Large Cargo

The latest cargo of merchandise that ever entered the harbor of San

Francisco arrived from China and Japan on the Pacific Mail Manchuria today (Thursday Sept. 17) and by morning will be speeding eastward in bond to New York on five special Southern Pacific trains. The cargo consists of 270 tons of raw silk and silk pieces, and 2700 tons of tea, matting and other Oriental merchandise; the total shipment requiring over 165 cars, 15 of which are of an especially constructed design to meet the requirements of the silk.

For a week, the Southern Pacific has been obtaining every available car of the highest type of equipment in the neighborhood of San Francisco. These have been lined up near the Pacific Mail dock, with several switch engines assigned to the duty of handling them preparatory to the departure of the trains on the transcontinentals.

Special tram and freight handling crews have likewise been held in readiness. The silk goes first on its own special train. The remaining 2700 tons of merchandise will follow in other specials as rapidly as it can be assembled into trains.

Coffin by Parcel Post

J. P. Dodge & Sons received a coffin by parcel post from Portland a few days ago. It was something of a surprise to the firm, as Will Dodge ordered the coffin but did not expect it by post. In the same order he asked that several small items be sent by mail. Evidently confusing the request, the entire bill was mailed. When it arrived in the local office considerable speculation was aroused as to just what will be the next strange thing the mail will carry.—Ashland Tidings

A Grave Injustice

Do those who advocate the absolute prohibition of the manufacture and sale of all alcoholic liquors realize the seriousness of the social and economic crisis that would be precipitated by such legislation? Are they aware of the fact that the heads of families aggregating probably not less than three million people would suddenly be deprived of their sole means of livelihood, and that properties valued in the aggregate at perhaps two billion dollars would as suddenly become worthless?

It is doubtful if they do fully realize this, yet these are figures given by no less a writer than Dr. Henry Smith Williams in an article in the "Ladies Home Journal," reviewing the prohibition movement. And he adds: "Personally I am at a loss to understand how anyone who has the slightest grasp of economic questions can contemplate with equanimity the anarchistic possibilities—nay, certainties—which reveal themselves through the slightest use of the imagination in connection with these figures. To me, at least, it seems obvious that the only thing which has kept the prohibition movement before the people of the United States is the simple fact that prohibition does not prohibit."

Thinking men and women who seek the truth and are unswayed by prejudice, and who give the foregoing facts the consideration they deserve cannot escape a like conclusion. —Paid Advertisement.

Why Make Oregon the Goat?

Why Is OREGON Picked for Alleged Nationwide Prohibition Fight?

Why Have Eastern Millionaires Brought THIS Agitation to THIS Pacific Coast State?

It is not generally known in Oregon that the proposed prohibition amendment to the State Constitution is an issue framed by men who have no personal interest in this state.

Who the real politicians are who comprise this group of men is kept a profound secret from the people of Oregon. Their real motive is likewise kept a secret. All that is made public is that they are philanthropists, who are bent on saving humanity. Millions have been raised to accomplish this philanthropic work of saving a nation, but who these millionaire philanthropists are is not being told to the public.

The question naturally must arise, therefore, in the minds of Oregon voters: Since when have these kind of millions worked for the uplift of real humanity? Having brought nearly every necessity of human life in this nation under their monopolistic control, not for the good of humanity, but for the satisfaction of their own greed, why are they now so clamorous, so noisy in their demands for nationwide prohibition? Is it not the duty of every voter in Oregon first to "stop," "look" and "listen" for a moment and to ask himself or herself:

Why have these Eastern millionaire philanthropists so suddenly turned their spots? Why so anxious for humanity? Is there a "dollar reason" lurking behind the movement somewhere?

Why do they not come to Oregon with a uniform issue? Why do they frame one issue for Washington to catch votes in that state and another issue in Oregon to catch votes here? Why do they not frame one issue for all states? Why do they not put into the Oregon issue a provision against distribution and giving away of liquor? Why do they only want the manufacture and sale of alcoholic beverages prohibited here in Oregon? Are they truly working for prohibition or even true temperance, or is there a joker somewhere which they are asking the good people of Oregon to swallow in the shape of a constitutional amendment? Why have they included the words "manufacture, sale, giving away and transportation from one point to another" in the California amendment now being agitated in that state? Is it because they know in advance that they will lose that state by at least 200,000 votes and are resorting to political trickery so common with millionaire philanthropists in order that they may delude the people in other states as to what they are "fighting for in California?"

Why do they not bring that same issue to Oregon?

What are these Eastern millionaire philanthropists really trying to do? Are they really worrying about humanity and Oregon or is it some new scheme to control something to make some new kind of dollars that is worrying them?

Paid Advertisement—Taxpayers and Wage Earners' League, Portland, Oregon

Why is it they have framed a law for the Washington voters on our North for this fall which provides that a half gallon of alcohol or a dozen bottles of beer may be bought every two weeks by an adult person? This would permit Washington to stay drunk all the time. Why do they claim that that is temperance or prohibition? Why do they not bring one of these three issues to all three Pacific Coast States? Why are not all sister states made to confront the same issue at the same time? Is it not a national organization, with a national fund of millions, with a national programme to do nationwide good to humanity? Or are they really working for nationwide temperance or prohibition, after all? Or is there something covered up by these millionaire Easterners? Is it some new scheme to get the public to help them to make some new kind of dollars?

Why has Oregon been selected as the focusing point for this campaign of Eastern millionaires? Why should it be the one state of all Pacific Coast states to have 5,000 men thrown out of employment, 1,500 to 2,000 more homes made empty, 1,000 more stores made vacant, a \$6,000,000,000 industry crippled, incomes reduced, realty values depressed, taxes made tremendously higher and business unsettled when the very millionaire philanthropists who have framed the Oregon amendment have not proposed a true temperance issue?

Many right minded men and women of Oregon, not knowing all the foregoing facts and other facts to be published in these columns from issue to issue, have been swayed by the loftiest of motives in supporting the issue brought to them by these Eastern millionaires. They have been made to feel that they were entering in a national fight for temperance and in too many cases have been blindly led into the support of a cause which will not only injure true temperance, but make present admitted hard times in this state twice and three times as hard if the proposed statewide prohibition amendment is adopted. Stagnation would have been created, yet any husband, son, brother or father would be able to temper liquor into and through the state and to give it away if the present spread home rule and local option laws are replaced by a state constitutional amendment and the control of the liquor traffic is turned over to the state police authorities. Even then, would it be temperance as authorized at this time at expense of stagnation?
