

ALL TOGETHER! GO!

Let All Hands and the Ship's Cook Unite to Spread the Information Concerning this Wonderful Valley.

Soon we will be in the grasp of old King Winter, wondering in the long nights and even during the snappy days what to do to pass the time in the best manner.

We have one suggestion to offer: when you get lonesome and down in the mouth because we are having a few days bad weather, just sit down and think of your friends and relatives in less favored climes and regions who are in the midst of snow and bad weather nine months of the year. Tell your folks about the advantages of Southern Oregon and keep telling them.

Better start right now, tell the world that Jacksonville and Jackson county is the ideal place in which to live. Because you have lived here several years, you have undoubtedly forgotten all the thrill you first experienced.

The only thing needed to recall the fact that Southern Oregon is a king's paradise is to go away and visit other parts of the world for a couple of years. When you come back you will fully realize the value of this valley. The writer of this article knows what he is talking about. He has visited several different countries, almost every part of the Union and has tried everything from the equator to British Columbia, and has seen nothing to compare favorably with the Rogue River valley.

The trouble is that the people do not realize fully what we have in the way of climate. It never gets very cold or very hot, although there are usually a few warm days in the summer time. The soil in this valley is such that almost any thing can be raised, although since the dry law came in we haven't seen so much of certain things raised as formerly.

But do not forget to write, send your people literature, do anything to show the unenlightened ones that they are making a grand mistake by not coming to this valley to live. If they once come and look us over, they will be here for all time.

How about Modern Sanitation at the Jacksonville School House?

We have our
New Fall Suit Samples
in the window
this week.

JAIL BREAK FRUSTRATED.

Attempt of Inmate of County Jail to Gain Liberty Stopped When Sheriff Appears on Scene.

One of the most daring daylight jail breaks known in Jackson county was attempted Monday evening at the county jail in this city.

W. E. Carter, wanted at Los Angeles for stealing an automobile, arrested at Roseburg last week, and brought back here to answer to a burglary charge at Medford, had been permitted the freedom of the jail corridor to get some exercise, and when the jailer stepped out he quickly ascended to the top of the jail, where a hole used by a former inmate to make his escape had been unrepaired. He was already to make his get-away when he discovered the presence of enemy guns. At the command to get back into his hole he quickly did so, and then found Sheriff Terrill, awaiting him with a young cannon in working condition.

This was the second attempt made by this man, the other being discovered in ample time also. The fellow is full of confidence in his ability to make his escape, but is at present located in the old "polly" cage, from where no one has ever been able to get out.

He has told his jailors many stories of former depredations and promises them a lively time keeping watch over him.

Communication.

To the Editor:

I don't like your mining proposition, from the fact that as a general thing mine owners are poor men. What could they do in erecting a smelter? Nothing. Don't you think it would be a good idea to have a meeting of the owners and others that may be interested, and make arrangements to advertise in the leading papers for a company to put us up a smelter?

If we get a smelter we will not have to organize. We then could work our ores independent of each other. Every fellow work and delivers his own ore. They could then afford to do it.

You know it takes money these days to do things. If we could all get a government job we might make enough pretty quick to turn Jackson County mines upside down, or hem up some staples or do some big stunt and get Mr. Wilson to lower the high cost of living.

Well—Mr. Bagshaw—cooperation in this county won't go without money.
One Interested.

SAWMILL WELL UNDERWAY.

Work on the Gagnon Sawmill Well Underway. Being Rushed to Completion.

Work on the Gagnon sawmill, which is located on the site of the old cyanide plant about a mile and a half west of this city, is well underway. The boilers have been placed in position and the brickwork is being rapidly completed by a force of skilled men.

Other machinery recently received is also being put in position and being made ready for operation.

The camp crew has already started hauling logs to the new mill and now have a goodly number on the ground. Work of completing the mill will be rapidly pushed until ready for operations.

SCHOOL BOOKS

Letter of Interest to Parents and School Children

To the Editor:

Since many of our schools begin operations Monday September 1st or shortly thereafter, I am sure the patrons of your community would be glad to have the list of books by grades published in your paper. Below I have listed the books for each grade as required by the State Course of Study. I have also given the list price for which these books are to be sold by the dealers. In many cases old books of corresponding grade and similar kind may be exchanged for the new ones recently adopted by the State Text Book Commission for use in our schools for the next six years. The exchange prices is at the right of the list price.

First Grade.	
Pencil 5¢, tablet 8x10 5¢	.10
Beacon Method Primer	.36 .29
Beacon Method 1st Reader	.36 .29
Natural Method Primer (later)	.32 .22
Writing Lessons	.15
Total	\$1.29
Second Grade	
Pencil 5¢, tablet 5¢, ruler .05	.15
Natural Method 1st Reader	.37 .25
Natural Method 2nd Reader	.44 .31
Writing Lessons	.15
Total	\$1.11
Third Grade	
Pencil .05 tablet .05 ruler .05	.15
Pen tablet .10, pen points .05	.15
Pen holder .05, ink .05	.10
Palmer Method	.20
Natural Method 3rd reader	.50 .33
New Word Speller, 1st book	.35 .25
Essentials in Arithmetic book 1	.52 .50
School Dictionary	.90
Total	\$2.80
Fourth Grade	
Pencil, ruler, tablet	.15
Pen tablet and pen points	.15
Pen holder and ink	.10
Natural Method 4th Reader	.56 .36
New Word Speller 2nd book	.36 .25

Writing	.20

MEETING OF CITY DADS

Sexton Granted Increase. Usual Reports Read and Approved.

The regular monthly meeting of the city dads was held at the city hall Tuesday evening; present: Mayor Britt; Councilmen Fiek, McIntyre and Smith; Recorder Bagshaw; Marshal Kenney; Street & Water commissioner Ulrich and Treasurer Dox.

Minutes of last meeting were read and approved and ordered filed. Recorder presented following vouchers against the city:

Big Pines Lumber Co. lumber	\$6.35
Chris Ulrich, one man two days, team hire, oil, blacksmithing and salary	88.70
W. G. Kenney, salary	35.00
D. W. Bagshaw, salary, express, expenses in Rocho case, and stamps	23.95
Cal-Ore Power Co. lights two months bill	8.40
R. R. V. Ry. Co. freight on meters	1.57
A. C. Long, equipment for fire department	16.51
Lewis Ulrich, supplies	6.50
Emil Britt, cash advanced for cemetery lot	21.00
Medford Fur. & Hard Co. iron	6.27

After proper consideration the bills were approved and ordered paid. A report from the city treasurer was read showing a total cash on hand, including all funds, of \$2319.23. Treasurer reported his intention of calling in two improvement bonds soon.

Report of the water superintendent

The Small Fruit Industry.

Oregon has no more promising field for community development than by extension of the small fruit industry. There is practically an unlimited market for berries and cherries in the world demand for juices, jams and preserves.

This is entirely aside from the immense market for such products from the canning industry and the market for plants. Very little capital is required to put out from one to ten acres of loganberries, raspberries, blackberries, strawberries or gooseberries.

The manufacturing plants located in towns and cities are ready to help the grower with information or even with capital to start.

Every community should get behind this movement and induce as many families as possible to start a berry patch. A good example of returns is given by a farmer near Salem, Oregon, who sold \$790.00 worth of strawberries from one-third acre, at 8 cents per pound.

Books 1, 2, 3, and 4 cost 16 cents each, Books 5, 6, 7 and 8 cost 20 cents each.

For Music, the Progressive Music Series, one book edition, is used in rural schools. In graded school Vol. I., cost 36 cents, is used in grades 1, 2 and 3; Vol. II., cost 40 cents, is used in grades 4 and 5; Vol. III., cost 44 cents, is used in grades 6 and 7; Vol. IV., cost 64 cents, is used in grade 8. Principals or teachers should be consulted as to the volume to purchase.

G. W. Ager,
Co. School Supt.

showed collections from water users for month of August amounting to \$56.00. Water commissioner also reported five delinquent water users. Seven water meters were installed during the month.

Report of city recorder was read, showing collections as follows:	
Total from meters	\$103.37
From marshal, impounding fees	12.50
From water supt. rentals for June	58.50
Total	\$174.37

Recorder reported no new water users and reported that the following had ordered the water shut off: William Barkley, Ellen Band, Oscar Lewis and Mrs. S. A. Cantrill. Delinquencies of \$35.49 were reported.

Mayor Britt reported that he had secured a deal to a half lot in the cemetery which had been sold twice and turned over the deed to the recorder for delivery to the new owner.

On motion the sexton's fee was increased to \$15.00 for ordinary sized graves and \$2.50 additional when large vaults are used. \$2.50 of this amount is turned into the cemetery fund, and is used only for the upkeep of the cemetery.

The council is short of one member now on account of the moving to Yreka of Oscar Lewis.

A ONE TIME INDUSTRY.

Ulrich Flour Mill Once a Bee Hive of Industry, Now Silent.

By reading extracts from the Jacksonville Post of ten years ago, Chris Ulrich is reminded of some of his actions of ten years ago and the days when his flour and feed mill was on the hum month in and month out.

In those days it was the most important flour mill in the valley, specializing in corn meal and corn products. Mr. Ulrich has presented us with two of the boxes used to pack the corn meal in and they bear two very interesting bits of information: that only the highest grade Rogue River valley corn was used and that the product was guaranteed to be number one article.

Mr. Ulrich had a market all over southern Oregon and northern California and could not supply the demand. He stated that when the orchards were planted in such large quantities, he was unable to secure enough grain so had to shut down his plant.

Ten Years Ago.

From The Jacksonville Post of September 4, 1909.

J. L. Magray was badly injured on Tuesday evening while falling a tree near the Snyder & Bristow mill on Wagner creek.

The new bank, recently organized at Medford, is organized under the name of the "Farmer's and Fruitgrower's Bank." The incorporators are G. L. Davis, L. E. Wakeman and C. H. Corey.

Mr. O. Harbaugh owns the hen that holds the record for large eggs. One of her eggs now on exhibition at this office measures 6 1/2 inches smallest circumference and 8 1/2 largest. A dozen of such eggs would be well worth the market price of 30 cents.

Adolph Shultz reports that real estate is looking up. Several prospective buyers are in the field.

Pumps, motors and other machinery have been ordered and the work of excavating the tunnels at the city well will be begun next week.

Silverton-Portland & South Eastern Railroad Co. to build line here.

North Bend to have new \$100,000 hotel.

Klamath Falls to have new box factory.

Contract awarded to dyke 11,000 acres of government land around Pelican Bay.

Work started on St. Helens railroad. Corvallis has new cannery.
