

Jacksonville's Opportunity

"Get On The Job" Should Be Our Duty To The Community.

Now with the war over and the eyes of capital turned towards the West, is the time for the people of our little community to begin thinking about the future.

Our little community is, figuratively, in the midst of a vast treasure. On all sides we are surrounded with great mineral wealth, waiting only for the right party to find it, at the right time, and right place. In the mountains we have an abundance of timber, already to be cut into lumber.

In the near vicinity there are several partly developed mines, which have never been worked to the fullest extent, lying there idle through all these years. True, we take all these resources in a matter of fact way, never thinking nor we suspect caring whether they are developed or not. The reason for this attitude is evidently expressed in the statement made by a Jacksonville man, when the editor was trying to interest him in a good proposition, "Why I can live anywhere."

Such a feeling may be descriptive of some of our more well to do citizens, but for the man with the pep and push such a feeling won't go very far. You can bet your last nickel that such a feeling is not entertained by the majority. And now is our chance to get on the job and show the world what Jacksonville spirit is made of.

We have the finest site for a city that there is to be found in the entire west, or for that matter in the United States. Our water supply is the best to be found. The water in the mains is always cool and refreshing, fit for a king to drink. We always have sufficient pressure in the pipes for fire protection, and best of all, have a source of supply that will compete with any city several times the size of Jacksonville.

We have in Jacksonville, several well established business houses, all founded on solid rock; men at the head of which are considered throughout the state as utterly reliable and whose words are considered as good as their bonds.

Adjacent to Jacksonville are several sites for natural

PENDLETON ROUND-UP AUTO EXAMINERS MEET

Frontier Celebration to be Held September 18, 19, 20.

This office has received information from the Pendleton Round-Up Committee, announcing that the tenth annual production of the Round-Up would be held in that city on September 18, 19 and 20.

The committee promises a better program than ever given before in any similar event; featuring the returned cowboy riders of the 81st division. The usual collection of bucks and squaws will be in attendance, but word comes across the mountains that the red brotne's no longer travel via the foot burner and travois pole, but now sail along in six and eight cylinder chug-a-chugs.

The railroads will be offering special fares to this event and it is expected that several of our readers will be taking business trips to Pendleton during the latter part of next month.

Ten Years Ago.

From The Jacksonville Post of August 7, 1919.

Frank Ellis was shot and killed while exploring the Josephine County Caves.

The I. O. O. F. lodge is rapidly increasing in membership. New applications are received at every meeting, and the lodge is in a prosperous condition.

A special term of the Circuit Court was held to hear the case of City of Medford vs. Hanley. The court was presided over by Judge Coko.

Chas. Dunford Jr. and Roy Ulrich spent the first of the week fishing in the Applegate country.

After waiting 62 years for their pay, nine survivors of the Cayuse Indian war of '47 and '48 in Oregon will be allowed \$1.50 a day for the time served.

R. R. Pugh, a recent arrival from Spokane, was struck by the Shasta Limited Tuesday morning as he was crossing the track near the S. P. depot in Medford.

Central Point now has two newspapers. The second one made its appearance last week.

Time for the election is growing near and still we here no great noise about white hopes, dark horses or any other kind of candidates for nomination for president.

State Board of Auto Mechanic Examiners Hold Session in Medford

The state board of auto mechanic examiners, which was created by a recent session of the legislature was in session at Medford this week.

The law provides that all mechanics, who do work no matter to what extent, on a car for money, must be examined as to his qualifications. If a blacksmith wishes to fix a spring, he must have a license.

The board is composed of E. E. Burgess, Portland, H. P. Fancher, The Dalles and M. L. Gramming of Corvallis.

INDUSTRIAL REVIEW

Manufactures, Enterprises and Improvements, Providing Payrolls and Promoting Development of Oregon.

Aug. 4.—Homestead—Copper Dyke Mining Company has started sinking in the Cap Miller shaft.

Building permits show increased activity in Eugene.

Stanford's improved city water system will decrease insurance cost.

Weyerhaeuser officials see great industrial future in Klamath Falls.

Supposing the state regulated the price at which grocery stores could sell to the consumer but left the farmer free to charge grocers any amount he could screw out of them. Every one would say it was unfair and yet that is exactly the position of public utilities to day.

Survey for Pendleton—Cabbage Hill section of Eastern Oregon highway begun.

Pendleton—Proposed Elk's Triangle business block and theater to cost \$167,000.

Pendleton—Pipeline to Chaplist spring all laid; system soon completed.

Vale—Big dam at Riverside to be completed by Oct. 1st.

Roseburg—Work on Filler Trail cut off to Crater Lake to commence September 1.

Klamath Falls—New laundry enlarges, takes new name and puts in new machinery.

With one exception, highway from Oregon City to Portland will soon be entirely completed.

Shipping board should complete its contracts with shipbuilders, wind up its red tape which has bound private shipping and then our national law makers should get behind a program which will help Americans in shipping industry meet world competition which is already developing.

Klamath Falls—Marsh lands surrounding upper Klamath Lake to be dyked and lands reclaimed.

Amity—Derriek erected to sink test oil well on Newman ranch.

Banks—Logging railroad to go in from Wilkesboro to Vernonia.

Commercial clubs should take an interest in increasing berry acreage as the product will bring profitable prices for many years to come, and a large income per acre from sale of rooted plants.

Springfield—Ice and cold storage plant resumes after two years.

Astoria Marine Iron Works lowest bidder on six steel tanks for Portland docks.

New saw mill in prospect for Allegany section in Coos County.

Portland and Southeastern to build from Mt Angel to Bend.

Vale Milling and Elevator Co. incorporated.

While educated, college and technical help is abundant there is increasing scarcity of farm and common labor over the country.

Newport—First contract for new macadam highway to connect Newport with Willamette Valley let.

For taxes during the year ending June 30, 1918, for outlays by special assessments and other special taxes, Portland led the United States on a per capita basis.—Oregon Voter.

Cottage Grove gets new general merchandise business.

Medford to have a new general printing and publishing shop.

Nitrate deposits on Sheep Mountain an Stinking Lake to be developed.

Bend 1500 horse power electric unit goes in on Tumalo.

CITY COUNCIL MEETS

Regular Monthly Meeting of the City Council Held Tuesday Evening.

ONLY ROUTINE BUSINESS TRANSACTED

Tuesday night at the City Hall was held the regular monthly meeting of the City Council. Those present were: Mayor Britt, Councilmen Fick, Lewis, McIntyre and Smith; Recorder Bagshaw; Marshal Kenney, and Street and water commissioner Ulrich.

Minutes of the last meeting were read and approved and ordered filed. The following bills against the city were presented and after discussion, the Recorder was instructed to draw warrants in payment of same:

Crane Co. meters, etc.,	\$66.84
Ore-Cal. Power Co. electricity	2.80
Fred J. Fick, supplies	4.19
R. R. V. Ry. freight	1.41
Jacksonville Post, printing	7.00
W. G. Kenney, salary	35.00
Chris Ulrich, salary	65.00
Chris Ulrich, supplies and wages for one man for one day and a half	7.10
D. W. Bagshaw, salary and balance paid Crane Co.	29.87

Report of water commissioner for month of July was read and ordered filed, water commissioner reporting collections amounting to \$51.00.

City Recorder reported service of summons upon the city in a case wherein John F. Rocho is plaintiff and Josephine Applegate, City of Jacksonville and others are defendants. A motion was made and seconded that D. W. Bagshaw be retained to answer the summons and if necessary to appear in court in behalf of the city.

A matter concerning the sale of a cemetery lot was brought to the attention of the council. Several years ago lot number 218 in the Jacksonville cemetery was sold to L. J. C. Duncan for the consideration of fifteen dollars.

The Duncans improved the lot, but on account of not requiring so much space at the time did not fence the entire piece. Again in 1915 the unfenced half of the lot was sold. The new purchaser went ahead with his improvements, even putting up a monument. The section recently discovered the mistake and brought the matter to the attention of the council. The mayor was asked to write to the original purchaser, explain the mistake and offer in behalf of the city, to purchase the half lot, paying the price it was sold for the second time.

Various much needed supplies were ordered to be purchased for the fire department. The matter of reorganizing the Jacksonville fire department was discussed and it was finally decided to ask the president of the Jacksonville Engine Company No. 1 to call a meeting of the old organization, for the purpose of perfecting, if possible a reorganization.

A report from the State Board of Health was received concerning the samples of water sent from the city dam. The water proved upon analysis to be almost entirely pure and entirely safe for use.

The city recorder presented his report for the month of July, which showed the following collections: water turn on fees, \$9.00; meter rentals, \$90.16; impounding fees, \$3.80; special taxes, \$92.50; received from T. W. Miles, as receiver, on account of improvements to railroad crossing, \$21.67. The report was approved and ordered filed.

There being no further business to come before the council, the motion for adjournment was in order.

OUR OWN STATE

Some Recent Happenings In Various Parts of Oregon

St. Helens is Booming.

St. Helens, Or., Aug. 3.—Building activity continues in St. Helens. During the spring and summer many new residences have been built and at the present time plans are being made for the erection of two new business buildings.

E. G. Ditto purchased a lot on Columbia street for \$5000 and will immediately start construction on a two-story fireproof building which will cost \$10,000. The Columbia County bank is considering the erection of a business block on this same street, which, if built, will cost \$25,000.

13 Astoria Structures to Rise.

Astoria, Or., Aug. 3.—Building improvements aggregating \$53,911 were started in Astoria during the month of July. The building inspector issued 25 permits, 13 for new structures, valued at \$25,750 and 13 for alterations, amounting to \$28,161.

Good Rain Hits Grande Ronde.

La Grande, Or., Aug. 4.—The first rain in the Grande Ronde valley since May 25 fell Sunday afternoon and evening when 27-100th of an inch was recorded. Crops are averaging much more than anticipated prior to the harvest.

Baker Sends Bread Via-Airplane.

Eugene, Aug. 4.—Bread delivered by airplane is the latest in Eugene. Henry Korn, son of Harry Korn of the University bakery, dropped a loaf of bread at his home Saturday as Lieutenant Cook, driving the Salem plane swooped down almost to the house tops and skimmed over the roof of the Korn home at Kincaid park. The package dropped close to mark and the contents were not damaged in the least.

Church Services Suspended

Rev. A. H. Gammons, minister of the Presbyterian church in this city, announces that no church services will be held in his church during the present month. Church services will be resumed in the fore part of September and will then continue as usual. Mr. Gammons has promised us some interesting news articles in the future.

DIXIE CLUB TO MEET.

Former Residents of Southland to Hold Picnic.

The Dixie club of the Rogue River valley is planning on holding a reunion and picnic at Ashland park next Thursday. Entertainment committees have already been announced and a general good time is planned.

The Dixie club is rapidly increasing in membership and is now represented to outnumber any similar organization in the valley.

The Call to Service.

(R. H. Ballard of Los Angeles.)
There is so much talk going on in the country now by seers and others who are preaching radical changes in the government. What is the matter with our present government? Our constitution gives us inalienable, inviolable rights of personal security, personal liberty and private property. To change it, as advocated by some, would be to disregard these splendid privileges, no matter how pure a theory some forms of government, such as Socialism, may be based upon. History has taught us that the administration of these is not American in the fact that the principals of our constitution are disregarded. The Bolsheviks of Russia and the I. W. W.'s of America are one and the same thing—all disregarding rights of property, personal security and personal liberty. To what lengths they have gone in Russia in the disregard of personal security and liberty is well known. There is nothing American in this. The American people do not need a new form of government, but rather they do need to awake to the true signs of the times—namely, the call to service in the highest sense of the word.

Our Meal Ticket.

Lumber is the great stimulating industry on the Pacific coast, when it booms we all boom and mining mining stands in the same position in mountain states. Moral—help keep these industries on a sound basis.

Kendrick-Kenyon bill provides for government operation of packing plants, stockyards and refrigerator cars through the department of agriculture. It would regulate farm production to a large extent.
