When You Are Chilled.

Chilled hands or feet should not be put near the fire or in hot water, as this causes the blood vessels to dilate too rapidly and chillblains result. The chilled members may be put in tepid water and a little hot water added from time to time, but the best plan is to warm by exercise and by rubbing.

Could Not Live Without Birds.

The value of birds to man is based principally on their feeding habits. Their greatest help is through their activity in eating harmful insects, their eggs and larvae. Without this constant aid, we would be powerless to protect our trees and crops from the ravages of caterpillars, beetles, borers and such creatures.
