The Wonder of Eggs.

One cannot find among the multitude of wonders in nature anything more marvelous than the development of an egg, writes Elsa G. Allen in the American Forestry Magazine. Whether it be a butterfly which flourishes for a day only to die after depositing its eggs, or a reptile which lazily leaves its eggs with only the warm sand to mother them, or a fish, like the salmon, which, with incredible strength, jumps the rapids to spawn in the upper reaches of rivers, or most appealing of all, a bird which builds a beautiful nest for its treasures, the egg in every case is structurally the same, and the miracle of life unfolds according to the same laws of cell division.

Reckoning Longitude.

Longitude in the United Kingdom and generally in the United States is reckoned from Greenwich, degrees being known as east longitude and west longitude from that point until they meet in the Pacific ocean at 180 degrees from Greenwich, the opposite zero point, Asia being in east longitude and the United States in west longitude. For the same reason the term Orient is applied to the East and Occident to the West. It may be said that Germany reckons longitude from Berlin, France from Paris and Spain from Madrid, while sometimes it is reckoned in this country from Washington, but, usually speaking, Greenwich is meant.

Needn't Worry About That.

"What am I to talk to my lady partner about?" asked a young man about to go to his first party, of an elderly friend.
"Surely you'll talk about the most pleasing question of all—her beauty."
"But if she doesn't happen to be beautiful?"
"No matter, she'll take your word for it."

A Great Man.

"Yep," said the Old Timer, "Senator Fluhdrub gets on his pomposity."
"Huh?"
"He's got so much of it that people just naturally feel compelled to hurrah at his platitudes and guffaw over his stale jokes."—Louisville Courier-Journal.

Warned by Sandpaper Label.

A device for protecting people from taking doses from poison bottles by mistake is a sandpaper label. The ordinary label is pasted on a piece of sandpaper large enough to go all round the bottle, so that when anyone takes up the bottle in the night, no matter how dazed from sleep he may be, the rough unfamiliar feel of the sandpaper rouses him and he recognizes at once that the bottle contains poison of some description. The printed label tells the kind of poison in the bottle.

HEALTH CENTERS AID ALL COMMUNITY LIFE

Home Service Work Broadens to Include Civilian Families.

By DR. J. E. CRICHTON
Manager Northwestern Division
American Red Cross

An integral part of the great health program of the American Red Cross undertaken after the suspension of many of the war activities of the organization, is the establishment of Health Centers—which now are being installed in many communities throughout the northwest. It is a movement of compelling interest to the citizens of this part of the country. The health center as organized by the Red Cross is proving the greatest preventive medicine known, as well as protection of great value in times of widespread illness or epidemic. From health centers radiate all kinds of helpful influences from the giving of proper advice and the furnishing of competent nursing, medical and surgical aid, to the inauguration of many forms of beneficial exercises such as community singing, athletics and outdoor games. From health centers go the visiting nurses. There are held the teaching classes for home nursing, children's clinics and proper welfare work.

The Red Cross says that no longer shall curable physical deformities curse the lives of our children. It believes the time is past when tuberculosis should be allowed without hindrance to fasten itself upon the tender bodies of our little ones. It

believes that through health centers established in every considerable community throughout the United States, health can be safeguarded and therefrom greater happiness be brought to our people.

Ignorance of diseases, ignorance as to what are the best means to pursue in combatting them, ignorance as to the standing and competency of certain medical men—these today are responsible for a vast number of deaths in the world. Quacks prey upon our people with their glaring and lying advertisements and in hundreds of thousands of cases individuals absolutely deceived by their pretensions pass beyond the days when their infirmities might be cured. For these perils the Red Cross health center forms a safeguard.

The health centers being established become the people's clubs, with memberships designed to reach vast numbers of the population since membership costs but \$1 a year—the annual Red Cross dues.

Another phase of the peace-time program of the organization which rapidly is becoming of paramount value in the northwest is comprised in the Home Service activities. Designed originally for the benefit solely of disabled service men and their families, it has grown to occupy a far broader field. Red Cross welfare workers look to the interests of former soldiers and sailors in hospitals and schools; maintain personal contact with the disabled who are at home. Home Service forms the connecting link between the disabled man in hospital or school and his family.

But Home Service has grown beyond this. In nearly 40 of the 106 chapters of the Northwestern Division experienced social workers are employed, and the service is being extended to civilian families. In some chapters information stations for the benefit of the general public have been established. In Raymond, Washington, the Home Service department maintains an office close to the railway stations and hotels where any day may be seen the visitor inquiring for the residence of a friend, or the gentler traveling man asking the location of the business house upon which he wants to call.

Social Service extends down through the chapters to the branches and auxiliaries. Several Northwestern chapters have branches which maintain local Home Service operatives, their activities being financed through small revolving funds from the chapter treasuries.

Fifty cents of every dollar of membership fees stays in the community in which it has been contributed. It is that fifty cents which aids in this important Home Service development.
