Electric Sparks

Dry communities find it difficult to provide against leakage.

We must have ships. We must have plenty of ships. And we must have them in time.

Kaiser Bill is now engaged in warning the Ukrainians against the fate of the gold-fish that snapped at the peace loving man.

Lenine "accepts peace only as a respite, and by the time the respite is over he will look for his peace in vain. If the Kaiser were to consult a fortune teller, he'd probably find that a brown-skinned gentleman was about to enter into the affairs of his young life.

According to some estimates modern graft should no longer be described as "pork," its proportions are mastodontic. Russians who listened to German persuasions are now affording an object lesson of what is liable to happen to the un-thinking pacifist.

The use of sawdust as food has not yet caused Germany to send over any delicatessen in the line of holzwurst.

American troops have been giving the Germans one surprise after another. The first surprise was given when the men landed on French soil.

Klamath Rancher Will Run For Judge In Recall Fight.

Klamath Falls, Or., April 9—Robert H. Bunnell has filed his declaration of candidacy for the office of county judge against Judge Marion Hanks at the recall election which is to be held April 22. A petition for his nomination is being circulated. Bunnell is a farmer of the Klamath basin.

Arrested for Smoking Cigarettes

Roseburg, Or., April 9—John Thomas, a Southern Pacific fireman, has been arrested by Constable Church on the charge of smoking cigarettes. The complaint alleges that Thomas is not of age.

Barbed Wire Is Saved For Use Of Army.

Camp Lewis, American Lake, Wash., April 9—Several hundred miles of barbed wire is being salvaged on the Camp Lewis artillery range, where old farm houses have been abandoned and the need for fences has disappeared with the change of the countryside from a peaceful habitat of farmers to an inferno of noise where the big guns' roar bespeaks more plainly than words the fact that Americans are preparing to meet the enemy in battle. Two men are kept busy tramping back and forth across the prairie, tearing the old wire off the rotting fence posts and rolling it into big bundles which are placed on an automobile truck and carted away.

Salvaging of the barbed wire is another task of the conservation department of the quartermaster's corps which is to save the government a big fortune by reclaiming everything about camp that can be saved.

Old-time Resident Of Baker County Is Buried

Baker, Or., April 8—Mark J. Hindman, one of the oldest residents of Baker county, died at the home of his son, Albert Hindman, in Durkee, Friday. His death was the result of a complication of diseases due to his age. His brother, William Hindman, died at the age of 96 years a short time ago. Mr. Hindman crossed the plains to Oregon in a prairie schooner in 1864. He located in Baker county and, with the exception of two years, had been a resident ever since. The funeral was held here yesterday afternoon.

Rancher Cleared of Charge.

Klamath Falls, April 9—Lisson D. Ross, who was arrested in connection with the sheep poisoning on the Pope and Hammond ranches, was dismissed on motion of District Attorney Dacan at the hearing before Judge Hanks for lack of evidence. Mr. Ross is also a cattleman of Poe Valley. Two other arrests of prominent ranchers of that section have been made in connection with this case, Steve Stukel and John McFall. Their hearing is to be held April 13.

Another Long Range Gun Ready For Action

Amsterdam, April 9—According to Les Nouvelles, of Maastricht, another long-range gun similar to the one which bombarded Paris passed thru Belgium from Essen on Monday. The length of the barrel is from 20 to 25 meters and the caliber from 20 to 25 centimeters.

Riddle Has New Editor.

Roseburg, Or., April 8—George Coulter, of Brownsville, has leased the plant and paper of the Riddle Tribune and will publish the paper. Claude Riddle is the owner.

The Proof.
Jack—"So I dives under the submarine with my little bradawl and bores an 'ole an' sinks the blighter, an' ere's the bradawl to prove it!"—Sketch.

Child Drowns In Umpqua.

Roseburg, Or., April 8—The 2-year-old child of Carl Engels, a fisherman on the Umpqua in Coles valley, 20 miles west of here, was drowned last week, when it slid down an embankment into a pool of water barely six inches deep. It is presumed that the child was stunned as the result of her fall.

Nobody asks now what we are fighting for, the ruthless enemy having been unmasked.

Mobilize the hose, the rake and the spade against the knife, fork and spoon. Secretary Baker saw the aeroplane ride on Paris. For him personally the war is no longer 3,000 miles away.

Now the secret is out. The Kaiser started the war in part to get thrown for his large family of sons.

Were every kitchen kept so carefully as the military kitchens in the army cantonments, there would be no problem of food conservation.

The woman's vote has added a new terror to politics. What is a statesman to understand when informed that the women are out to get him?

In 1914 some 25,000 women were working in the war plants in France. On March 1, 1917, the number had increased to 375,582 and now has reached half a million.

What makes us especially weary in the model stump speech is its redundancy and vain repetition. After all, the vocabulary of profanity and abuse is distinctly limited.

The Russian government says that it "can not be held responsible" for the outrages committed by its troops on the British legation. Having repudiated all other responsibilities, why not be consistent?

OREGON OFFICIAL SLOGAN

The prize winning phrase was won by Florence B. Hoyt of Portland. It is used in all advertising of the Third Liberty Loan in Oregon. Many of the other slogans from all over the state are used in connection with the cartoons being run by the Oregon press. Oregon writers and illustrators have all donated their best services in aid of the Third Liberty Loan.

Cause of Car Sickness.

Car sickness, so common among children, is caused in the same way as seasickness, or the dizziness produced by spinning around rapidly or swinging. The fluid in the semi-circular canals of the ears is set in motion by the movement of the body and tends to keep on moving even after the body has come to a standstill. Once accustomed to the new motion, the traveler acquires his "sea legs," and if he is at sea some time in rough weather he will need re-education for the stationary on leaving the ship, for he will feel as if the land were swaying under his feet.

Mr. Flatbush—Have you responded to Mrs. Bensonhurst's invitation to her party?
Mrs. Flatbush—Yes.
"Did you write her today?"
"No, I didn't write; I used the telephone."
"Used the telephone? Why, that's no way to respond to an invitation to a party."
"Why not? Ours is a party wire, isn't it?"—Yonkers Statesman.
