SATURDAY, SEPTEMBER 27, 1919

SUBSCRIPTION: One year by mail \$1.50. Advertising rates furnished on application.

AMERICAN LEGION VS. UNAMERICANISM.

The action of the Medford Post of the American Legion in exposing the un-Americanism in the article recently published in the Pacific Record Herald is typical of the fundamental principals of that organization. It is composed of ex-service men, organized to maintain the principals and ideals for which they volunteered their services in the great war.

The American Legion is a national institution, steadily growing in membership, extending from Maine to Washington. The organization is constantly on the lookout for evidence of disloyalty, such as was expressed in the article referred to.

The American Legion will go a long ways towards making this great nation free from the undesirable element and will receive the support of all loyal Americans.

Let's go! Wake up to the opportunity that awaits the West. The west, during the next few years, is going to be the Mecca of all capitalists. The east is filling to overflowing with industries and mighty poor paying ones at that.

In the eastern states the big money comes not from eastern industries, but from investments in the far west. The average industry in the west wastes enough of its resources to keep an eastern industry going permanently.

Let's get organized to receive some of that business, make some of the business ourselves, and then make our own price on it. We have the resources, then why not make use of them.

Don't wait until some "Gazooza" comes along and picks up the best we have for almost nothing. Then it will be to late. And it will not be very long before the eastern capitalists will begin to look towards the setting sun for opportunities for investments.

Get out your old market basket and let's gather in the fruit of prosperity.

Labor is one of the supreme laws of life. Toil is honorable. The progress which the world has made is a glorious testimonial to human handiwork. Those who work know more of genuine happiness than those whose lives seem dedicated to idleness.

It is the person rather than the occupation that adds dignity to labor. There are those who can beautify the most menial occupation or service and there are others who can degrade the most honorable calling.

The man who owes a debt and persists in spending money for luxuries is spending money that does not belong to him. And yet how often it is being done.

A lawn without a flower is like a home without a child.

LIES FAR BELOW SEA LEVEL

Forbidding Death Valley, in California, Was Formerly the Bed of a Salt Lake.

Death valley, California, is said to be the lowest dry land in the United States; it is 276 feet below sea level. The name of Death valley is gruesome enough in itself, but to enhance this effect the mountains thereabouts are called the Funeral range.

While Death valley is the lowest dry land in the country Mount Whitney, which is less than eighty miles from the point of lowest depression, is one of the highest points of land in the United States, its summit being 14,501 feet above sea level.

Death valley was formerly the bed of a salt lake and is 150 miles in length. A small salt marsh still occupies a part of it. There are few places in Death valley where fresh water is obtainable. The best known are Bennett wells and Saratoga springs.

For the greater part of the time Death valley is a gigantic furnace of burning hot shifting sand dunes. At times this strange desert is filled with wonderful colors. The air is very dry, and at dawn the light is very white and minus the mist usually associated with that time of day. Gradually a faint azure tint appears and deepens above the gray-tan dunes. As the sun rises over the desert the pastel tints of sky and sands burn into brighter shades until at noon the very atmosphere vibrates into hot vividness. Toward twilight the reds of sky and desert shade into deep purples and black.

OREGON YOUR UNIVERSITY

THE UNIVERSITY OF OREGON
SPECIAL FEATURES
A beautiful campus, facilities of specialists, modern facilities, low cost, with many opportunities for self-help, "abilities for everybody," a really democratic atmosphere—and the famous "Oregon Spirit."
