As to Mexico

The wild Indians on this continent at first were friendly to the whites. Had there been any sense, discretion and common honesty and justice in dealing with them, they always would have been friendly. But a war of extermination was waged against them from Massachusetts bay, Delaware bay, Chesapeake bay and the Gulf of Mexico clear across the continent to the Pacific.

We have never wronged the Mexicans down on the border, but for very nearly four years now it has required about half our army to be stationed there to stand guard, and that has not prevented the killing and plundering of Americans on both sides the boundary, and the race beyond that border have effectually demonstrated that most of them are bandits and murderers, or persons ready to do anything the active bandits and murderers want them to do.

If it is our business to guard that border and let the violence go on, then in the interest of justice and the taxpayers of the United States it would be right to shorten that border; say make it from the mouth of the Rio Grande on a straight line to Mazatlan. That would shorten it one-half. If that would not do, make the border the isthmus of Tehuantepec. That would reduce it from 1,200 to 2,000 miles.

To do that it would be necessary to put several of those brigands out of commission and to convince the rest that it is a losing business to try the patience of the United States too long; that it is a somewhat dangerous business to murder and plunder the citizens of this country.

At this writing President Wilson still has faith in and is dealing with Carranza, though he has tried to break his covenants repeatedly and has shamefully shirked his plain duty from the first. He ought first to have an ultimatum served on him, and if he treats that in his usual way, then move in earnest and give the world the reasons and invite the states of South America to come up and help restore order to Mexico.

If anything of that kind is started there should be a force so great sent at first as to make the business a quick one. No four and a half to one as in our war with Mexico before. That costs too many lives and too much money.

And when it would be over Mexico should pay the bill. The situation there as it has been for six months past is simply intolerable. And as it is not fair to our country and to the peaceable Americans on the border or within Mexico itself. Neither is it fair to other foreigners in that country, and it is the plain duty of our government to move, or give the world notice that we have withdrawn the Monroe doctrine from Mexico.

Our government forced France to withdraw her army from that country when Maximilian was almost secure on his throne. Was that to turn that that country over to hopeless brigandage and anarchy?—Goodwin's Weekly

Penitentiary Shops to be Rebuilt

Salem, Or., May 24—Following a meeting of the state board of control, Secretary of State Olcott has called a meeting of the emergency board for Friday to consider the rebuilding of the penitentiary shops, recently burned. The board made an examination of the burned portion of the shops and decided to rebuild them immediately. The damage is estimated at \$12,500, and the board will be asked to create a deficiency in this sum.

Besides Governor Withycombe, Secretary of State Olcott and State Treasurer Kay, the board is composed of President Thompson, of the senate; Speaker Selling; Senator Day, chairman of the senate ways and means committee, and Representative Cobb, chairman of the house ways and means committee. The meeting will be the first during this biennium.

Berry Boxes Found to Be Under the Standard.

Salem, Or., May 23—Discovering that berry boxes shipped into the state are not measuring up to the standards required by the Oregon law, Fred G. Buchtel, chief deputy secretary of the state, today directed the district sealers to confiscate boxes and have berries repacked in standard boxes. Most of the boxes come from California and contain strawberries.

Active, Clean-Cut Young Men

like Rex Beach and the virile, red-blooded youths he writes about, have a hearty man's appetite for tobacco. These men find Tuxedo supremely satisfying. And they can puff away at their beloved pipes all day and far into the night—so mild, gentle and soothing is Tuxedo.

Tuxedo

Three to five years' ageing in wood mellows the ripe Burley leaf for Tuxedo; then the famous original "Tuxedo Process" takes out all the bite and absolutely prevents tongue-soreness and throat-irritation. The "Tuxedo Process" has plenty of imitators, but none has ever equalled it.

Try Tuxedo—you take no risk. See the guarantee in the top of the tin. If Tuxedo isn't everything it claims to be, the dealer will give you your money back.

One-Man Cars Successful

Centralla, Wash., May 24—The one-man service on the interurban cars between Centralla and Chehalis is successful. Except when the traffic is exceptionally heavy, one man has handled the work for the past month.

Berry Growers Must Fill Baskets Full or Trouble Will Follow

Portland, May 25—Strawberry growers are apt to run afoul of the Federal authorities unless they change their method of filling baskets of berries shipped to this market to be offered for sale. There has been considerable complaint from both wholesalers and retailers alike, to say nothing of kicks from consumers, because of scantily filled baskets. The Federal law demands that each pint basket contain one full pint, and does not allow a basket to be two-thirds full and offered as one pint. The fault has been almost entirely with shipments from Oregon points, and unless the present method is changed the authorities will receive the complaints of the handlers and buyers, and an investigation will follow.

Ashland's Spring to be Dedicated On Fourth.

Ashland, Or., May 23—The plans for Ashland's celebration, July 4, 5 and 6, when the \$250,000 springs mobilization project will be dedicated, are now well under way. Several thousand dollars have been raised as a celebration fund. A roundup will be staged. Four carloads of the best of the Pendleton stock and performers will be brought here and every cowboy in the southeastern counties will make Ashland his mecca on the Fourth. All of the Southern Oregon and Northern California cities will co-operate and send crowds to Ashland instead of celebrating the Fourth at home. Plans are being made to entertain 10,000 people.

Umatilla Road Bonds Lose

Pendleton, Or., May 24—The good roads bond issue was decisively defeated by about 4 to 1, according to practically complete returns. The proposal was for the issuance of \$80,000 in bonds to construct good roads throughout the county. It is probable that a proposal will now come before the county court to levy a special road tax.

Marren Found Guilty

Pendleton, Or., May 24—William O. (Whitey) Marren was found guilty yesterday of manslaughter for causing the death of Wendell C. Phillips, of Spokane, during a rooming house quarrel here last February.

Paroled Men Made Citizens

Salem, Or., May 24—Restorations to citizenship were issued by Governor Withycombe today to Lottie Bell Cappious and Cyrus McDowell. The former was serving a term from Coos county for assault with a dangerous weapon and paroled in 1914, and the latter was sentenced from Union county for larceny and paroled in 1912.

Road Gap to be Paved

Chehalis, Wash., May 23—The city commission has passed the final reading of the ordinance providing for the paving of National avenue and bids will be opened for this work June 5. This is a link in the Pacific highway, situated in the north end of Chehalis, and will close up a gap which has been a very bad piece of road for several years.

A Mistake in the Policy of the Bethlehem Steel Company

To the People:

The Senate of the United States has passed a bill to spend \$11,000,000 of the People's money to build a government armor plant. The measure is now before the House of Representatives.

It is said that manufacturers of armor have "gouged" the country in the past, and that a government plant is necessary to secure armor more cheaply.

The mistake of the Bethlehem Steel Company has been that it has kept quiet.

We have allowed irresponsible assertions to be made for so long without denial, that many people now believe them to be proven facts.

We shall make the mistake of silence no longer.

Henceforth we shall pursue a policy of publicity. Misinformation will not be permitted to go uncorrected.

It is and has been the policy of our Company to deal with the American Government fairly and squarely.

We shall henceforth place the details of our relations with the Government before the American People.

The United States has for twenty years obtained the highest grade of armor and has paid a lower price for it than has any other great naval power.

Figures officially compiled for the Senate Committee on Naval Affairs from the Naval Year Book show that under conditions prevailing just before the European war, the chief naval powers of the world were paying these prices for armor:

England, \$503 per ton; France, \$460; Germany, \$490; Japan, \$490; UNITED STATES, \$425.

A government plant cannot make armor any cheaper than we can do it; and—

We are prepared to manufacture armor at any price which the Government itself shall name as fair. THAT BEING SO, SHOULD \$11,000,000 OF THE PEOPLE'S MONEY BE WASTED TO BUILD A GOVERNMENT PLANT?
