Entered as second-class matter June 22, 1907, at the post office at Jacksonville Oregon, under Act of Congress of March 3, 1879.

\$50.00 Bonus to be Paid to Soldiers Discharged Since April 6, 1917.

Section 1406 of the Revenue Act approved February 24, 1919, authorizes the payment of a bonus of \$50.00 to officers, soldiers, field clerks and nurses of the Army upon honorable separation from active service by discharge, resignation or otherwise. This bonus is not payable to the heirs or representatives of any deceased soldier.

Those who are discharged hereafter will receive this bonus on the same roll or voucher upon which they are paid their final pay.

Those who have been discharged and have received their final pay without the \$50.00 bonus, should write a letter to the Zone Finance Officer, Lemmon Building, Washington, D. C., stating their service since April 6, 1917, the date of last discharge and their present address to which they desire their bonus checks to be sent and enclosing with this letter their discharge certificate or military order for discharge and both, if both were issued.

Upon the receipt by the Zone Finance Officer, Washington, D. C., of this information and the soldier's discharge certificate, this officer will cause checks to be drawn and mailed to the claimants in the order in which their claims were received by him. The discharge certificate will be returned to the soldier with the check.

It is estimated that at least one million and a quarter persons have been discharged from the service who are entitled to the benefits of this Act and while payments will be made as expeditiously as practicable, it will manifestly take considerable time to write and mail this many checks.

Cable the Peace Conference

America's prestige is at stake in the coming Victory Liberty Loan. The eyes of the world are fixed upon us. The nations of the world are going to rate us on this last effort. It is right that they should judge us, not by what we do in the heat of the struggle, but by our condition after the fight.

One of the best guarantees of world peace for years to come would be the successful flotation of the Victory Liberty Loan for five or six billion dollars. Even a combination of powers inclined to start another war would hesitate in the face of such a display of tremendous national strength.

Every man who buys a Victory Liberty Bond next April, moreover, will be adding to the determination with which America speaks at the Peace Conference. There are undoubtedly going to be many moments during that Conference when every whit of the power of the United States will be needed to shape into actualities those ideals for which we entered the world struggle.

Let the cables carry into the Quai d'Orsay this message:
"America has oversubscribed her Fifth Liberty Loan by more than a billion dollars."

THINK STRAIGHT

This is a time for straight thinking. Make sure the other fellow is not talking drivel. Analyze his thought, don't follow it. He may be suffering with phrasologic hemorrhage. It is epidemic now—a-days like influenza and much more serious.

For instance in regard to the Victory Liberty Loan and these fellows who thumb their vests, frown wisely, and say "Let the banks do it. They are bursting with money." They are talking drivel. It sounds fine but it isn't good sense. Nor is it good economics, which amounts to the same thing.

If the government thought it was wise to "let the banks do it," the government would let them do it. There would be no Victory Liberty Loan in the popular sense. But the government knows better than to let the banks do it.

This is the period of reconstruction right now. It is a period of many possibilities economically. One possibility is industrial depression. One preventative of industrial depression is plenty of money at favorable rates of interest to stimulate private enterprise. That means our banks must not be clogged with government securities. It means that we can't afford to "let the banks do it." The people must do it—do it from their earnings, present and future.

Think straight.

History of Silk Production.

Silk was first made by Si Ling, wife of Hoang-Ti, emperor of China, 2600 B. C. Among the Greeks Aristotle (384-322 B. C.) is the first who mentions it. It was not until A. D. 530, however, that it began to be cultivated in Europe, the first eggs being then brought from India by some monks.

There are no Liberty Loans ahead of you after the Victory Loan, so mortgage your future for Victory Bonds. Thousands of our soldiers and sailors mortgaged their futures. Your boy will be a better man than you are if you give him a weekly allowance for Thrift Stamps. Let him buy them himself.

When the Fat Years Return

By F. C. Ambulance 186, Western Front.
When the fat years return, and, rich and free,
You half forget, as men have ever done,
The price once paid for your security,
Thinking too much of fortune lost or won,
Too much of pride and laughter, food and ease,
Or of some public favor cheaply earned,
Oh, then turn back the page and think of these
Who gave their bodies for freedom to be burned—
For these lived, too; they, too, loved ease and laughter,
Sunlight, the green earth. All that you still keep
They had, and more—vision. If you come after
And dare forget them, buried so young, so deep,
And dare forget this faith for which they stood—
Ah, but you will not, being of their blood!
—The Outlook.
Start figuring now on your personal quota of Victory Liberty Bonds. If you don't, start figuring on increased taxes.
