Grants Pass Votes Bonds.

Grants Pass, Ore., Dec. 16.—Grants Pass is today voting upon the question of a special bond issue of \$200,000 for the financing of a railroad to the coast, the sea terminal to be Crescent City, in Del Norte county, Cal. There is little opposition to the voting of the bonds and they are expected to carry with at least eighty per cent of the total vote in their favor. The women voters are interested and are lending their support to the project.

This city proposes to construct the first unit of the road to the Applegate valley, to own and operate this part, about twenty miles of track, as a municipality, or to lease it to an operating company.

Crescent City and the big lumbering interest are to commence construction at the coast end, having already subscribed the capital. The road from Grants Pass to the coast will be about ninety miles in length and will open up immense belts of timbers, deposits of mineral and rich agricultural valleys, touching both the Applegate and the Illinois river districts.

Desperado Son of Eugene Man.

Santa Ana, Cal., Dec. 17.—The young desperado who was killed yesterday after slaying one and wounding three of the posse which battled with him, was identified today as Joe Matlock, formerly of Eugene, Or. The identification was made by Dr. L. L. Whitson, a dentist, who formerly resided in the Oregon town.

Whitson said Matlock was arrested in Eugene three or four years ago for a crime similar to that which he attempted Sunday, but left that vicinity after his release from jail. On a torn envelope in the dead man's pocket was written the name of H. L. Brown, and according to the dentist Brown was the sheriff at Eugene when Matlock was arrested.

Sheriff Rutlock of Orange county, found a photograph of Matlock which had been sent out by the Eugene sheriff at the time of Matlock's departure and it bears a strong resemblance to the dead man's.

Matlock was a son of former Mayor J. B. Matlock of Eugene.

Three deputies wounded by the bandit are reported doing well today. The condition of Will Prater, who was shot through the head, is very serious, but according to physicians he has a good chance for recovery.

Matlock was hunted down and killed while resisting arrest after assaulting a fourteen-year-old girl near Santa Ana.

Fit His Case Exactly.

"When father was sick about six years ago he read an advertisement of Chamberlain's Tablets in the papers that fit his case exactly," writes Miss Margaret Campbell of Ft. Smith, Ark. "He purchased a box of them and he has not been sick since. My sister had stomach trouble and was also benefited by them." For sale by all dealers.—Advertisement.

Plan to Develop Waterpower.

Washington, Dec. 16.—The immediate formulation and adoption of a practical Federal water-power policy which will encourage the development, and at the same time adequately protect the interests of the public, is strongly urged by Secretary Fisher in his annual report to the President. The Secretary condemns as impracticable and harmful the present law governing water power on the public domain, and seeks to impress upon Congress and upon the country the necessity for enacting a new law that will induce capital to avail itself of numerous opportunities for hydro-electric development, particularly in the Western States.

Indirectly, the report is a criticism of Congress for its failure to take up and dispose of this subject in an intelligent manner.

The secretary, as he has heretofore made known, is opposed to transferring to the states full jurisdiction over water-power development, but proposes a system of Federal regulation and control, not designed to swell the fund in the Federal treasury, but to extend the improvement of streams and watersheds in those states where water power can be developed. He would also leave to the states the function of regulating the service and the rates of hydro-electric public utilities.

The Secretary also objects to the general policy of extending the time of payments for settlers on Government

projects, though recognizing the justice of extensions in certain cases for cause. He would lighten the burden on the settler during his early years, has already authorized graduation of payments, and would amend the law to allow a postponement of residence on reclamation entries until two years after entry is made.

Secretary Fisher recommends the "adoption of constructive legislation with respect to water-power development and control, and the comprehensive application of the leasing system to the development of our public coal, oil, gas, asphalt, nitrate, potash and phosphate lands, with appropriate provision for the protection of prospectors during a reasonable exploration period preliminary to the leasing of the land."

Studying Air Waves.

"Air waves" is now a stock term with the aviators and those interested in aviation, but is of interest aside from this sport. As a matter of fact, "we have our being submerged in waves" to which the greatest waves of the ocean are mere ripples in point of size. When a current of air blows across a water surface waves are produced, and when a current of air blows across a surface of quiet air, or air having a different motion from the first current, then air waves will be produced.

These atmospheric waves have all of the phenomena of water waves—troughs, crests, foaming, breaking and spraying, but since the qualities of air and of water are so different the air waves have dimensions more than 2500 times those of the corresponding water waves.

Thus, the greatest ocean waves of, perhaps, 25 feet, would have atmospheric counterparts, extending upward a distance of 10 or 12 miles above the surface of the earth. The passage of these huge air waves would be felt by us, since they would cause a stirring up of the air at the earth's surface somewhat similar to that produced by the passage of water waves over shoal places.

The undulating movement of such air waves would account in part for the intermittent gusts of wind that we notice so frequently in storms. The presence of these waves is also indicated by the existence of certain kinds of regularly formed cloud groups in which each cloud marks the crest of an air wave.—Telegram.

THE BEST PROOF

Jacksonville citizens Cannot Doubt It.

Doan's Kidney Pills were used—they cured.

The story was told to Jacksonville residents. Time has strengthened the evidence. Has proven the cure permanent. The testimony is from this locality. The proof convincing.

Mrs. J. H. Baussum, Central Ave., Medford, Ore., says: "I was so bad with kidney trouble that I could not do my housework. My back was weak and painful and in the morning when I got up, I was lame and sore. The kidney secretions were unnatural and my health steadily ran down until I was hardly able to get about. While in that condition, I read about Doan's Kidney Pills and got a box. I felt better from the time I commenced their use and it was not long until I was cured. I am in a position to recommend Doan's Kidney Pills to anyone afflicted with kidney complaint." (Statement given Sept. 14, 1907.)

When Mrs. Baussum was interviewed on October 26, 1909 she said: "My former endorsement of Doan's Kidney Pills still holds good. Since this remedy cured me I have enjoyed good health. I do not hesitate to say that Doan's Kidney Pills are beneficial for all difficulties, caused by weak kidneys." For sale by all dealers. Price 50 cents, Foster-Millbran Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

If you have young children you have perhaps noticed disorders of the stomach with its most common ailment. To correct this you will find Chamberlain's Tablets excellent. They are easy and pleasant to take, and mild and gentle in effect. For sale by all dealers.

Notice of Sale of Improvement Bonds.

Sheer Waste.

Mr Archibald Gelkie tells a story of a Scotchman who, much against his own will, was persuaded to take a holiday. He went to Egypt and visited the pyramids. After gazing for some time at the great pyramid he muttered, "Man, what a lot of mason work not to be bringin' in any rent!"

Success and Failure.

It is sometimes hard to find out just how the man who is successful has managed to succeed, but it is always easy to see why failure comes to those who fail.—Chicago Record-Herald.

A Hard Job.

His Friend—What part did you find most trying when you were on the stage? Footlights—Trying to live up to the salary I told my friends I was drawing.

Why They Preach.

The distinction between a good preacher and a bad preacher has not changed much since Archibald Whately declared that "a good preacher preached because he had something to say and a bad preacher because he had to say something."

Pure Malice.

"The boys in my neighborhood broke a window last night."
"The playful exuberance of youth, of course."
"Nothing of the sort. It was my window."—Cleveland Plain Dealer.

Her Dear Friend.

Miss Honeloch—Perhaps you won't believe it, but a strange man tried to kiss me once. Miss Cutting—Really? Well, he'd have been a strange man if he'd tried to kiss you twice.

The Choice of a College.

Kneker—Does your son want an education? Becker—He says he is willing to be a quarterback in the electoral college.—New York Sun.

Gresham Outlook, Two flat cars were loaded with sand at the big gravel pit on the Mount Hood road last Saturday by eight young men from Cottrell. The sand is intended for a footpath from Cottrell station to the old town of that name. The distance is over half a mile and funds for the walk were raised partly by subscription and a basket social. The cost is over \$150.

Cured of Liver Complaint.
"I was suffering with liver complaint," says Iva Smith of Point Blank, Texas, "and decided to try a 25c. box of Chamberlain's Tablets, and am happy to say that I am completely cured and can recommend them to every one." For sale by all dealers.—Advertisement.
