Austrians Shoot The Hungry Civilians.

Washington, April 23—Serious food riots in Galicia are described in a diplomatic dispatch today from France. says:

"A telegram from Vienna to the Muenchener Neueste Nachrichten reports that in many large towns of Galicia riots involving bloodshed took place ast week because of the shortage of food. At Cracow these riots were particularly fierce, causing the deaths of a number of people. The troops charged into the crowd. The disturbances have now spread to Eastern Galicia, more particularly in Lemberg and Tarnopol. The number of casualties in the civil population is also high."

Senator Jim Reed is not greatly interested in the war. He has consecrated his disloyal life to fighting Hoover.

If Germany had behaved with decency toward Russia it might have found the world wide opposition fading. But it blundered as usual.

Organize New Regiment.

Vancouver, Wash., April 23—The 634th engineers are to be organized immediately at Vancouver barracks, according to reliable advices received here. This new regiment will be made up from men expected in the coming draft and it will replace the 318th engineers organized here and which recently departed presumably for overseas service.

It is now or never with Germany and now and forever with the Allies.

The Right Kind of a Man For Senator

Robert N. Stanfield
Farmer, Stock Raiser and Producer.

The state is entitled to the active services of a man who knows how to work. Work for the state generally and work for the people of the state both individually and collectively.

Oregon does not need any orators for orators are a drag on the market, and like constitutional lawyers, they do not get anything.

The federal government needs all the assistance Oregon can give, but it is not receiving it because it has not been put up to the department on a business basis.

Today business men are having more to do with the government affairs than ever before. We are spending twenty-four million dollars a day and the people who will pay this money are the people who actually create wealth, the farmer, producer and the toiler.

Our prosperity depends upon our continued industrial activities and everyone of these should be maintained at maximum capacity.

The prosperity of the small farmer, the small producer and the manufacturer is as essential to the state and the nation as the prosperity of the big man, every one of our occupations should be given equal consideration regardless of the amount produced.

Every encouragement must be given to increase production and this can be obtained only through assurance that the small farmers as well as the big man is going to receive his proportionate share of the war expenditures, and that there will be a market for his products and a profit to him for his work, based proportionately upon his cost of production.

There must be equality in all phases of our state and national industry, and the small fellow must not be forgotten, overlooked or crowded out through the rush for big things and big orders and big accomplishments.

If the people of the state want a business man, a worker, a man who knows, is thoroughly acquainted with every phase of the industrial situation in Oregon, a man who is capable, honest and fearless, a man who has by his own labor and through his advancement aided in the progress and development of Oregon, they want Robert N. Stanfield.

LIKE BACON

YOU know how cooking brings out all the rich pungent flavor of bacon—there's nothing that tastes better. But you wouldn't like it raw.

IT'S TOASTED

So we toast the Burley tobacco used in LUCKY STRIKE Cigarettes for exactly the same reason—to bring out the rich, solid flavor.
