THE ELECTION

Returns Show Republican Gains. Prohibition Carries in Washington and Oregon, Loses in California.

The returns of Tuesday's election show republican gains in most of the states, making the next congress almost an even break between democrats and republicans. The progressives were nearly a joke, being defeated almost everywhere.

The prohibition amendment carried in this state by a majority of about twenty-five thousand and in Washington state by thirteen thousand.

The republican candidates for state and district officers were all elected excepting Booth who was defeated by Chamberlain.

Jackson county gave Chamberlain, Smith and Hollister, democrats, large majorities over their republican opponents.

Increased Pottery Exports

The American demand for several minor mineral products will be stimulated by the changes in trade with Europe, with the result of increasing materially the production for 1914 and following years. In the case of pottery this movement toward a stronger hold of the domestic market is already under way. The production in 1913 was the largest in the history of the industry. The underlying cause of this prosperity is no doubt the improvement in the character of the American product in texture, finish, color, decoration, and the prevention of crazing, the higher grades of American pottery equaling if not surpassing some of the best imported ware.

The City Park

The election is over and it seems to us that now is a good time to take up the matter of a city park. The writer has visited another piece of woodland, owned by Mr. Chris Ulrich, which can be secured on favorable terms for this purpose. It is located on Third street and is easily reached either on foot or with auto or team. We hope that those interested in the establishment of a park will get together and see what can be done in the matter.

Plans are being prepared by R. L. Chapman for rearrangement of interior of Dallas hospital building for use as an apartment house.

NATIONAL FARMERS HOLD CONVENTION

Government Aid Sought in Marketing Cotton—Work of Peter Radford Commended.

Fort Worth, Texas.—The eleventh annual meeting of the Farmers' Educational and Co-operative Union of America came to a close in this city today. More than two thousand delegates were present, representing the various state organizations and covering an area from coast to coast and from the great lakes to the gulf.

President Chas. S. Barrett, presided over the sessions and introduced the various speakers. The keynote of the convention was the action of the convention in asking government aid in financing the cotton crop of the South.

"The greatest crisis in years, brought on by the European war, faces the United States," said President Barrett in his opening address. "There is only one thing to do and that is for the United States government to buy three or four million bales of cotton at not less than ten cents a pound from the farmers of the South to be held until a higher price may be obtained and, when sold, the profit, minus the expense of handling to be returned to the farmers."

The convention went on record as favoring the Henry bill introduced before Congress recently, which favors the buying of cotton by the government as a relief of the present situation. This bill was drafted with the co-operation of President Barrett, who believes that it fully covers the situation.

Provision was made for the raising of a fund of \$200,000 for the purpose of maintaining a committee to devise plans for relieving the depressing results of the European war. This committee will include a member from every organized state, together with the national officials and the national executive committee. The committee will be in charge of Peter Radford of Texas, who was appointed chairman, and before the adjournment of the session more than \$10,000 of the fund had already been pledged.

A resolution was passed condemning the present war and recommending the establishment of an international parliament and an international court, looking to universal peace and good will between the nations of the world.

Child Labor Condemned.

A resolution was passed endorsing the bill providing for the elimination of products from interstate commerce which are manufactured in factories employing children less than fourteen years of age or those employing children under sixteen years of age more than eight hours.

A marketing plan introduced by Harry Tracy of Texas in which a practical system of marketing farm products was outlined was heartily endorsed by resolution.

Union Officials Endorsed.

Referring to the work of the officers of the Farmers' Union, Mr. Barrett paid a high tribute to the manner in which they have co-operated with him. "They have stood steadfastly by me in every call to duty," said Mr. Barrett, "and in every endeavor for the general good. They are true, faithful and conscientious men. I want to pay especial tribute to one individual, Peter Radford. If I should be asked to name one man in the Union who has done more to lighten my own load, who stood ready day or night for service, who doesn't even wait for the distress signal, then I'd have to say Peter Radford. Men like Peter Radford keep one's faith sound, his courage high and renew belief in humanity."

Union Growing Rapidly.

President Barrett stated that the Union was fast growing in numbers and in strength. Twenty-seven states in the Union are included in its membership and the total number of members aggregate more than eight million. It is the boast of the Union that all its members are men who are actual farmers and that no one who does not till the soil, is eligible for membership in the organization.

The officials of the Union were unanimously re-elected for the coming year as follows: C. S. Barrett, Georgia, president; A. V. Swift, vice president, Oregon; A. C. Davis, secretary, Arkansas.

Husband and Wife.

Husband means house bound; wife, weeping one; son is the cleaner; daughter is the miller; son-in-law is the unmarried sister of husband or wife, who is the spouse.

Perpetual Motion.

A discovery which seems to be the equivalent of perpetual motion was described by Professor Whitehead at a meeting of the American Institute of Electrical Engineers. He declared that by subjecting a closed coil of lead wire to practically absolute zero temperature, and starting a flow of electricity therein by some external means, Professor Kauerlingh Okaes of Leyden, Germany, succeeded in maintaining a continuous current without the expenditure of energy. To obtain the extremely low temperature necessary to make the experiment a success the coil was immersed in liquid helium. The current was started in the wire by magnetic induction, the flow of electricity persisting. It is declared, for four and one-half hours after the magnetic influence was removed. It was stated that if the experiment had not been terminated when it was the current would probably have continued to flow indefinitely.—Electrical World.

Reversed the Terms.

An old negro who lived on a southern plantation went to the nearby city for a visit and while there went to see his young "marster," who was living in the city at the time. On his return the young man's mother asked if he was in good spirits.

"Well, ma'am," responded the old negro, "I reckon I'll 'spess I a little different an' say de good sperits wuz in Morse Jones'."—Exchange.

Mexico's Flag.

The Mexican flag is a tricolor, exactly like the Italian flag, consisting of three broad bars, pale green, white and red, running vertically.

Memoirs of Napoleon

In Three Volumes

This man caused the last general European war.

His personal memoirs, written by his secretary, Baron De Meneval, are full of the most absorbing incidents, especially in view of the present great European struggle.

Just a hundred years ago, his ambitions bathed the Continent in a sea of blood. France alone, under his leadership, fought Germany, Russia, Austria, Italy, and Great Britain—and won.

Get these Memoirs Free

By special arrangement with the publishers of COLLIER'S, The National Weekly, we are enabled to offer a limited number of these three-volume sets of the Memoirs of Napoleon free with a year's subscription to Collier's and this paper. The offer is strictly limited—to get advantage of it you must act promptly.

Sherlock Holmes Stories Exclusively in Collier's

All the Sherlock Holmes stories published in 1915 will be printed exclusively in Collier's.

The "Last-minute" pictures of the Fenian War will appear every week in the photographic section of Collier's.

The finest fiction written will appear each week in short story and serial form.

Mark Sullivan's timely Editorials and widely quoted Comments on Congress will continue to be an exclusive feature.

Special Offer to our Readers

Your own home paper and COLLIER'S, The National Weekly, together with the three volumes of Napoleon's Memoirs—all of these you get for the price of Collier's alone, plus five to cover the cost of packing and shipping the Memoirs.

Send your order to this office now. If you are already a subscriber, your subscription will be extended for one year from its present date of expiration.
