## NOT NEEDED.

On our perambulations about the city, there is one thing we notice that is absolutely unneeded and uncalled for.

That thing is the signboard, located at the city limits on the Jacksonville-Medford road, which states that the speed limit is twelve miles an hour. You could make over twelve miles on that piece of road, but very few care to do so.

The condition of that end of the street is the best possible speed law imaginable. Also it is doing its share of keeping people away from Jacksonville. Is it without question one of the worst pieces of road to be found within any city in the county.

Any body can be economical if they do not make any improvements. There are sections of streets in this city that are dangerous and unsafe for the autoist. You may spend any amount of money on a street or road, but if it is not properly taken care of, within a very few years time will be money thrown away.

It is a shame that people allow such conditions to exist, as are found in our city streets. Loosen up, and let's improve our streets.

## ALL IN FAVOR, SAY AYE.

Monday morning at eight o'clock at the City Hall in Medford, the Public Service Commission of the state of Oregon, will hold a hearing for the purpose of deciding whether the rates recently adopted by the Home Telephone and Telegraph company of Southern Oregon are just and reasonable.

The toll charge placed on calls between this place and Medford is one of the most outrageous facts ever committed by a public utility in this part of the state and should meet with the disapproval of every user of telephones in Jackson county.

Be on hand, or delegate someone else to act for you. Show the manager of the telephone company that the people are still able to see through his foxy schemes.

Modern sanitation could be installed at the local school at a very small increase in the tax levy. Is it worth while to safeguard the children's health?

We will head the list to buy a new flag for the court house. The one at present in use resembles a bandana handkerchief more than a U. S. flag, as about all that remains of it is the blue field and stars.

We will offer a little free advice to the young men and young ladies who read this paper. Never marry until you are certain single life is a failure and under no circumstances marry until you find some one who will have you. Be sure you are right, then go ahead. Boys, remember that a girl rigged out in ribbons and paint may look good enough to eat; but that smile however, may be made to order and come off with her best clothes.

Slander is a blighting stroke—the base, foul, cloven footed slander—like the loathsome worm leaves a path covered with slime. How truthful it has been said: "Living, he is a traveling pest and worse, dying impenitent, his soul to deeply stained for Hell." How often do we here the Slanderer's tongue warbling his song of disgrace on our streets.

When a man in search of a home or business location goes to a town and finds everybody full of hope and enthusiasm over the prospects of the place, he, too, soon becomes imbued with the same spirit, drives down his stakes and goes to work with equal interest.

People do not place confidence in the many rumors that are constantly flung about upon the streets. You can help us run down all rumors by giving in all the particulars of all local happenings.

The world's greatest men grew upward from the lower classes, while the world's meanest men grew downward from the upper class.

## One Way to Reduce Cost of Living.

Taxation, high cost of living, high wages, shorter hours, less work and more production, are some of the mystifying phrases one hears today. Everyone is shoving the burden onto some one else.

As a start to reduce cost of living the present inequitable and misnamed "luxury" tax could be repealed or amended, thus removing a direct increase in the cost of living on many absolute necessities, from drugs and toilet articles to candy and ice cream. This law was passed in haste to meet war conditions, it can now be repealed or amended at leisure to meet peace conditions and the sooner the better. —Manufacturer.
