## I. W. W. OUTRAGE.

The crimes committed by the I. W. W., in Centralia Tuesday, in firing on an Armistice Day parade are but the natural offsprings to be expected from such a class of people.

The people of Jackson county may indeed be grateful for the absence of such scum from our precincts.

The shooting was the result of carefully planned preparations; actual cold blooded murder; yes worse than murder; rebellion and organized insurrection.

Yet, those shots, like the famous shots fired at Concord, will be heard across this nation. In fact the report has already been heard in every home in the land.

It has long been the hope and aim of such organizations to destroy our government, and substitute therefor a reign (or rain) of take, murder and fire.

For years we have suffered small petty annoyances. Foreigners have been permitted to come into our land without knowing the fundamentals of Americanism. Agitators have been permitted to spread their filthy literature and lies. Now we see the result of it.

During the war, American boys were sent to prison for petty offences while under military authority, but still people like the ones responsible for the Centralia massacre were permitted to do as they choose.

"Conscientious Objectors" were provided with three meals a day and a good place to sleep and no work. Now you can see the appreciation of the efforts.

Time has arrived for the government to step in, and put a stop to such actions for all time to come. Communities infested with such classes of people should round up all the desirables, escort them to the sea ports and send them back to their own land. The United States of America has no desire to force I. W. W. to live here. If they do not like our style, then let them leave.

If You Don't Like Your Uncle Sammy,  
If You Don't Like the Red, White and Blue,  
Then Go Back to Your Home O'er the Sea,  
To the Land From Where You Came,  
Whatever Be It's Name,  
But Don't Be Ungrateful to Me.

There should be no faction in our little city. There should be a mutual interest in the prosperity of our people. When we see indifference to the well being of its citizens, we see a town all wise men shun. Success and failure are each a part of life and often those who have made the hardest fight are vanquished in the race.

Some farmers never realize that they owe anything to their home town until they sell out, and then they find that their farms are more or less valuable in just the degree that they are near or far from market.

We hear much about a man's word being as good as his oath; but find the words of most men quite preferable to their oaths.

It isn't probable that a prophet would be more popular abroad than at home, if he were equally well known at both places.

**Armageddon.**  
Armageddon, mentioned in Revelation 16:16, was the plain of Esdraelon, the scene of Israel's victories, and hence the term is used to signify the scene of a momentous test of any kind, especially of a decisive battle. It was used by the Progressive National Convention in 1912, and has been frequently used in connection with the war.

**When the Baboon Calls.**  
Baboons have been a sore trouble lately to many South African folk, and poison clubs have been founded to keep them away and reduce their numbers. Baboons recently raided a farm in Robertson, and, ignoring all efforts to drive them away, rode the dorkeys in the back yard. In Lainsburg, driven by hunger, they raided gardens in broad daylight.

### EDITORIAL.

Now that our first enthusiasm for newspaper work has died down we are beginning to get careless about handling in our material promptly. We must remember that our paper was established for the good of the school, and so we should encourage work from the lower grades.

We are now commencing a new month and we should endeavor to make our paper this month better than before.

### GENERAL NEWS ITEMS.

A recently overheard remark gratified the newspaper staff:  
"I guess the A. V. H. S. must have a pretty good paper, I see the Jacksonville Post is copying it."

Applegate valley instead of Applegate High School has been adopted for the school name. Various monograms are now being considered.

### SPORTS.

Sports seem to be rather uninteresting just now, here. But we are planning to appoint a committee to go to Jacksonville to help with that tennis court as the J. H. S. seems to have a hard time getting it finished.

Arrangements are being made to secure the Applegate Hall for basket ball, and the boy's and girl's first and second teams will soon be hard at practice.

It is hoped a schedule may be worked out so we can depend upon having games with the other schools of the county, as a game in sight helps stimulate practice.

One of the H. S. girls was heard to remark after a hard game of indoor baseball with the primary boys, "Well smarties, you haven't got any thing to crow about, we were only 92 runs behind you and I was up next."

Two or three of the school boys have started to trap the smaller fur bearing animals. From all appearances of the fur quotations they will make quite a bit of extra kake.

### SOCIETY.

The Applegate High school pupils are collecting plants to put into their new rooms.

The pupils are looking to taking music lessons from Professor Haicht, as soon as he can arrange his schedule.

Miss Dorothy Head has set the style of wearing flannel middie blouses. Many of us will follow the fashion during the cold weather.

### CHAFF.

Mr. Mansfield: "Freemont would you like a job digging potatoes this fall?"  
Freemont Jordan: "Yes Sir if it is digging them out of the gravy."

Helen John: "I see in the paper that 'Lassen' is smoking again."  
Bessie Hinceaid: "The horrid fellow! he ought to be arrested, mamma says for me never to countenance a man who smokes."

Mr. Cook: (In the senior physiology class) "Grace, why should we not eat between meals?"  
Grace Sullivan: "Because the stomach isn't looking for it."

### EDITORIAL.

The Chautauqua which will be held in the school auditorium from the twentieth to the twenty-fifth of November, promises to be a success. The chautauqua was held two years ago and everybody was satisfied with it, and if the posters do not exaggerate, it will be even better this year, and a large audience is expected.  
"Let's All Go."

### Rescue Cage.

Less thrilling than being rescued and carried down on a swaying ladder, but much more practical, is a new rescue cage. When the fire ladder is thrown against a burning building it carries with it a wire cable attached to a steel cage. Like an elevator without a shaft the cage hangs from its pulley at the top of the ladder, within easy reach of the windows. It is lowered by turning the cable drum on the fire truck below, and will carry four passengers safely.—Popular Mechanics Magazine.

### Bright Rupert.

The lesson was on the rabbit.  
"The rabbit has long ears, fur on its body, and a tail, nothing to speak of, though," the master informed the class.  
The next day he wanted to see what they knew about it.  
"Now, then, Rupert," he barked to a particularly bright youth, "tell me something about the rabbit."  
"The rabbit has a tail," said Rupert, eyeing his silent fellows triumphantly, "but it musn't talk about it."

### Just So.

She was teaching the word "element" to a sixth grade. She had told them its meaning—the substances of which a thing is composed—and then had illustrated her definition by saying that the elements of the earth were water and soil.  
Then she asked them to write sentences containing the word. And this is the one Henry wrote:  
"Water is one of the elements of milk."

### LITERARY.

Ernest McIntyre:  
I don't complain of Elva, or any of her acts,  
Excepting when we've quarreled and told each other facts.

Elva Coleman:  
There is no disgrace which can hinder where it exists.

Paul Ager:  
A quiet, sincere, hard working fellow, an ardent student and a ladie's man.

Paul Luy:  
"Hang sorrow: care will kill a cat,  
And therefore let's be merry."

Dalton Terrill has the firm conviction that a "Belle" is like a hinge—something to a-dore.

Dalt Terrill:  
"It's a great plague to be a handsome man." (some com.)

John Johnson:  
A rather tall, brown haired person. Thinks town life better than the smoke of a large city. Business is ever foremost in his mind. Is quite an admirer of red hair about a mile from J'ville.

Mary: (While passing by the court house listening to the click of the typewriter.) "Gee, I wish I was a typewriter."

## CALIFORNIA ELKS ORGANIZE THRIFT

San Diego, Cal.—The California Elks' Association, in convention here, in a set of resolutions endorsing the 1919 thrift campaign of the government, directed the president of the association to appoint committees at once to carry on the sale of Thrift and War Savings Stamps and Treasury Savings Certificates and to direct the thrift movement throughout subordinate lodges in California. The convention approved the action of the Grand Lodge, which went on record as a staunch advocate of the thrift campaign in its convention in Atlantic City.

"The Polish people look upon the American Red Cross as their salvation. It holds in its hands the destinies of nations. This world war has been fought in vain if there is no early restoration of normal physical and moral conditions in the newly born Republic of Poland. Poland is the keystone of the world's permanent peace."—Lieut. Col. Francis E. Franczak.

"I wish to express to the millions of Americans, who have made the work of the American Red Cross possible, the deep gratitude of my people."—The young King Alexander of Greece.

### SPORTS.

The Assembly room is a very good hall for both basket ball and volley ball when the chairs are taken out. If the room is needed for any other purpose the chairs can be easily replaced.

There may be objections to the using of the assembly room as a hall, for fear the plaster may be knocked off, but the Student Body would be willing to pay for the replastering, as that would only be a fraction of what the rent of a hall would cost.

Also the dressing rooms and the hall would be heated and the over-heated players would not be subject to taking cold. The lights would also be in place and protected.

The school already has wide coverings for the windows to prevent them from being broken.

### SOCIETY.

A party was given at the school house last Friday night for Margaret and Lucile Garrett who are leaving the district. About forty attended. Many very interesting games were played. The refreshments, which consisted of ice cream, cookies and cocoa, were furnished by the High School and teachers. Everybody reported a very enjoyable time.

As Tuesday was Armistice Day there was no school. A large number of the pupils attended the parade and dance at Medford. One of our high school boys was in the parade and marched in the parade with the National Guard.

### JOKES.

Speaking of the length of hair John Johnson is sure a Paderewski the 2nd. At the party of Friday night a bug was seen to have fallen into Ruth Fleming's ice cream. She exclaimed "Oh my only friend." "Who?" exclaimed Berniece Polly, who overheard, "Bugs?"

Thelma Childers has a new green dress trimmed with white buttons and some gathers on the bin. This does not mean that her breakfast gathers on her bib.

Ernest McIntyre who was preparing to leave for Dunsmuir, decided to sell his household goods. The following ad was seen to appear in the paper.  
"For Sale—A piano by a man leaving for Dunsmuir, with crvred legs.

### A KISS.

In the dark last night I met her,  
And from her took a kiss,  
The sweetness of the nectar,  
O'erswept my soul with bliss.  
But today I have a feeling,  
A taste that's clear and keen,  
That the sweetness of the nectar,  
Was cold cream and glycerine.
