JACKSONVILLE, JACKSON COUNTY, OREGON. JULY 21, 1917.

NO. 12

## NATIONAL GUARD GO TO FRANCE SOON.

### Concentration Began In East Monday. War Plants To Be Guarded.

Washington, July 16—Mobilization of the national guard began today. While no orders for embarkation of state troops for France will be given until after August 5, when the entire force will be formally drafted into the United States army, there are indications that some divisions will be regarded as ready to board transports soon after that date.

The first clause of President Wilson's proclamation providing for the federalization of the national guard for the war became effective yesterday. Under it all guard units from New York, Pennsylvania, Ohio, West Virginia, Michigan, Wisconsin, Minnesota, Iowa, North and South Dakota and Nebraska went on the federal payroll from that date.

Actual concentration of troops in their state camps began today. Approximately one-half of the total strength of the national guard, or more than 125,000 men, is included in the force assembling.

Rapid progress is being made in relieving guard regiments which have been in the federal service since the declaration of war guarding property. This work will be taken over largely by civilian watchmen.

It will be necessary to re-assign guardsmen for the protection of certain big munitions works and other property vital to the conduct of the war. The department commanders will hold such troops as they deem advisable for this purpose.

The next step in the general mobilization will be the ordering of divisions to the camp sites already selected for them. A full supply of tentage is available, department reports show, and the division will entrain as rapidly as the commanders of the departments from which they come and of those in which their camps are located agree as to dates.

"Poles Break with Austria," says a headline. Must have been quite a fall for the Hapsburgs.

Another thing to cause us worry. The old-time kissing bug is said to be rampant.

South Carolina is kicking because they have come to the point where de-centers are only fit for cucumber pickles and catsup!

## FIRE AND I. W. W. MEN-ACE KLAMATH.

### Big Flour Mill Is Heap Of Ashes; 50 Agitators are Under Arrest.

Klamath Falls, Or., July 16—The flour mill of Martin Bros. was destroyed by fire early Sunday morning. The loss is more than a quarter of a million dollars. The blaze is said to have been of incendiary origin. Barring a small one, the plant was the only one of its kind in Klamath county.

Several nearby industrial plants escaped destruction only after the most heroic efforts on the part of the fire fighters.

John Farnell, appointed United States deputy marshal, and Attorney J. H. Carnahan, appointed United States deputy district attorney by United States Attorney Reames, have found in correspondence seized at I. W. W. headquarters Sunday instructions to cache all secret papers at a point outside headquarters. This order evidently was not carried out.

Twelve pounds of dynamite in a box with a fuse attached was found at central reservoir last night.

Fifty members of the I. W. W., including their secretary have been arrested. The agitators recently established headquarters here. An effort is being made to round up all other members of the society.

Two hundred deputies are doing guard duty today over mills, bridges, roads and pumping plants with orders to shoot at discretion.

A small blaze started in the residence district late Sunday made no headway.

### Citizens' Vigilance Committee at Klamath Falls

Klamath Falls, July 17—Organization of a citizens' vigilance committee for the announced purpose of protecting Klamath Falls industries and farms from Industrial Workers of the World was effected here last night at a meeting of about 200 citizens. All the members agreed to respond to riot calls whenever necessary. The meeting was called following the destruction Sunday of Martin Brothers' flour mill and the discovery yesterday that stock on nearby ranches had been poisoned.

The New York police shine at solving murder mysteries after someone else has solved them.

## WITHYCOMBE WOULD INTERN ALL I. W. W.

### Governor Recommends That Vagrancy Law be Invoked Against All Agitators.

Salem, Or., July 16—Governor Withycombe said today that he would recommend to county and municipal authorities that they invoke vagrancy law against Industrial Workers of the World agitators and disturbers, and also that they establish rock piles for their employment during the time they are under sentence.

The governor reached a decision to this effect after pondering over the question as to what disposition should be made of the Industrial Workers of the World interned at Klamath Falls, as a result of the burning of Martin Brothers mill and grain elevator. He believes, temporarily at least, that this remedy will aid materially in solving the situation.

"After receiving advices that the Klamath Falls mill and elevator had been burned, and that Industrial Workers of the World were suspected of having set them on fire, I suggested to Klamath county authorities that they intern Industrial Workers," said the governor. "Since then I have been wondering what legal disposition could be made of them, and have reached the conclusion that they can be reached through the vagrancy law. Under it, they can be sentenced for six months and this would mean their incarceration until after the crops are harvested. During their incarceration, they should be employed, and rock piles would furnish employment for them. I believe troops should be the last resort, and that county authorities should exhaust their remedies before the troops are called into action. The state vagrancy law is broad enough in its scope, according to my interpretation of it, to reach all idle Industrial Workers of the World."

### Bone Dry Liquor Law Is Without Loopholes.

Washington, July 17—Every form of transportation into dry territory is forbidden, whether on the person, by common carrier, by private conveyance or in baggage, according to instructions sent to United States attorneys throughout the country by the department of justice.

## OUR OWN STATE

### Some Recent Happenings In Various Parts of Oregon

#### Many Pickers Are Sent To Wasco County Orchards.

The Dalles, Or., July 17—Over 150 cherry pickers have been sent out to the orchards in this vicinity during the past few weeks by the Chamber of Commerce. These include men, women and children. Seventy-five persons were sent here by the Portland free employment bureau. Many others arrived from the Hood River strawberry fields.

#### Mount Angel Store Looted

Mount Angel Or., July 17—Another robbery occurred in Mount Angel when John Ebner's store was relieved of goods valued at \$100 during last night, principally jewelry. This is not the first robbery that has occurred in the vicinity lately. Several others have been perpetrated and presumably by the same person.

#### Two Hurt In Auto Accident.

The Dalles, Or., July 16—Henry Keller sustained a compound fracture of the jaw, with other serious injuries, and Howard Palmer received a bad cut on the forehead and several bruises when their auto upset in trying to turn a corner a great rate of speed, late Saturday afternoon. The men were hurrying to a brush fire near the reservoir.

#### Ashland Fireman Is Drowned

Ashland, Or., July 16—Word was received here today that Fred Duty, a fireman of the Southern Pacific, residing here, was drowned yesterday afternoon in California. He was swimming in the Sacramento river. Mr. Duty's home was here with his mother and sister.

#### Horse's Kick Proves Fatal.

Klamath Falls, Or., July 16—Fred Martin, who was kicked in the head by a vicious horse Sunday, died without regaining consciousness. He was 20 years old, the eldest of eight children.

#### School Flag Stolen.

Bend, Or., July 17—A huge flag, recently purchased to fly over the Reid school in this city, was stolen some time between Saturday night and yesterday morning.

#### Drowning Youth Is Rescued By Girl.

Dallas, Or., July 17—Ruth Wilkinson 13-year-old daughter of Mr. Mrs. P. L. Wilkinson, 631 Thurman street, Portland, saved George Edwards, 16-year-old son of Mrs. Dwight Edwards, 1153 Thurman street, Portland from drowning, after she had imperiled her own life. She had attempted to swim ashore with Edwards when the youth's frantic struggles threatened to pull her down with him. Freeing herself she swam ashore, picked up a long pole and extended it to the boy as he came up for the last time.

#### Friday, 13th, Bad Day For Liquor Sender.

On Friday, July 13, some one in San Francisco consigned 13 trunks of whiskey to the "Sig Mantell Amusement Company," of Portland, but the liquor never reached its destination. This morning 12 of the trunks were detected by City Detectives Cahill and Hammerly at the Union depot and now the officials are looking for the persons to whom they were sent. The trunks contained about 800 quarts, one of the largest shipments ever secured in a raid by the local department.

It's always for his army that the Kaiser invokes the help of the Almighty, apparently forgetting all about the time that his crops are having with the drought.

Who could have foretold, even a few months ago, that before the war should be concluded Mrs. Pankhurst and Elihu Root would have had a conference in Petrograd?

## COAST ARTILLERY NEEDS SPECIALISTS

### Numerous Vacancies, With Good Pay, Offered Men Efficient in Certain Work.

Portland, July 18—Enlisted specialists in the coast artillery corps of the army are in much demand. Major C. H. Hilton, of the corps at Fort Miley, California, has sent out an appeal for the enlistment of sergeants major, senior grade; sergeants major, junior grade; electrician sergeants, first and second class; engineers, assistant engineers, firemen, master gunners and radio sergeants.

The enlisted specialists, in their different departments, are in charge of the operation and maintenance of the electrical and mechanical installations of the coast defenses, of the systems of communication and of the clerical work pertaining to the administration of the corps.

## ANTI-SUBMARINE PLAN SUBMITTED.

### Naval Board Gives Daniels Its Ideas for War Against German Plungers.

Washington, July 17—Frank J. Sprague, former president of the American Institute of Electrical Engineers and a member of the naval consulting board, has presented to Secretary Daniels a general plan on which he has been engaged for some weeks to cope with the submarine problem. While no details were revealed, it is understood in a general way that the proposal is based on recognition of the principal that offensive rather than defensive measures are to be preferred in combating submarines.

It is said to provide for new types of sea-going patrols, equipped in part with a new weapon of offense, whose function would be to make certain regions of the sea more perilous for the submarine than for cargo boats.

If adopted the project would involve it is said, important changes in the ship building program, both merchant and naval, in order to meet the critical period of troop, supply and munition transportation next spring.

Neither the secretary nor Mr. Sprague would make any detailed statement regarding the plan, which will be given consideration by department officials and probably the general board of the navy, before a decision is made.

## New Chehalis Sawmill Is Completed.

Chehalis, Wash., July 17—The sawmill plant of the Chehalis Mill Co., in South Chehalis, is completed and ready for operation. The mill will have a capacity of from 75,000 to 100,000 feet of lumber daily. At the outset 100 men will be employed in the mill and in the woods, and when some further construction work is completed this number will be materially increased.

## American Soldiers In Training for War.

Paris, July 14—The vanguard of the American troops who left on Thursday the seaport town where they have been encamped, arrived at their permanent camp today. The men went into training immediately.

Major General Sibert, who will be in command at the camp, lunched with General Pershing before his departure for the front. General Pershing will follow later.

## Lightning Causes Fires In Central Oregon.

Bend, Or., July 17—Lightning accompanying a violent thunder storm which raged through a large part of the Central Oregon mountain section early Sunday morning, was responsible for eight out of 10 forest fires that were reported yesterday at headquarters of the Deschutes national forest here. All are now under control. Sunday holds the record for the number of fires reported here in any one day this season.

## INDUSTRIAL REVIEW

### Manufactures, Enterprises and Improvements, Providing Payrolls and Promoting Development of Oregon.

Hubbard—Contract let for paving Main street for 1 1/2 miles.

Engene—Work on \$50,000 Woman's building at U. of O. begun.

Oswega—\$100,000 being spent repairing steel mill here.

St. Helena shipyard to build two government ships.

Heppner gets new two-story brick bank building.

Salem will pave fifty blocks of streets with first-class pavement.

St. Helens rock quarry to get out 200,000 Belgian paving blocks.

Gresham—Cotton cannery working on large crop of berries.

Albany council rejected project to build light plant. People to vote on buying light and water plant of Oregon Power Co.

Salem—Large number of berry pickers needed in this county.

This is not a good time to fiddle away the taxpayers money on politics or enterprises that are not actually necessary.

Roseburg—Road construction with a large force began last week.

Reedsport—Warren Reed organization to erect a shipyard here.

Marshfield—Oregon Power Co. has started to build power line to Coquille.

Hot weather the past week has cut some crops to minimum.

John Day—As young men enlist old men do farm work here.

Umatilla county has need of 2000 harvest hands.

Turner—Flax shipped here to be scutched from all parts of the state.

Marshfield—Chas. Hall company building four-way shipyard here.

Dallas—Labor scarcity may cause loss of grain and fruit.

Eugene Excelsior Co. to enlarge plant by adding new machines.

Bandon—Sunset Woolen Mills have commenced operation.

Freewater—30 to 50 ton fruit drier to be erected here.

Springfield—Mohawk Lumber Co. has resumed operations.

Portland will launch a steel steamer ever 15 days.

Hotel and pavilion at Winchester bay to be rebuilt.

Heppner—Six new homes to be built here in few months.

Harrisburg cheese factory nearing completion.

Mt. Scott—Miller-Mowey sawmill to operate with 30 men.

Heppner coal mines leased and will be developed.

Portland reports a \$4,000,000 timber deal covering four counties.

Roseburg—Telephone cable to Edenville will improve service.

Final payment made of \$150,000 on Queen of Bronze mine Josephine county.

Lakeside—Contract let for \$6000 school house.

Wallowa—Foundations in for brick opera house and telephone building.

Moro to have new bank with \$25,000 capital.

Cloverdale—Sour Grass road cutting out heavy grade opened to public.

Eugene, Junction and Cresswell canneries operate to full capacity.

North Bend—Contract for six government boats to be built by Kruse & Banks. In addition government has contracted with Smith mills of Marshfield for fir material for 30 more boats.

Twenty government steamers having a value of \$10,000,000 will be built at Portland and Aberdeen by the Grant Smith Porter-Guthrie Co.

Canyon City—\$45,000 to be spent on John highway.

Pendleton will sell bonds to build septic tank for city sewage.

Marshfield—Contract let for paving Tenth street.

### Auto Partly Burned.

The Dalles, Or., July 17—The Ford car owned by F. E. Lash was partly destroyed by fire at midnight Saturday. Mr. Lash was working over the car with a lantern near by, which exploded, igniting the gasoline in the tank.
