

Millions Visit World's Great Panama-Pacific International Exposition at San Francisco

ALL RECORDS FOR ATTENDANCE BROKEN BY MARVEL EXPOSITION CITY AT THE GOLDEN GATE.

VAST CROWD GATHERED BEFORE THE HUGE TOWER OF JEWELS. ARE YOU GOING TO VISIT THE HUGE EXPOSITION?

THIS remarkable panoramic photograph shows part of the vast crowd that gathered on the opening day of the Exposition, Saturday, Feb. 20. The crowd was not only the greatest ever brought together in the west, but in vastness it broke all previous exposition attend-

ance records. The grounds were thronged with visitors from every part of the globe, and the big attendance still continues. The opening day crowd was remarkably peaceful, and no arrests were made by the Exposition guards or military during the day, and but one child was lost, and it was returned to its mother within fifteen

minutes. There were no accidents. The photograph above shows, on the left, the Italian towers guarding the entrance to the Court of Palms next to the Palace of Varied Industries and in the center and on the right the huge grand stand built before the Tower of Jewels. Here Secretary of the Interior Franklin K. Lane, acting in behalf of

President Wilson; President Charles C. Moore of the Panama-Pacific International Exposition, Dr. Frederick J. V. Skiff, director in chief, accompanied by the thirty Exposition directors, welcomed the vast throng that assembled in Van Ness avenue and its lateral streets and, headed by Mayor James Rolph, Jr., walked on foot through the

streets of the city and into the Exposition grounds through the Scott street entrance to the grand stand. At the time this photograph was taken Lincoln Beachey, aviator, had just appeared above the horizon in his flying machine, and the throng was awaiting Mr. Beachey's approach to circle the huge Tower of Jewels.

Since the opening day the Exposition has been crowded with visitors from all parts of the world. Low railroad rates, the sunny skies of California and the opportunity to see the wonderful displays of the forty-two nations that are participating in the Exposition are drawing thousands to the Exposition city at the Golden Gate.

What After Safety?

Everybody from Dan to Beersheba is now thoroughly convinced that "safety first" is the proper thing. It may not always be possible to agree upon whose safety it shall be, but consider- red wholly in the abstract anybody caught putting anything ahead of safety in these enlightened days of peace and good will would have to dodge another rest of his life.
 Indeed, so amenable and universally settled is this problem of "safety first" that many are wondering if we shouldn't now stop talking about it and commence to consider what shall come after safety. Safety, although the first thing, is not the only thing. What shall we have for second? Any suggestion, however foolish, will be welcome. Life

Inner Life in Constantinople.

Constantinople has a deleterious effect upon Europeans. So at least declared a "great and highly gifted lady," mentioned by Grant Duff. She had the honor of being received by the sultan "I hope you like Constantinople?" inquired the monarch. "Yes," said she, "but I find great difficulty in leading my inner life here." The sultan started, but, recovering himself, said suavely, "Ah, no one should drink water here without having it previously boiled."—London Chronicle

This Player "Quick Study."

For remarkable memory it would be hard to outdo a strolling player of the eighteenth century, of whom Sir William Robertson Nicoll has written. For a wager he once undertook to memorize the whole of the next day's Daily Advertiser and accomplished his task by repeating every line in the journal, news, headings, advertisements and all in perfect order and without a slip.—London Tatler.

Gentlemen Didn't Answer.

"Will the gentlemen please move up forward a little?" called out the port-conductor of the trolley car.
 "I won't," growled Mr. Grouch, who hung to a strap near the door.
 "Oh, I didn't ask you," said the conductor.—Buffalo News.

Talking.

Talking is like playing on the harp. There is as much in tugging the bands on the strings to stop their vibrations as in twanging them to bring out their music.—Holmes.
