Flouring Mills May Now Grind Wheat.

Washington, March 25—The food administration advises Senator Chamberlain that an order has been issued permitting all mills to grind up to 90 per cent of their allotment instead of 75 per cent, without restriction as to their monthly quota of wheat supplies. Where mills have ground their 90 per cent allotment, but have wheat on hand or receive wheat direct from farmers in wagons, they will be permitted to grind for local consumption and for shipment to the food administration to the extent of 50 per cent of their wheat receipts, with the understanding that such mills shall offer and turn over to the grain corporation all present wheat stocks and 50 per cent of all further wheat receipts.

AMPLE LUMBER FOR AIRPLANES IS CUT.

Chairman Bloedel, Of Seattle, Says The Shipyards Will Be Busy.

Seattle, Wash., March 27—Fir lumber for aircraft production is coming out of the Northwest in tremendously increased quantities, and the government's aircraft program in both spruce and fir is in excellent condition, today declared J. H. Bloedel, chairman of the fir production of the United States Emergency Fleet corporation for Washington and Oregon, who returned last night from a month in Washington, D. C.

Chairman Bloedel also brings word that the wooden shipbuilding program is such that every yard in the Northwest will be kept busy and as soon as necessary, in order to keep all the ways occupied continually, new contracts will be issued. The yards of the Northwest will furnish approximately 300 wooden vessels this year, from March 1, 1918, to March 1, 1919, he said.

"The best time made by one of the direct train shipments," he said, "was 14 days, from a Puget sound point to the breaking up point on the Atlantic and the slowest time was 14 days. Records show the lumber delivered from Northwest mills into Atlantic shipyards average two weeks time."

Battle Front Is 70 Miles.

Paris, March 29—The great battle is now raging over a front of more than 70 miles. This extension of the line has increased the number of German reserves engaged. Although thus far no decisive success has been obtained anywhere, there is increased confidence here. The impression is semi-official circles is that the allies have not only held off the Germans, but now are no longer compelled to permit the enemy by his maneuvers to shape the course which the battle shall take. The generally feeling is that for Germany the battle is virtually lost, that for the allies the battle is about to begin.

Spring Seeding Begins and Grain Acreage Increases.

Warren, Or., March 26—The farmers have begun their spring seeding and the season is nearly six weeks earlier than last spring. About 50 per cent more grain will be sown, but not over 40 per cent of last year's potato acreage will be planted. There are at present over 20,000 sacks of potatoes lying in the bins many of which will not be removed and will spoil. The reason is that a price of 75 cents per hundred is offered while sacks cost 25 cents each and wages are not less than \$3.50 a day.
