2:15 P. M. Address Prof. Joseph Shaffer, University of Oregon.
Business meeting.

Meteor Falls in California

El Centro, Cal., Nov. 10—Followed by a long trail of bluish-white smoke, a huge meteor fell in the mountain district of Imperial county late yesterday causing a shock similar to an earthquake. Immediately afterwards a violent explosion was heard here and in nearby towns. Many residents of El Centro and the surrounding country, who experienced the earth shocks that damaged the Imperial valley several months ago, were alarmed by the shock caused by the meteor striking the earth. A smoke or haze was visible for nearly an hour after the meteor fell. Many searching parties last night were trying to locate the spot where the meteor struck, but it is believed to have been in an inaccessible district.

Mails Closed to Bryan's Book

San Francisco, Nov. 10—A 16-page pamphlet in Hindi, containing translated extracts from William J. Bryan's "British Rule in India," was excluded from the mails to India here yesterday. Many copies had previously been sent to India by Ram Chandra, editor of the Hindu Gadar, published here. The exclusion came as a result of the protest of the British government. Bryan in his book, charges that Great Britain, with the aid of the native princes, has exploited the people of India to such an extent that great numbers have been driven into famine, annually, and the book, it is held, is calculated to foment a revolutionary sentiment. Bryan based his charges on the result of personal investigations.

Newberg Meat Market Destroyed by Fire

Newberg, Or., Nov. 10—Fire on Monday night completely destroyed the interior of the building occupied by the Peoples Market of which Wesley Boyes was owner. The fire occurred about 11 o'clock but had gained such headway when discovered that it was impossible to save more than the shell of the building. Mr. Boyes carried a large stock of cured meats and this was an entire loss, as was also a large part of the fixtures. The origin of the fire is unknown.

Pans Closing Salem Pool Halls

Salem, Or., Nov. 10—District Attorney Ring said today that if the Brunswick-Balke-Collender company loses its suit brought in the federal district court in Portland to restrain the enforcement of the Sunday closing law, he will enforce it against all pool and billiard halls in this city.

Electric Sparks

(From Our Wireless)

It is clear why the President does not wish to be bothered by an extra session of congress between now and December.

No satisfactory theory has been offered as to what it allows do with all the money they get by rubbing trams.

The next time an officer of an international ship offers to receive it may be well to have him accompanied by some authoritative person who will keep him constantly reminded of his moral obligation.

Before agreeing to accept the Island of Cyprus, Greece may feel justified in

waiting to satisfy herself that the Goods can be delivered.

Lord Kitchener is a great general, but the responses to calls for recruits do not indicate that he is very strong as a persuader.

It seems possible that Mr. Mellen is working as hard just now as he did when he was drawing a large salary from the New Haven.

Travelers are not permitted to take gold out of England. However, much of it eventually arrives in this country.

The impressive parade demonstrations leave no doubt that woman suffrage goes marching on.

Statements are made that Germany would be willing to consider peace on reasonable terms. As usual, that word "reasonable" becomes the crucial consideration.

Conditions in Europe make the U. S. A. a desirable location for a Mexican chieftain who has decided to retire from public life.

The details of atrocity that constitute such irresistible appeal to sympathy indicate a laxity somewhere in the system of censorship.

Nothin' warmer than an oil overcoat just a little bit patched up.

The Oklahoma woman who laughed herself to death over a funny story must have heard one that escaped us.

"Nicholas" our office standard sagely informs us, means "Victory of the people." But it doesn't say which people.

The President's new summer home is "Shadow Lawn." Germany will note that he doesn't need a place in the sun.

The great trouble about \$18,000,000 battle cruisers is that the jingoes will probably begin to insist on some action for their money.

Don't waste too much sympathy on Serbia. Fighting against long odds is one of the very best little things that plucky country does.

There must be something wrong somewhere—here it is November and not a single magazine has issued its Christmas number.

Rumors that Secretary Danie's has decided to have the great new dreadnoughts constructed at the Raleigh Navy Yard are as yet unverified.

Chicagoans have failed to report that there is anything abnormal about the Monday thirder.

People in Europe who talk about a "victorious peace" are overlooking the graveyards.

There appears to be a fine opportunity for southwestern train robbers to masquerade as Mexicans.

Baseball players now indulge in a little postgraduate course, for the sake of the extra gate money.

National leaders will watch with feverish interest Chicago Mayor Thompson's experiment in political dry farming.

Having triumphed with her summer fare, lovely woman is looking about for some freezing weather to enjoy.

There isn't a scien life "fast" in the world that isn't a contrivance of some other scien life "fast."

Late Start in Plowing

Newberg, Or., Nov. 8—The farmers of this section have just started their fall plowing. The late start was due to the dry condition which existed throughout the past two months, and as a result, little or no fall grain has been sown.

Don't Say It—American—

Firmness of Purpose. Firmness of purpose is one of the most necessary elements of character. It is the best instrument of success. It is the only one that wastes its force in a single direction.

Expectation. Montague—So the Johnson girl eloped with young Perkins? Are her parents much worried? Melissa—Awfully. Every day they are expecting a letter asking for money. Judge.

The Circular Saw. In technical journals considerable discussion has taken place as to who invented the circular saw. The claim is made that this kind of saw was invented and used by a wood turner named Murray at Mansfield about the year 1820. The first saw is described as having been about 18 inches in diameter and was used on a wood turning lathe operated by water power. James Murray, the inventor, is said to have been the son of old Joe Murray, the favorite servant of Lord Byron.

THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD

Practically a Daily at the Price of a Weekly. No Other Newspaper in the World Gives so Much at so Low a Price.

There has never been a time when a newspaper was more needed in the household. The great war in Europe has now entered its second year, with no promise of an end for a long time. These are world shaking events, in which the United States, willing or unwilling, has been compelled to take a part. No intelligent person can ignore such issues.

The Presidential contest also will soon be at hand. Already candidates for the nomination are in the field, and the campaign, owing to the extraordinary character of the times, will be of supreme interest. No other newspaper will inform you with the promptness and cheapness of the Thrice-A-Week edition of the New York World.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and

JACKSONVILLE POST together for one year for \$2.00 cash only.

The regular subscription price of the two papers is \$2.50.

FOR SALE—TIMBER LAND.—I have for sale at a bargain, four tracts of timber, totalling 600 acres, all in the same region, for sale at a bargain if taken at once. Land is located in Douglas county and is worth double the price asked. Apply to D. W. Bagshaw, Jacksonville, Oregon.

Priceless Treasures of Europe and Wonderful Relics of the Orient Shown In the Vast Exhibit Palaces—Interesting Characters From Every Land on Earth Entertain the Visitors.

THERE are any number of exhibits at the Panama-Pacific International Exposition which relate directly to the facts and conditions bearing upon the present world situation, exhibits which are full of historic interest and which bear witness to the tragedies and romances which center around a battlefield.

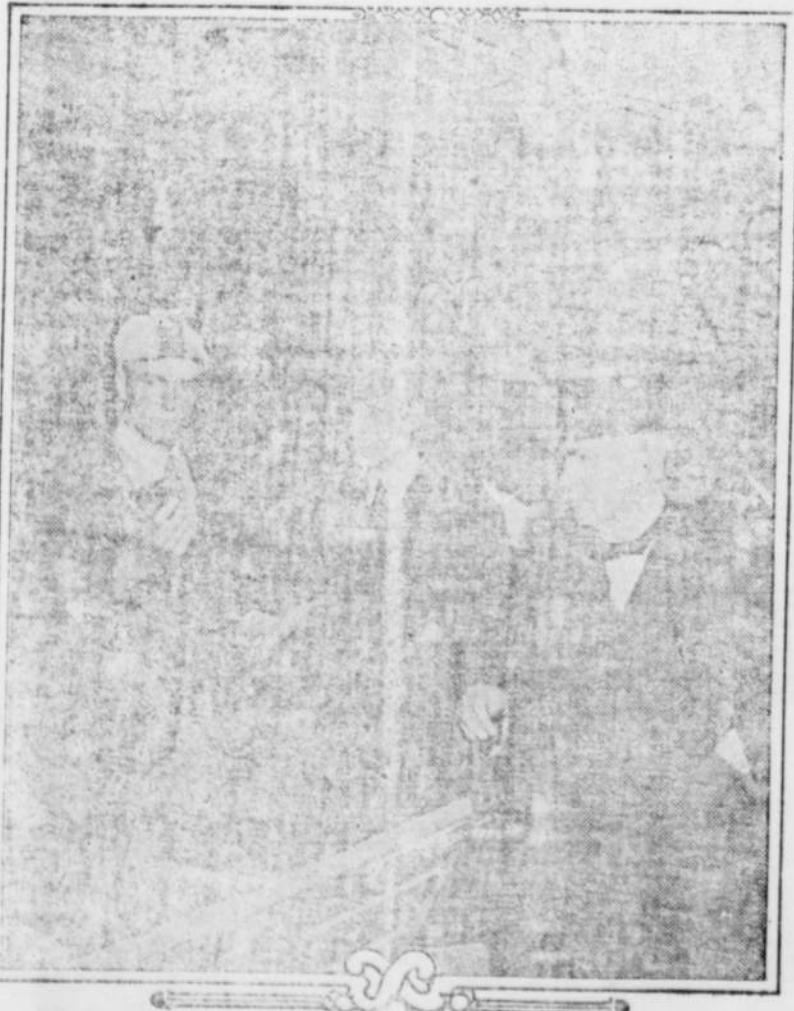

There is no more interesting exhibit at the Exposition than that of the Balkan States, in the Palace of Varied Industries. It is a collection of jewels, bric-a-brac and objects d'arts brought from Montenegro, Roumania, Servia, Bulgaria and Albania, articles which have been bartered in tears by their owners in order that the profit may be turned to the better account of their beloved countries. Here is an exquisite chain of vari-colored sapphires, white, yellow and red, worth a thousand times their weight in gold. It once belonged to a beautiful Montenegrin princess, who parted with it to help the Red Cross fund in Montenegro at the time of the Balkan war. There is a handsome royal Austrian dinner service. Many times has it graced the smoking board of a prince of the royal house of Hapsburg, who lost his life on the battlefield of Belgium.

In one of the carefully guarded glass cases is a marvelous snuffbox of gold and rubies. It belonged to Abdul Hamid and found daily use in the royal pocket. When he was dethroned it was confiscated, along with other of his personal loot, and disposed of by the Turkish government. It was purchased by a Servian noble who was killed in the Balkan war. His family, wishing to do all that was possible toward a war fund for their beloved country, disposed of it, along with many other valuables, and so it has found its way to the exposition. One wonderful old Madras tea set has a history several centuries long. It was once the property of a prince of India. During the time of the English occupation he was one of the many oriental potentates who lost caste and title. Ultimately he was shot for treason and his property taken over by the authorities. In diverse wars it traveled through India to Persia, where it was purchased by an American girl in Toberan. This young American afterward became the wife of a Servian count. When the crisis came a year ago last August and the resources of Servia were drained to their dregs this little lady disposed of every heirloom the family possessed and all of her own personal trinkets and treasures in order that she might do her best by the country of her adoption.

In the Palace of Education there is a Persian parchment, a bishop of the Byzantine church, who passed twenty years of his life in Lassa, bearing the cross the whole time. Mountainside is his name. He was nearly a 70 years old man when he returned to his native land. He is now a member of the national exhibit. This man is placed in the Palace of Education and can truthfully boast

of seventeen different diplomas from various of the world's greatest educational institutions, including the University of Paris, the University of Jena and the University of Leipzig. Twenty-two different languages is another of his acquisitions. He is a sociable being and is quite willing to tell of his wanderings and beliefs. An hour with him is well worth while and costs nothing. He has a marvellously interesting manuscript, which he says is his translation from an ancient Tibetan document giving the history of the hidden life of the Christ between the years of 12 and 30, for which there is no Biblical record. It is claimed that these years were spent in Lassa.

INVENTORS ELISON AND FORD IN A GOAL RACE AT THE EXPOSITION

THOMAS ALVA EDISON, world famous inventor, and Henry Ford, millionaire automobile manufacturer, inspecting the Rock Springs (Wyo.) coal mine in the Palace of Mines and Metallurgy at the Panama-Pacific International Exposition. Mr. W. E. Edison is seen with a piece of coal in his hand. Back of Mr. Edison is Mr. Edward Seidie, superintendent of the mine exhibit. This mine is placed beneath the floors of the Palace of Mines and Metallurgy at the Exposition and is daily visited by many thousands.
