Electric Sparks

(From Off Our Wireless)

When we shall have ended this war right it will be a long time before anybody starts another war.

At best, a system of food distribution whose by-product is many carloads of ruined food is a rotten system of food distribution.

America's two largest polyglot communities today to give a practical demonstration of what the melting pot does for applied patriotism.

While talking peace Germany never neglects to prepare for another big drive.

Pancho Villa is so "dead to the world" that he no longer takes the trouble to announce funerals.

The reported change of Germany from an "autocracy to a democracy" does not yet make the world safe for the latter.

The German change in five days from "autocracy to democracy" is a performance similar to one that may be seen in a vaudevilie theatre in less time.

A frequent political epitaph in New York is: "He was a good mayor while he lasted."

A balloon basket invented by a French aeronaut has gas chambers buoyant enough to support five men should it fall into water.

Its inventor claims that a new camera will photograph very tall objects, such as buildings at close range without distortion.

The unusually early and heavy fall snow in so many places convinces us that Santa Claus plans to do his reindeering early.

People are always impugning the intelligence of the hen, but she absolutly never lays an antiquated egg.

All the world is from Missouri when Germany nonchalently announces that suddenly it has turned democratic.

With German troublemakers out of the way, Japan and America have no difficulty in reaching an amicable understanding.

Civilization must herewith cease muddling through and must systematize its metnods or be overwhelmed by educated barbarism.

This country evidently has much to learn in modern warfare, and also evidently this country is earnestly and zealously learning it.

Kaiser Wilhelm is practicing camouflage on the reichstag, giving it the idea that it had some real voice in the choice of the new chancellor.

Scientists who are persuading German citizens to eat sawdust bread are of the same school as those who sold turtle serum as a consumption cure.

Submarine's Lifeboat.

For a long time attempts have been made to evolve some sensible scheme for permitting a crew to escape when a submarine sinks, gets ensnared in a net, or for some reason becomes unmanageable while under water. An invention that has lately been protected by patents is described in Popular Mechanics. It is a lifeboat and, in reality, a small auxiliary submarine that normally is held in a concave seat constructed in the top part of the large craft. Water-tight hatchways are provided in each of the vessels, so that access from one to the other of them is possible. It is intended to offer a safe retreat for some thirty persons. Electric and gasoline motors would propel it and give it a radius of action estimated at about 500 miles. In the event of accident, members of the crew would enter the lifeboat, close the hatchways, free the small craft by unscrewing two large bolts that anchor it to the larger one, and rise to the surface.

Patrick's Pie Idea.

Patrick had called on his Betsy and she gave him a handsome helping of her special make of apple pie. Patrick was loud in its praise.

"I tried a new way," said Betsy, beaming. "I put a few gooseberries in to flavor it."

"Begorra!" cried Patrick, "if a few gooseberries give so good a flavor to an apple pie, what a darlint of an apple pie it would be made o' gooseberries entoirely!"

British Columbia Shipbuilding.

The steel steamer War Dog, the first ship of its type to be built in British Columbia, was recently launched at Vancouver. The War Dog, with a length of 315 feet, is also the first steel cargo vessel to be built in that province. The contract was placed by a Japanese steamship company through an English firm. Since the steamer was launched she has been sold to a British firm.

Notice of Sheriff's Sale.

IN THE CIRCUIT COURT OF THE STATE OF OREGON, FOR JACKSON COUNTY.

Commerce Trust & Savings Bank, a Corporation, Plaintiff,

-vs-

Sterling Mining Company, a Corporation, R. S. Bullis, Spencer S. Bullis, C. G. Bullis, Andrew Cantrall, A. S. Kleinhammer, Jackson County Bank, a corporation, S. A. Sanford, Clarence I. Hutchinson, and Harold L. Lumsden, co-partners doing business under the firm name of Hutchinson & Lumsden, B. J. Palmer, Y. H. Allen, Robert G. Smith, The Bullis Company, The Sterling-Applegate Company and T. B. Lumsden Defendants.

NOTICE IS HEREBY GIVEN that by virtue of a writ of execution issued out of and under the seal of the above entitled Court in the above entitled cause, to me directed, and dated December 1st, 1917, and which writ was issued upon request of plaintiff and in compliance with and upon a judgment, decree and order of sale rendered and entered in the above entitled court and cause December 1st, 1917, and duly docketed in the Judgment Docket of above entitled court and wherein the plaintiff, Commerce Trust & Savings Bank, a Corporation, recovered judgment against the defendant, The Sterling Mining Company, a Corporation, for the following sums, to wit: for the sum of One Hundred and Fifty Thousand Dollars ($150,000.00), with interest thereon from July 1st, 1905, at the rate of six per cent per annum, and for the sum of Three Thousand Dollars ($3000.00) attorney's fees, and for the further sum of Three Hundred ($300.00) Dollars fees of trustee; both of last named amounts to draw interest at six per cent per annum from December 1, 1917, and for all costs and disbursements of the above entitled suit. All of the said amounts being the amount of principal and accrued interest due at the date of said decree upon the bonds and coupons thereto attached and the mortgage securing the same therein foreclosed, and the further and additional sum of trustee fees Three Hundred (300.00) Dollars and attorney's fees Three Thousand Dollars (3000.00), interest on each of said amounts at six per cent from December 1st, 1917, which are due and payable under the terms of said mortgage, and the further and additional sum of $19.00 taxed as costs and disbursements in said suit; all of said several sums draw interest at the rate of six (6) per cent per annum from December 1st, 1917.

The aforesaid amounts are decreed to be a first lien upon the real estate hereafter described. That in addition thereto, the Court decreed a second lien in favor of S. A. Sanford as follows: for the sum of Thirteen Thousand seven hundred and thirty and 65-100 ($13,730.65) Dollars with interest at the rate of eight (8) per cent per annum from the second day of June, 1913 and the further sum of Seven Hundred Seventy-five ($775.00) Dollars, with interest at the rate of six (6) per cent from the second day of June, 1913. The defendants R. S. Bullis, Spencer S. Bullis and C. G. Bullis, were decreed to be mortgagee in possession, and a third lien granted them for the sum of One Hundred and Fifty Thousand Dollars ($150,000.00), with interest at the rate of six (6) per cent per annum from December 1st, 1917.

Said decree provided that the defendants in said cause and each of them is foreclosed of all right, title, estate, lien or interest in or to the hereafter described premises, including all interest that said defendants above named, or any of them had on December 1st, 1917, or prior thereto, except the interest of S. A. Sanford, in said second lien as above set forth, and except as to the third lien of R. S. Bullis, Spencer S. Bullis and C. G. Bullis, set forth above.

Said decree corrects an error made in describing said real estate at the time said mortgage was executed, and decrees that the intention was to mortgage the property hereafter described.

In said decree it is ordered that the property, hereafter described, be sold for the satisfaction of the aforesaid judgment. Said decree further provides that the property hereafter described be sold as a whole at public auction and that the bond holders or any thereof, the mortgagee in possession or any other defendant may bid and be a purchaser at said sale, and any such bond holder becoming a purchaser, as aforesaid in making settlement or payment of the purchase price, shall be entitled to turn in any bonds and any matured and unpaid coupons, thereby secured, estimating the value of said bonds and coupons for that purpose at the sum payable out of the net proceeds of such sale to the holder or holders of such bonds or coupons, as his or their ratable share of such net proceeds after allowing for the proportion of the total payment required to be made for costs and expenses of sale or otherwise; and if such share of the net proceeds should be less than the amount then due upon such bonds and coupons, such purchaser or purchasers may make such settlement by receipting on such bonds held by them, the amount to be credited thereon, and at any and every such sale any and all of the bond holders may bid for and purchase such property upon compliance with the terms of sale, may hold and retain and dispose of such property without further accountability therefor.

NOW THEREFORE by virtue of said judgment, decree, order of sale and execution, and in compliance with the commands of said writ, I will on the 31st day of December, 1917, at the hour of 10 o'clock a. m. on said day at the front door of the Court House in Jacksonville, Jackson County, State of Oregon, offer for sale and sell at public auction to the highest bidder, for cash in hand, all bonds as provided in said decree, subject to redemption as by statute provided, the following described real property and all interest that the defendants above named or any of them had therein on June 20th, 1905, or that they have since acquired or now have therein or so much thereof as may be necessary to satisfy said execution, judgment, decree and accruing costs, to-wit:

The lands and premises directed to be sold by this decree are situated in the County of Jackson and State of Oregon, and are particularly described as follows, to-wit:

U. S. Navy Gets German Submarines.

San Francisco, Nov. 27--Germany has admitted the loss of 115 submarines through the effectiveness of the American naval patrol, according to a letter received here by Supervisor James E Power, from his brother Thomas chief carpenter's mate aboard an American destroyer in patrol service. Power believes this admission indicates that the actual number is far greater than the estimate. The letter in part follows:

"We have done wonderful destruction to the enemy since we entered the fight. The Germans estimate 115 of their subs have been put out of the running by us, and you can rest assured if they admit that number, the real total is a great deal more.

"The other day we picked up 13 survivors clinging to a spar they had been on four days. The Germans had torpedoed their ship and made them get in lifeboats. Then the Germans took nearly all their clothes from them and made them pull away. When they got off a short distance, the Germans started shooting at them with machine guns and killed 35."

Harrisburg—Work progressing at new sawmill. Big 100-horse power motor installed and power line nearly completed to mill.

Roseburg—Many improvements at Roseburg are started.

An Old Store Born New

In taking over the business of the old firm, after it had served the people of this community several years, it was with one aim and ideal in view: to give the people of this section

Fly Specks In Business.

Moses kept a second hand clotnes shop, and on leaving it in charge of his son Ikey during the dinner hour, imparted to him the fact that on the price ticket one dot represented one shilling, two dots two shillings, and so on.

Returning, Moses inquired of his son:

"Haf you had any customers, Ikey, vat?"

"Yes, fader, I have sold de gray coat and vest for eight shillings."

"Vell, vell, now, you did goot business, for it was only five shillings."

"No, fader! I kept the ticket; see, it has eight little dots dere."

The old Jew scratched his head and smilingly remarked:

"Jubilee Jerusalem! I will never kill anoder fly.
