VOL. IX.

JACKSONVILLE, JACKSON COUNTY, OREGON, MAY 22, 1915

NO. 3

## INDUSTRIAL REVIEW

**Manufactures, Enterprises and Improvements - Providing Payrolls and Promoting Development of Oregon**

Six boards and commissions on higher Education cost for past two years \$14,866.02. The six boards have fifty persons connected with them.

April wheat shipments from Portland 916,915 bushels.

Silverton would improve Church street with concrete.

Bandon has sold \$14,000 bonds for a new school house.

Forest Grove will improve streets with macadam at \$1.00 to \$1.50 a foot

Harrisburg-Linn and Lane counties to build \$60,000 bridge here.

Marshfield-Perry and Nicholson, large furniture store opened.

Wherever made responsible as common carriers jitneys drop out.

Independence-Valley and Siletz railroad will expend \$300,000 on extension.

To supply meters to all Portland water users is to cost \$1,000,000.

Roseburg-Engineer for Kendall Bros. designing \$500,000 sawmill.

Albany planning to erect some beautiful pergola gateways.

Monroe is to have a co-operative store.

North Bend-Work of paving principal streets with bitulithic started.

Brownsville-Oregon Power Co. installing lighting system.

Coos County will open highway from North Bend to Ten Mile country.

Eugene-two rooms and furnace ordered added to high school.

Portland-a new St. Helen's hall will rise on site of burned buildings.

Lake county will build a hospital at Lake View.

The Fort Rock-Bend highway is to be built.

The new cannery at The Dalles is to be ready by June 10.

Portland municipal wood yard finds itself with 10,000 cords of wood on hand that competes with farmers and wood dealers.

C. D. Lamsen, Gold Beach, will build a 30-room hotel at Brookings.

D. R. Wiggins, of Portland may operate the Glendale box factory.

North Plains is struggling for a cheese factory.

North Bend-L. J. Simpson will build \$8000 dairy barn at Shore Acres.

A game warden closed the Barry Crab cannery at Emoire on a technicality. More laws and officials, the less industries and higher taxes.

St. Johns-Star Sand Co. will erect \$35,000 dock.

Condon-contract let to Everett Logan for \$2750 Congregational church.

Litigation ending, the Porter Bros. sawmill on the Siuslaw will operate.

L. J. Simpson who built North Bend and operates large industries, resigned as mayor and will become a candidate for Congress.

Raising deer for Portland market is a new Douglas County industry.

Inman mine, Curry county, made clean-up of \$15,000 gold for winter's work.

Flour line from Seattle to Frisco via Hill line of steamers.

Grants Pass-Twohy Bros. expect to build 40 miles of railroad this year.

John Roessch of La Grande plans to build \$20,000 hotel at Union.

Eugene people moving for a new twelve-room grade school.

\$5000 to be spent on highway Grants Pass to Crescent City.

Florence voted \$5000 to build addition to school house.

Governor of Idaho may call special session to enact state aid plan for constructing railroads.

Eugene-Congregational Church made 250 per cent profit on 50¢ dinner.

## New York Stock Market

Another remarkable showing is that made on the New York Stock Exchange during the past month has done a larger business than any months in the last four years. While the New York stock exchange is not a creator of either prosperity or industry, it is nevertheless a most reliable indicator or barometer and its activities are the surest indications of returning prosperity.

One day last week more than one million and five hundred thousand shares (\$1,500,000) of stock were sold, which is the highest record for anyone day since the good old prosperous days of 1910.

"There is something so much greater and nobler to do than fight," says President Wilson—a sentiment that deserves to be framed and hung on the wall of the spare bedroom upstairs.

## WHO KNOWS?

**Present Strike May be Harbinger of New Era of Freedom For Man.**

Dante was born in May 1265 A. D. six hundred and fifty years ago. He wrote an allegorical story describing his journey through "Hell," "Purgatory" and "Paradise."

The world has waited a long time, but nearly all Europe except his own country—and she seems anxious to start—is now passing through something very like hell and purgatory, but paradise seems to be a long way off for those enroute. If European civilization as presented today in "Enlightened" Europe, can offer any reasons why it should exist, they will be welcome to a listening world. Milton wrote "Long is the way and dark that out of hell leads up to light." But looking out on the European world, the light does not much improve matters.

But who knows? Infinite justice grows weary of the prayers that were constantly rising from our country for freedom, and so at last caused great armies to be set in array, and the clouds were never lifted from our sky until four hundred thousand of the bravest and best of our people were dead, every home made a house of mourning, and half the land made a wreck.

Then when the people could dry their eyes enough to see and compose their mind enough to think, it suddenly came to them that the Infinite had grown weary of the institution of human slavery, and that in as much as it was a mighty wrong, that wrong had to be expiated through suffering.

Who knows but that the same inexorable judge is tired of kingly rule, wearying of hearing a weak mortal proclaim a divine right to rule other mortals, and has determined that man shall at last be free? And hence the present cataclysm?—Judge Goodwin.

## Postmaster Gets 60 Days

Portland, May 19-Lyman D. McKee, former assistant postmaster at Ashland, pleaded guilty in the United States district court this morning to a charge of embezzlement from the funds of the postal savings department, and was sentenced to serve 60 days in the county jail.

United States District Attorney Reames, in making his statement to Judge Bean, asked that the court be

lenient with McKee.

McKee admitted that he took \$360 from the funds on deposit. He used the funds to meet a payment on a home he was buying. McKee went to his old home in Michigan City, Ind. He was arrested there after a federal grand jury indicted him here in February, and served a month in jail before he was removed to Oregon.

## Long Range Bombardment

The astonishment which was aroused by the fact that the Germans were able to bombard Dunkirk from a distance of over 20 miles was confined entirely to the lay public; for military men, and particularly artillerists, have long known that it was possible to throw shells to a distance of 20 and even 30 miles if it was considered desirable to do so. It is probable that neither the German 16½-inch, nor the Austrian 12-inch gun was used, for neither of these pieces can cover any such range. More than likely a 12-inch naval piece of the older, short-caliber pattern was used and fired at a high angle of elevation.—Scientific American

## Gels Conditional Pardon

Salem, Or., May 18—Concluding, after an investigation that there was considerable doubt as to the guilt of Major W. J. Canton, an attorney of Medford, who was recently convicted of felony, Governor Withycombe yesterday afternoon issued a conditional pardon to him. Canton's conviction was recently affirmed by the supreme court, but the mandate has not yet been transmitted to the lower court in which he was found guilty. After the supreme court's affirmation of the conviction, petitions and letters began to pour into the executive's office asking that clemency be extended. He was sentenced to serve a term of from one to fifteen years in the penitentiary.

## Hay-making and Sunshine

Notwithstanding the old saying, "Make hay while the sun shines," the best quality of hay would result if the hay could be cured without the sunshine according to Professor J. E. Larsen, extension soils and crop specialist at the Oregon Agricultural College. "It is easy to overdo the sunshine business and the best green hay product is often ruined by too much sunshine in the curing. The quality undergoing a certain degree of fermentation. Extreme heat and sunshine prevent this and also destroys the natural green color, which should be kept in the cured hay as largely as possible. Good color and good quality are closely associated. Hay, especially grain and vetch, allowed to lie in small bunches until completely burned out, is low in value. It looks about like excelsior and is worth about as much for feed."—O. A. C. Bulletin

## Part of Leg Jam Broken

Keiso, Wash., May 19—More than 1,000,000 feet of logs were dislodged from the big jam on the Cooweeson at Jones' bar, a few miles east of here, Monday morning, when a headwater was turned loose from the big dam 20 miles up stream. The entire jam, containing about 8,000,000 feet was freed. Another flood will be sent down as soon as the water can be stored. A party of officials of the Multnomah Box & Lumber Co., whose logs largely compose the jam, were here from Portland to watch the attempt to break it.

## Laying Rails North from Coos Bay Towns has Begun

Marshfield, Or., May 17—Coos Bay's first effort to lay a track of steel north to join one already building in from Mapleton and thus open her communication on the Willamette Pacific via Eugene to the main lines has commenced. Engineer Broughton of the Southern Pacific, has started a crew laying rails on the road north to the Umpqua. This arm, it is expected, will continue north and meet at Reedport giving through travel as soon as the bridge across the Umpqua is completed. Trestle building at Ten Mile and North Lakes is being hurried and will be completed this summer. In some places to strike bed rock the pilings must be driven to a depth of 125 feet.

"In the opinion of David M. Dunne, and other pioneer manufacturers, the Bingham measure will prove of great value."

Mrs. Decatur Davis attended the circus at Medford Monday.

## PORTLAND LETTER

## Dairymen Buying Jerseys.

## Conference Sept. 21

## Bingham Bill Will

## Help Oregon

## Labor.

## Instructions to Give Tax Rolls to Sheriffs

## Assails Farmer

Salem, Or., May 17—Instructions advising county treasurers how to transfer the tax rolls to the sheriffs of the several counties on May 22, when a bill making the sheriffs again tax collectors becomes a law, have been forwarded to all county treasurers by the state tax commission.

Portland, Ore., May 18, (Special) That the dairymen of the Willamette Valley are fully alive to the importance of improving their herds is indicated by the phenomenal success of the auction sale of registered and grade Jerseys at Independence last week. The total number of animals changing hands was 185, of which 135 were registered merit cattle. This is the largest number of Jerseys of this class ever offered at one sale in the United States. Congressman McArthur was one of the largest buyers, securing 10 animals at a total cost of \$2,590 his highest price being \$375. Other high bids were: H. H. Curtis, \$500; W. L. Pate, \$400 and W. B. Allen, \$395. As many as 36 head of Jerseys were brought to this sale a single breeder.

Gov.

Withycombe has designated Sept. 21-22-23 as the dates for the waterpower and public land conference of Western states which will be held in Portland. At its late session the Legislature provided for such conferences and authorized the Governor to fix the dates. The Oregon delegation will be: E. B. Piper, of the Oregonian; W. Law Thompson, president of the senate; S. B. Huston and S. C. Hudson, of Bend. The Governor will act as chairman of the delegation.

At the convention of the Columbia and Snake River Waterways association at Astoria last week, W. W. Harbaugh, of Pendleton, said: "If the upper river causes a reduction of but 2 cents per bushel on wheat, it will save Umatilla County alone \$120,000 per year, and if corresponding reductions are made on other commodities shipped from that county, it will mean the saving of more than half the county's annual taxes of \$400,000."

All preliminaries having been settled work of clearing the right of way for the new California & Oregon Coast Ry. from Grants Pass to Crescent City, Cal., will be started at once. The contract provides that the line shall be completed to Hays Hill within six months and that the first 40 miles shall be finished in 40 months. This line will open up the rich copper region of the Illinois River and the timber country below it.

As an echo of the recent opening of the canal at Oregon City for the free passage of river craft, it is announced that a line of boats to carry passengers and freight will be put on between Portland, Dayton and McMinnville, on the Yamhill River. A small job of dredging will make that river easily navigable for light draft steamers.

In an effort to stimulate the use of Oregon manufactured goods and Oregon labor, the Chamber of Commerce of Portland yesterday began a campaign through its bureau of industries and manufactures to take advantage of the Bingham bill which becomes effective as a law this month, and which was passed at the last legislative session. The Bingham bill gives a preference of five percent in favor of goods manufactured in Oregon, or in favor of Oregon labor, in the consideration of competitive bidding before county courts, boards or county commissioners, school boards, city councils, or other public officers authorized to purchase supplies or contract for labor.

"In plainer English, a purchasing officer is authorized to accept as the lowest bid for labor or supplies offered by representatives of Oregon products, if the bid of the latter is not more than five percent higher than the lowest bidder from any other state," said George D. Lee, secretary of the bureau. "It is intended to counterbalance the difference in the cost of production, as between local and foreign concerns. It somewhat adds to the handicap of the foreign manufacturer represented by freight rates, and it should prove an encouragement to the establishment of factories for the manufacture of those items needed in the building of roads and bridges and materials consumed by municipal purchase."

"In the opinion of David M. Dunne, and other pioneer manufacturers, the Bingham measure will prove of great value."

"Civilized warfare" is so much worse than hell that the valley of brimstone might become popular as a place for Sunday school picnics by comparison.—Crock County Journal

## Advice to Non-Residents

Once upon a time there was a non-resident owner of Woodburn property who was a loser to the extent of \$600 because he did not take the Independent and failed to keep track of the course of events here. It always pays the non-residents to subscribe for the local paper where he has property and not be penny wise and pound foolish.—Woodburn Independent
