Robert Muller, an Ashland boy, accidentally shot himself in the head with a rifle while on a hunting trip in the Dead Indian country Thursday afternoon. He died almost instantly. The body was brought back to Ashland yesterday. Full details of the accident have not been received as we go to press.  
Talent irrigation district voted \$600,000 worth of bonds for construction of an irrigation system, Tuesday. The vote stood 83 for the bonds and 60 against. Considerable opposition was manifested in the last few days preceding the election on account of reports that the water supply would be inadequate.  
Classes at St. Mary's Academy, Medford, Oregon will reopen Sept. 4th. Both Boarders and day pupils are received. Full high school course. Individual attention in primary and grammar grades. Exceptional advantages in art, music, china painting and modern languages. For particulars address Sister Superior.

Plenty of Guns for Men Sent To France.

Washington, Aug. 21.—There is no shortage of rifles for the American forces sent to Europe, although there may be some delay in equipping all men of the national army with the weapons they are to use in training, it was said officially today at the war department.

Farmer Shoots Neighbor.

Salem, Or., Aug. 22.—Fred Moore of Turner, Or., was shot and instantly killed at a late hour tonight by A. E. Bradley, a neighbor. Bradley mounted a horse and rode at full speed to the Oregon penitentiary, where he gave himself up. He said he had caught Moore stealing grain from his field. Bradley was turned over to Sheriff Needham and the case is being investigated.

Victim of Plomaine Buried

The Dalles, Or., Aug. 23.—The body of the late James Nelson Ball was sent to the Warren cemetery, near Kingsley, today for interment. Mr. Ball died suddenly Monday at The Dalles hospital from the effects of ptomaine poisoning. He leaves a young widow and two small children.

Undergoes Operation In Order to Join Army.

Centralia, Wash., Aug. 23.—Willard Mossop, of Tono, displayed unusual patriotism when he was examined by the Thurston county exemption board and rejected for physical unfitness. Mossop immediately asked if it was not possible to remedy the defects so that he could be accepted. When told that an operation would be necessary he expressed a desire to undergo one. Drs. H. W. Parelou, W. L. Bridgford and N. J. Redpath volunteered to perform the operation without charge, and Mossop went on the operating table yesterday morning. At latest reports he was doing nicely.

Electric Sparks (From Our Wireles)

Things are beginning to get cheaper in Washington which shows that the politicians still have some influence.  
Too many cooks can have the same influence on a war as on a bowl of broth.  
The Germans crossed from Galicia into Russia, and the Russians from Russia into Galicia, but whether they passed each other on the road was not stated.  
As a result of the large number of poor crop seasons that Germany has suffered, the chances are that the Fatherland has had its weather men in the trenches for some time now.  
Under existing conditions there is no substitute for war, but if the present pressure upon the world's militaristic elements shall not produce one then the world cataclysm will have been in vain.  
Germany's junkers will have to become as noiseless and denatured at the British house of lords, and the British house of lords very likely will cast off a few more privileges before the present processes are ended.

Disturbance Quelled In Prison By Wates

Walla Walla, Wash., Aug. 21.—For the first time in several years the "water cure" was used on mutinous convicts at the state penitentiary yesterday, after about thirty of them had of them had kept the entire prison awake all night by hammering their cells with iron buckets. Warden Drum would not use the hose only as a last resort and then kept the prison physician nearby to prevent fatalities. Tiger Johnson, of Spokane; Sears, of Tacoma; and Casey, of Walla Walla, the ringleaders; withstood punishment for several minutes before giving in.  
The state prison has been undergoing reforms for years and there is not even a dark solitary cell, these having disappeared soon after the lockstep was abandoned. The late trouble arose several days ago when several men were kept in their regular cells after having been caught trying to escape. Bread and water failed to quiet them and other bad men sympathized and aided in the disturbances. The situation was well under control late last night.

Kemp Has Bad Record

Salem, Or., Aug. 21.—Advice was received yesterday by Warden Murphy that George Kemp, who escaped some time ago from the penitentiary, had been captured at Seattle. He has violated his parole twice, and is regarded as a habitual criminal.  
Kemp was sent to the Oregon penitentiary from Wasco county in 1913 for larceny. In December, 1914, he was paroled and violated parole by stealing an automobile. He was returned to prison and again paroled in 1916. A second time he broke parole for forgery went to Bremerton navy yard and enlisted in the navy. The following day he deserted and was married in Seattle under the name of George King. Shortly afterward he was captured and returned to the Oregon penitentiary. He escaped from the honor gang July 29, last.

End Strike In Shipyards Of Grays Harbor

Washington, Aug. 5.—As the result of conferences concluded here today in which representatives of shipbuilders, the shipping board and the American Federation of Labor participated, a strike of more than 1000 shipbuilders in the Grays Harbor district of Washington was declared off and the men ordered back to work. The strike is said to have been sympathetic. The yards at Aberdeen and Hoquiam are working on wooden ships for the government.

Tualatin River Takes Three Lives As Toll

Oregon City, Aug. 23.—The lives of three Clackamas county women were lost in the Tualatin river shortly after noon yesterday when Mrs. Clemmie Fairhurst, aged 22, of Willamette; Mrs. Florence Smith, aged 23, and Miss Minnie Sandy, 15, of West Linn, were drowned. As members of a party of eight persons enjoying an outing on the banks of the river, the trio entered the water to wade. When Mrs. Fairhurst ventured beyond her depth her cries for aid attracted Miss Sandy, who unable to swim, hurried to assist Mrs. Fairhurst. The waters overcame the younger person, and Mrs. Smith hurried to aid both. Mrs. Smith could not swim and before other aid could arrive the three had disappeared.

Aid Of Americans Requested By Verdun

Paris, Aug. 21.—(Delayed.)—A deputation from the municipal council of Verdun called upon William J. Sharp, the American ambassador, today to suggest the possibility of some American city adopting Verdun, as it were, to assist in the reconstruction of the city hall, water works, schools and other ruined public properties.  
Mr. Sharp in reply referred to the admiration of Americans for the heroic defense of Verdun and his intention to take into consideration the best means of bringing the request of the Verdun city authorities to the attention of the United States. It appeared during the conversation that only six civilians are now in Verdun as firemen and police.

Douglas County Beans Will Yield Small Crop

Roseburg, Or., Aug. 23.—The bean crop of Douglas county will not yield one-fourth the crop expected according to reports, owing to the dry weather and late planting. The Martha Washington beans, of which a large acreage was planted, is practically a total failure.

D. W. BAGSHAW, Adm.  
Jacksonville, Oregon.

M'Nary Will Vote For New Tax Bill

Washington, Aug. 21.—Questioned regarding his attitude on the pending revenue bill Senator McNary said today:  
"I shall vote to increase the taxation proposed by the majority of the finance committee, for the reason that the money necessary for the prosecution of war should be drawn as far as practicable, from the pockets of those who enjoy the greatest war profits. A heavy tax should be imposed upon large incomes and the remainder will be paid uncomplainingly by the masses of the people. I am opposed to the tax on sugar and coffee as such a tax would press heavily upon those striving to meet the hardships of war conditions."

Lumberjack Regiment Recruited to Full Strength

District Forester, Geo. H. Cecil, Portland, Oregon, announces that the regiment of lumbermen, officially known as the 10th Engineers (Forest) and nicknamed the "lumberjack regiment" has been recruited to full strength, and the Forest Service, which has been securing the men, has been notified by the War Department to enlist no more candidate for service with this regiment. In anticipation, however, of a possible call soon for another regiment of the same character the listing officers all over the country have been instructed to continue listing names of suitable men who may be summoned when needed.  
The "lumberjack regiment" is not a fighting force but will be employed in woods operations in France, getting out material for army use. The recruits are now being assembled in Washington, where they are drilled daily by the officers assigned to command them. Colonel Woodruff of the regular army, who will head the regiment, is in charge and with the assistance of a staff made up of practical lumbermen and foresters is providing an equipment of the most up-to-date character for the type of woods operations called for, in the list of the experience of the Allies. The regiment will take with it both stationary and portable sawmills with everything necessary for logging and sawmill work and for transporting the product.

Gets First Land Bank Loan.

Montessno, Wash.—The first federal land bank loan has been made in this county to James H. Hale and wife.  
The loan, which bears 5 percent interest, and which runs for a period of 36 years, is for \$2500, covers 80 acres in section 20 and 40 acres in section 29, township 18, range 6 west.  
This is the first instrument of the kind filed in this county and was quite a curiosity to abstractors, real estate men and others. It is long, and the filing takes up more than double the space in the records usually occupied by mortgages. There are many special provisions, among which is the provision that after five years the parties may on any interest paying date make payments on the principal of \$25 or over, even to the full amount.

American Lake Army Camp Nearly Ready.

Tacoma, Aug. 22.—Construction of the buildings and street improvements, together with water supply and sewerage systems, of the American Lake cantonment, at which the draft army will mobilize next month, has advanced to more than 60 per cent of completion according to reports made to the military transportation accountants of the railroad was board. Up to yesterday 1331 carloads and 149 less than car shipments of material had been received at the camp.

This is the open season for excuses and the exemption boards have already discovered a number of new varieties.  
Wonder how long that German line will remain invincible after it has been fed a few times with \$10,000,000,000 budgets from the United States?  
The pro-German American Weekly tells us that Germany does not yet recognize a state of war with the United States. And there are still some men who do not admit the world is round.

Real Estate Ads.
