### High School Will Present Drama.

On March thirty-first the students of the Jacksonville High School will present the drama entitled "The Dust of the Earth," in four acts.

Pathos and humor are delightfully mingled in the play, making it appeal to young and old alike.

The scene of the story is in the sunny South, and the heroine is a slip of a girl of eighteen, placed in rather unfortunate circumstances. Her struggle to win out in the world is the main theme of the play.

Vaudeville numbers will be given between the acts of the drama.

The students of the high school have been working hard on this production, and you are assured of spending a pleasant evening if you attend the play next Thursday night.

### NOT SO TRAGIC, AFTER ALL

Fair Traveler's Emotion at Seeing Affecting Parting Was in Large Part Uncalled For.

The temperamental difference between a restrained and an emotional race occasionally brings about kindred effects through accident. A lady, waiting for a belated train, witnessed a most affecting parting between an aged father and his son, both Italians. The old man seemed in a frenzy of woe. He moaned, raved, lifted his clenched hands toward heaven and shook them despairingly.

"Poor, poor souls!" she exclaimed, compassionately. "The young man going away to seek his fortune and the old man left behind. I suppose hereafter they may never meet again. A common tragedy, but it grips one's very heart."

"Cheer up!" briskly advised her companion, who understood Italian. "The young chap is only going to the next town to visit his married sister and the venerable old person is worried because he loaned him his season ticket and wishes now he hadn't promised to do so. He says he knows the boy will lose it, but, anyway, if he does, he'll break every bone in his body when he gets home. That's all."

### MONUMENTS OF VAST SIZE

That on Leipzig Battlefield, Though Higher, Less Costly Than Memorial to Italian King.

Leipzig possesses a monument which rises only a few inches short of 300 feet. "The Battle of the Nations" monument stands in the middle of the plain where Blucher routed Napoleon's army. One million cubic meters of earth were displaced to make room for its base. It is surrounded by an enclosure a quarter of a mile wide and nearly half a mile long.

Next to the Pyramids it is the highest in the world, but it is by no means the costliest. This distinction belongs to the national memorial to Victor Emmanuel II. erected on the Capitoline hill in Rome at a cost of \$20,000,000.

It took 31 years to complete this huge pile of marble steps, covered with statues, bas-reliefs, and mosaics. Sacconi, the architect, who designed it, died long before the work was finished, but he left models complete in every detail, and his original plans were never tampered with.

### NO HELP FROM THE DOCTOR

Abundant Reason for the Depression That Was Manifested in the Golf Bug's Attitude.

The golf bug has a sad face. He is plainly out of sorts. Something is the matter with him. He has just come from the doctor's office where he has undergone a thorough physical examination. He is sore and depressed, but not from what the doctor found, but from what he refused to find.

"You are all right," said the learned physician. "You are as sound as a nut."

"That was a little joke the golf bug did not enjoy."

"Are you sure that I am in first-class condition?" he asked.

"Absolutely."

"Is my blood pressure normal?"

"Perfect."

"Heart regular?"

"Heart O. K."

"Lungs clear?"

"As a bell."

"Liver in good working order?"

"Splendid."

"No trace of neuritis?"

"Not a bit."

"Am I not bordering on a nervous breakdown?"

"See no indication of it."

"I'm sorry."

"Sorry, what for?"

"I thought surely you'd dig up some good excuse for me to go away. Now I'll have to be honest and say I'm going South simply because I want to play golf."—Detroit Free Press.

**Relic of Noah.**  
The Desert de Carlette, in the Pyrenees, close on 10,000 feet above the sea, contains no fewer than 60 lakes of varying sizes. These, according to local tradition, were left at the time of the flood. When the water subsided, it is said, Noah and his family landed on the Puy de Frigue, one of the highest peaks in the district.
