# ONE FARMER SAVES \$540 IN ONE YEAR

### H. West, of Scappoose, Tells What Good Roads Mean to Him.

H. West, farmer and dairyman, liv ing near Scappoose, is an enthusiastic supporter of the road bond bill that will be before the voters for their approval at the special election June 4. He is for the road bonds because the value of good roads has been demonstrated to him conclusively. Through the construction of a macadam road by which he is enabled to send milk and cream to market by auto truck, Mr. West last year saved \$540.

"Before the macadam road was built," according to Mr. West, "I had to haul my milk and cream by team to Scappoose. But now an auto truck calls at my home daily, delivers my dairy products in the Portland market and on the return trip brings groceries and other supplies right to my door. Due entirely to the macadam road, my saving last year in marketing the products of my dairy alone was \$540. This estimate does not include the saving that has attended the marketing of my farm products and the delivery of freight and other supplies at my home.

"By hard-surfacing this macadam road, my savings due to improved roads will be even greater for with the completed road the cost of operating auto trucks will be further reduced. Yes, I am enthusiastically in favor of the road bond bill.

OPPOSITION TO ROAD BONDS IS REMOVED

"When it is explained that the expense of providing the crushed rock base on the roads to be hard-surfaced will be borne by the state and not required of the counties, opposition to the road bond bill is largely removed," says Winnie Braden, of Dallas, Secre tary-Treasurer of Polk County Better Roads Association. "It has been my experience that it is only necessary to acquaint the individual opponent of the road bond measure with the pro visions of the bill to make him a convert to the good roads movement. The people of Polk County uniformly with other progressive people of the state want good roads. All that is demandtions of the state will be considered ed by them is the assurance that the impartially. A dollar's worth of road funds to be raised by the proposed construction for every dollar expended bond issue will be applied economicalis guaranteed by the Commissioners, ly in the construction of the greatest possible mileage of serviceable roads chase one or more paving plants and of a permanent and enduring characlay paving unless satisfactory bids are ter.

"With this assurance and the further guarantee that ample funds are provided in the increased automobile license, which will have to be paid anyway, to meet both interest and principal of the bonds, the voters of my section of the state are more strongly favoring the road bill."

the state highway commission in matters pertaining to the construction of state roads.

"Better Roads Will Build Your Business Bigger" is the catchy good roads slogan coined by C. W. Walls, merchant and enthusiastic good roads booster of Fossil, Wheeler County.

Alternate stretches of improved roads and mud holes do not get the farmer or automobile owner anywhere. They need a continuous highway just as a locomotive needs a continuous track. Systems of hard-surfaced highways are the efficient and economical plan

should be any opposition to the exmanent improved roads in Oregon.

> In connection with the road bond discussion it is noted that the state highway commission at its last meeting instructed its engineer to collect data relative to the cost of paving plants with a view of being independent of paving contractors. It is also noted that the commission has practically decided to lay a section of cement concrete on the road near Sheri-

Are you aware that in the past ten years approximately \$40,000,000 has been spent in the state of Oregon on roads, principally patch work, a load of gravel here and one there? In view of this expenditure what about a bond issue of \$6,000,000 for permanent roads? Some people will not believe these figures, but secure them for yourselves. The figures can be secured from different state and county

May 25-Night meeting at Lakeview May 26-Night meeting at Klamath Falls.

May 28 - Afternoon at Crescent; evening at La Pine.

May 29 and 30-On the road.

May 31-Night meeting at Fossil. June 1 - Afternoon at Mayville;

night meeting at Condon. June 2-Afternoon and night meet-

ings at Heppner.

Among the false statements circulated by opponents of the \$6,000,000 road bond bill is one to the effect that the burden of paying for the bonds will be saddled upon the taxpayers of the state. The fact is that under the quarter-mill state road tax, which is in effect and has been for the last four years, the taxpayer assessed for \$1000 will pay 25 cents a year. In the 25 years the bonds are to run the total amount the taxpayer will contribute under this tax will be \$6.25 and its payment will be distributed over a period of 25 years. Besides, this tax is already provided by statute and must be paid regardless of whether the road bonds are voted at the special election June 4th. The revenue from the increased automobile licenses will be more than sufficient to pay both interest and principal on the road bonds. The direct taxes of the individual taxpayer, therefore, will not be increased if the road bonds are voted.

No additional burdens will be imposed on any taxpayer by reason of the passage of the good roads bond issue. And if good roads, quicker communication, safer transportation, better traveling facilities, and reduction in cost of moving the products of farm, field, and orchard mean anything to the progress and prosperity of the state, the passage of the good roads bond issue will be to the advantage of every man, woman and child in Oregon .- The Spectator (Port Land.)

time integ

th will be an indorse nt of a plan that insures for the state the construction of a system of hard-surfaced roads with funds already provided by law and without increasing other taxes. Vote 314 X YES and help "Pull Oregon Out of the Mud."

PROVIDES GOOD ROADS WHERE MOST NEEDED

I am for the road bond issue be cause I believe it will give us of Oregon good roads and at places where we have not good roads now, and where we need them most. There is only one plan before us by which we may obtain some really good and serviceable roads and that is the present scheme of permitting the state to sell \$6,000,000 in four per cent serial bonds to be redeemed both in principal and interest by the revenue derived from a state tax on automobiles. If we do not adopt this plan we of Oregon will continue as we have already continued too long, with poorly drained, wretchedly located and miserably surfaced

roads, impassable in winter and impractical and expensive at all times .-Rufus C. Holman, President of State Association of County Judges and County Commissioners.

#### WHAT GOOD ROADS MEAN TO MOTORISTS

Every motorist has observed how his car accelerates when he goes from an unimproved road to a stretch of hardsurfaced; but he may not realize how large a saving of power and gasoline that acceleration represents. If he were to travel over a hard even surface habitually instead of over the average country road, his gasoline bill would be greatly reduced. A motorist in Mississippi has figured out that view. hard-surfaced roads in his community save him \$30 per year in the gasoline consumed by a single car.

In the face of these facts, is there any possible reason why every automobile owner should not vote for the \$6,000,000 good roads bond bill?

Poor roads are very expensive things for country communities. The farmer who thinks that improved highways are mainly for the benefit of those who drive automobiles should reflect on the result of a recent investigation by the Department of Agriculture which finds that the cost of hauling farm produce over ordinary country roads is 23 sents a ton, whereas over hard-surfaced roads it is only 13 cents. -Fact and Comment in Youth's Couspanion, May 10, 1917.

good road condition for use in the time of the nation's need it seems best to accept the proposed bond issue, because of the conflicting political interests that seem to have been able to be foisted upon the unwitting, yet honest voters of Oregon through the initiative. The six per cent tax limitation forbids Oregon ever getting adequate and passable roads in the next two centuries, unless the issue is taken up from another angle .- Burns News. \* \* \*

The time has come for Oregon to make a start in the direction of permanent state highway construction. Washington, north of us, will spend \$6,500,000 in the next two years; it is proposed that Oregon spend \$6,000,000 in five years; California, south of us, has authorized \$15,000,000 to be spent in the next two years and about as much more will be spent by the counties of California. Indications are that conservative people are awakening to the need of getting away from the mud and dust and expense of poorly built and maintained means of communication .- Moro Observer.

\* \* \* Under the tax limitation law there time prescribed in the order for the can be only 6 per cent increase in publication of summons herein, to-wit: taxes annually. As that increase will on or before the 25th day of June, 1917, probably be made by the tax levying bodies whether any extensive road building is done or not, the voters should certainly decide in favor of good roads. There need be no fear of additional state bond issues, either, them as such bonds can only be issued

with the annual 6 per cent increase, will provide the state with an excellent system of roads in a few years. Since the taxes must be paid anyway. let's have good roads .-- Roseburg Re \* \* \*

"Considering the condition of the roads the past few days," says the Burns Tribune, "It is not likely that the people of Harney County will vote against the \$6,000,000 bond issue or any other measure that has for its purpose the building of permanent and is now held under such attachhighways which would be passable the ment. entire year. In this country where

ent highways could be built at a nominal cost. Under the present laws of the state there is no reason why the roads should be in an impassable cordition. If this county is to progress and develop it must have roads over ance therewith the date of the first pubwhich teams and autos may pass not lication hereof is the 12th day of May, only certain portions of the year but 1917. at all times."
