**COMING TO MEDFORD**

**Associated Specialists, Will Be at the Medford Hotel FRIDAY, NOVEMBER, 1st AND WILL REMAIN ONE DAY ONLY**

**Remarkable Success of These Talented Physicians in the Treatment of Chronic Diseases. OFFER THEIR SERVICES FREE OF CHARGE**

The Associated Specialists, licensed by the state of Oregon for the treatment of deformities and all nervous and chronic diseases of men, women and children, offer to all who call on this trip, consultation, examination, advice free, making no charge whatever, except the actual cost of medicine. All that is asked in return for these valuable services is that every person treated will state the result obtained to their friends and thus prove to the sick and afflicted in every city and locality, that at last treatments have been discovered that are reasonably sure and certain in their effect.

These doctors are considered by many former patients among America's leading stomach and nerve specialists and are experts in the treatment of chronic diseases and so great and wonderful have been their results that in many cases it is hard indeed to find the dividing line between skill and miracle.

Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, kidneys, or bladder, rheumatism, sciatica, diabetes, bed-wetting, leg ulcers, weak lungs and those afflicted with long-standing, deep-seated chronic diseases, that have baffled the skill of the family physician, should not fail to call.

According to their system no more operations for appendicitis, gallstones, tumors, goiter or certain forms of cancer. They were among the first in America to earn the name of the "Bloodless Surgeons," by doing away with knife, with blood and with all pain in the successful treatment of these dangerous diseases.

If you have kidney or bladder trouble bring a two-ounce bottle of your urine for chemical analysis and microscopic examination.

Deafness often has been cured in sixty days.

No matter what your ailment may be, no matter what others may have told you, no matter what experience you may have had with other physicians, it will be to your advantage to see them at once. Have it forever settled in your mind. If your case is incurable they will give you such advice as may relieve and stay the disease. Do not put off this duty you owe yourself or friends or relatives who are suffering because of your sickness, as a visit this time may help you.

Remember, this free offer is for one day only.

Married ladies must come with their husbands and minors with their parents.

Office at Medford Hotel. Hours, 10 a. m. to 8 p. m.

**HIGH AND LOW CITIES.**

**And the Difference in Our Altitudes East and West.**

The differences between the eastern and western elevations in this country are curiously striking. Colorado has forty peaks that are more than 14,000 feet above sea level. Mount Washington, in New Hampshire, and Mount Mitchell, in North Carolina, the highest peaks in the Appalachian system north and south respectively, are considerably less than half as high as this above the ocean.

Several transcontinental railway lines in the west pull their main line trails over a greater elevation than that reached by the cog railroad up New Hampshire's above mentioned peak. These western elevations are, of course, reached gradually.

Most large cities lie low. Chicago is only about 600 feet above sea level and Pittsburgh but a hundred feet higher. Philadelphia ranges from sea level to a height in its suburbs of some 300 feet. Minneapolis, near the head of the Mississippi, has an elevation of less than 1,000 feet, and various parts of New Orleans, at the mouth of the great river, are recorded in the government tables as having elevations of from one foot to fifty feet. St. Louis lies about halfway between these terminal cities.

Montana is away up, with its leading city perched at the elevation of the highest peaks of the Adirondack mountains. In Denver there is a mark near the state capitol which is just one mile above sea level.—New York Sun.

**WANTS COMMON JUSTICE.**

**Working Men and Women of the State Oppose Malicious Laws.**

In order to make a farce and a laughing stock of popular government and the initiative and referendum, two measures have been initiated by the big business interests which are deadly opposed to the rule of the common people. One proposed law limits free speech in cities of 5,000 or over, and is so glaring an example of class legislation that it is absolutely revolting to a right-thinking individual.

And the same people, who are insistent that free speech should be hampered, are asking the citizens of the state of Oregon to legislate against the people to spend their earnings where and how they please. A direct and clean-cut analysis of the law proves that a farmer could not ask his neighbors to not patronize an establishment that defrauded him, could not recommend any course of action or warn his neighbors against being taken in, too. The measure however, is aimed at the organizations that are seeking to improve conditions for the common people. Eight thousand signatures to this bill were secured in Multnomah county, where the people on a referendum of a similar ordinance, defeated the forces of big business overwhelmingly. The working people of this county ask you, the voters of the state, to deal justly with them and defeat the anti-boycott and anti-free speech bills.
