Opening Day at Panama-Pacific Exposition Broke All Exposition Attendance Records

ALL attendance records for exhibitions were broken at the opening of the Panama-Pacific International Exposition in San Francisco on Feb. 20. Vast crowds thronged the grounds when President Wilson pressed the button in Washington, and each day since the attendances have been enormous. The huge buildings and beautiful thoroughfares hued with activity and have continued to do so. The Exposition has fully demonstrated at this early date that it will be a great success in every way.

Roseburg Votes Railroad Bonds

Roseburg, Or., June 4—By a vote of 565 to 78 the people of Roseburg today authorized the issuance of bonds in the sum of \$300,000 with which to aid Kendall Bros. of Pittsburg, Pa., to construct a railroad from Roseburg to the line of the Cascade National forest reserve on the north Umpqua river and erect a modern sawmill in this city. The investment in this vicinity will total more than a million and a quarter dollars.

The Shy Caterpillar.

The caterpillar, though a sociable creature, tries to keep out of everybody's way. Some species hide on the under surface of leaves, others on the stems or blades of grass, which serve them as food; others, again, build little nests for concealment or the snugly hidden between the curled edges of leaves, which they draw close together until the opposite edges meet. The caterpillar is a sociable creature in his own family. He knows that there is safety in numbers, and you will find whole companies feeding side by side while keeping a sharp lookout for their bird enemies, but when a caterpillar is by himself he scarcely dares to move for fear of attracting attention. Even when he is obliged to change his skin he doesn't venture to write that the Invincibles were second best, 6 to 15. Better let it tremble again and give the correct score which was 3 to 11.

TAINTED POLITICS

By Peter Radford.

This country is suffering more from tainted politics than from any other malady at the present time. There is scarcely a campaign speech made, a platform demand written or a measure enacted into law that does not carry the taint of personal gain of some politician or political faction thereof.

There is more "blue sky" in campaign promises of many politicians running for office than was ever contained in the prospectuses of the boldest promoters of chimerical business schemes. There are more secret combinations formed by politicians in the name of "My Country" than were ever formed under any and all other aliases. There are more political rebates hidden in the phrase "De it enacted" than were ever concealed under any and all other disguises.

The inordinate thirst for political power and unrestrained passion for mastery has caused more distress in this nation than the greed for gold, and it ought to be regulated by law. No business combination ever pursued their competitors as relentlessly or visited more heartless cruelty upon their customers than a political party that seeks to make junk of an industry, or cripple a business for party success, through tariff measures, political supervision and oftentimes destructive legislation. Many political platforms are as alluring to the voter as the story of the rainbow with its pot of gold and their consumption about as far-fetched. Self-gain is the first law in politics. There are many men in office today who, if they could not shake plums off the tree of American liberty or cut a melon taken from Uncle Sam's commissary, would have less desire to serve the public.

The country is surfeiting with patriots, who will bare their breast to bullets in defense of their country, but there are few men in public life who will bare their breast to voters or run the gauntlet of party disfavor in defense of agriculture or industry. No representative of the people, who will permit personal prejudice to detract from justice, party success to disfranchise reason or the rancor of a political campaign to influence judgment can render capable service.

The preservation of our prosperity depends upon wisdom, courage and honesty in government, and the American voter should seek these attributes as implicitly as the Wise Men followed the Star of Bethlehem and they will often be found to rest over the stable; the plow or the staff of the Shepherd. The surest cure for tainted politics and machine rule is fresh air and sunshine and these important elements are most abundant upon the farm, and when farmers, bankers and merchants are elected to membership in legislative bodies, much of the trouble in government will disappear.
