicting State'smen's in Report of Decision Affecting Portland.

Washington, June 17.—The Interstate Commerce Commission denied today the application of the Southern Pacific Railway Company for relief from the operation of the long and short haul law governing traffic between Portland and San Francisco common points. It was held, however, that the Southern Pacific has justified the exaction of higher rates south-bound from Portland to points inland than to San Francisco. The existing rates, subject at intermediate points to the operation of long and short haul provision, will stand, the necessary adjustment of rates to be made by August 1.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by all dealers.

## School Notice

Notice is hereby given that there are funds in the hands of the District Clerk to pay warrants No's. 1, 2, 3 and 4. Interest will cease from this date. Dated June 22, 1912.

LEWIS ULRICH,  
School Clerk District No. 1.

## Titanium and Alloys of Steel.

Much experimenting with various alloys of steel has been carried out by railroads and rolling mill operators to produce a rail that will give more satisfactory service than the ordinary rail now in use. One of the principal metals used in these experiments, according to the United States Geological Survey, is titanium. More than 250,000 long tons of rails were rolled in 1910 from steel to which ferro-titanium had been added. More than 150,000 tons of steel rails in which nickel or nickel and chromium were used as alloy were also made during 1910, and experiments were made with about 80,000 tons of steel rails in which chromium, manganese, vanadium, and other metals were used. Certain steel makers, according to the Survey, are now advertising titanium steel, claiming that although no titanium is left in the steel, the removal of gases and impurities effected by it greatly increase the good quality of the steel.

## THE BEST PROOF

### Jacksonville Citizens Cannot Doubt it. Doan's Kidney Pills were used—They Cured.

The story was told to Jacksonville residents. Time has strengthened the evidence. It has proven the cure permanent. The testimony is from this locality. The proof convincing.

Mrs. J. H. Bausum, Central Ave., Medford, Ore., says: "I was so bad with kidney trouble that I could not do my housework. My back was weak and painful and in the morning when I got up, I was lame and sore. The kidney secretions were unnatural and my health steadily ran down until I was hardly able to get about. While in that condition, I read about Doan's Kidney Pills and got a box. I felt better from the time I commenced their use and it was not long until I was cured. I am in a position to recommend Doan's Kidney Pills to anyone afflicted with kidney complaint." (Statement given Sept. 14, 1907.)

## BE ENDOREMENT

When Mrs. Bausum was interviewed on October 26, 1909 she said: "My former endorsement of Doan's Kidney Pills still holds good. Since this remedy cured me I have had no further attacks of kidney complaint and I have enjoyed good health. I do not hesitate to say that Doan's Kidney Pills are beneficial for all difficulties, caused by weak kidneys."

For sale by all dealers. Price 50 cents. Foster-Milbran Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
