EXPERTS GERMANY'S CASE

Dawes Puts Real Life Into Reparation Session.

Paris.—Brigadier-General Charles G. Dawes, U. S. A., chairman of the first committee of experts appointed by the reparation commission to consider the resources and capacity of Germany looking to a solution of the reparations problem, delivered a straightforward, hard-hitting speech at the opening of that body here Monday.

He declared he could speak neither for the government of the United States nor for the American people, but as an individual. After reviewing the situation from the standpoint of an American business man, he made an earnest plea for common sense and practical co-operation among the nations, so that Germany's productiveness could be restored to her that she might meet her obligations.

With characteristic forcefulness General Dawes denounced "the incessant misrepresentations and intolerable interjections of those foul and carrion-loving vultures—the nationalistic demagogues of all countries—who would exploit their pitiful personalities out of a common misfortune."

The American plan, as briefly outlined by the chairman, consists of stabilization of German currency and balancing the German budget, and he declared: "As the economic processes of Germany under a stable currency and with a balanced budget are revived there will be demonstrated the capacity of Germany to pay. Let us first help Germany to get well."

"The experts got off to a breezy start." This expresses the general sentiment in reparations and diplomatic circles of the beginning of the work of the experts.

General Dawes' "legendary energy," as M. Barthou put it, seemed to send a draft of fresh air throughout reparations headquarters, which had not appeared to shelter so much activity before since the commission was organized.

"Can he keep them up to it?" was a question asked repeatedly around the buildings, when it became known that General Dawes would propose that his colleagues work night and day until they got somewhere with the inquiry. Other members of the delegation were heartily with General Dawes in the desire to make as short work as possible of their task, but some of them are rather frightened at the idea of three sessions daily. The general has conceded a point by agreeing that the night meetings should be merely informal personal exchanges of views among the members.

The impression made by General Dawes' speech was in every way favorable, inside and outside of reparation circles, excepting in extreme nationalist quarters, where his reference to "nationalistic demagogues" caused some slight emotion.

One of the British delegates said, "The impression was most favorable; the beginning of the discussions augurs well."

Colonel James A. Logan, American unofficial observer on the reparation commission, expressed himself to the same effect, while M. Barthou, president of the commission, declared that the committee could not have got to work under better auspices.

It was said Mr. Root would be at the hospital for two or three weeks.

ALIEN FUNDS' USE IN BUSINESS URGED

\$180,000,000 Cash on Deposit Available.

CUSTODIAN REPORTS

Revival of Commerce With ex-Enemy Countries and Profit by Government Held Possible.

Washington, D. C.—Creation of a federal agency to utilize in productive enterprise the enemy funds on deposit in the treasury to the credit of the alien property custodian was proposed in the annual report of Colonel Thomas W. Miller, the custodian, made public Sunday.

Colonel Miller suggested that two ends would be served by returning the funds to active enterprise—revival of business and commercial relations with the former enemy countries, and the reaping of profits by the federal corporation which, if desired, could be applied to settlement of claims which later might be adjudicated by the mixed claims commission.

"There is approximately \$180,000,000 of cash on deposit in the United States treasury to the credit of the alien property custodian, which sum will increase as the liquidation policy is carried out," Colonel Miller said. "It is suggested that a plan be considered whereby that portion of the remaining alien property represented by cash in the treasury may be utilized in reviving trade and the commercial relations which formerly existed between this country and the former enemy powers."

"To all intents and purposes this sum represents available capital removed from the channels of trade and should be put to a useful purpose. Such a governmental agency, similar to the War Finance corporation, having a capital of several hundred million dollars, would be capable of earning enough on this sum to not only settle American claims, when they are finally adjudicated, but return in full the property or its equivalent to the former enemies when the affairs of the alien property office are finally terminated."

"There are a number of enemy corporations whose assets were seized and liquidated by this office which would thereby be encouraged to resume business in this country."

Colonel Miller said there were two divergent schools of thought with reference to disposition of the alien property. One side, he said, would utilize immediately the private property of our former enemies for the payment of the debts of the former enemy governments when they are adjudicated by the mixed claims commission. The other would return immediately all property seized under the trading with the enemy act. He did not comment on the merits of either programme, but reiterated that some use should be made of the idle funds which had been withdrawn from active business.

FARM LOAN BOARD TO ISSUE BONDS

Washington, D. C.—The federal farm loan board, preparing to meet the late winter and spring demand for money expected to be made on the federal farm loans, announced Saturday that it would issue \$60,000,000 in federal farm loan bonds.

The bonds will be offered through federal land banks, national farm loan associations and other distributors at 100½ with accrued interest from January 1, the date of issue. Maturity of the debentures will be fixed at 30 years with the callable privilege after January 1, 1934. They will bear 4½ per cent interest.

"The 12 federal land banks," said Commissioner Cooper of the farm loan board, "have, during the last year, increased their capital to \$43,597,320 and their assets to \$876,232,907. With this continued growth and continued evidence of their solidarity, it is anticipated that the present offering of securities will be promptly absorbed."

Chinese Cabinet Filled.

Pekin.—Tao Kun, president of China, has issued a mandate, accepting en bloc the resignations of the old cabinet, which was in office when he was elected. The reconstructed cabinet was made possible when the low house of parliament formally approved the appointment of Sun Pao-Chi, after several months of political maneuvering. Approval of the house was not needed for the other members of the cabinet.

OUT OF DARKNESS

LET us find our joy today, Not await tomorrow. There is little, anyway, In the joy we borrow, There is joy around us here, Very lovely, very near; Looking far ahead, my boy, You may miss a lot of joy.

Let us find our joy—we can Yesterday forgetting, For we never find it, man, Yesterday regretting, What is done, my lad, is done, But today another sun Makes the sky as blue again As the sky was ever then.

In the present, not the past, Let us do our living; Heaven we shall find at last Giving and forgiving, Not ahead and not behind Let us look, and we shall find Joy is always all today, All around us all the way. (© by McClure Newspaper Syndicate.)

Something to Think About

By F. A. WALKER

TO THINK rightly is to sharpen perception and season judgment. He or she who is always blundering, getting in trouble with employers and friends, never remembers important events accurately, is in constant danger of failure. As the mind directs so goes the body.

The shambling, irresponsible creature, misguided by a rusty mind is much like a vessel at sea which has unshipped its rudder. He may be towed to port by a friendly hawser, or sent to the bottom by an opposing storm.

To make sure of your destination, keep your mind on the splendid things you would like to accomplish. Ponder them at every opportunity. The thoughts to which you cling hourly are transforming you into an earnest, useful person, or a man or woman of no account.

If you want friends, be friendly. Cultivate the right mental attitude towards others and all will be well.

Take a contrary stand, let the rust accumulate, exhibit cowardice, distrust, disloyalty, irritability, habitual moroseness, and nothing can save you from wreckage.

Lay hold of the great, potential forces of the universe and move along with them. Resolve to become a part of them.

Keep your mind bright by rubbing it against minds that are brighter, more capable, more alert than yours. Open the door to industry instead of idleness, to thinking instead of brooding, to faith instead of doubt, and you never will lack the energy with which to press forward and take your place among those who are making the world pleasanter and better.

Be frank, good natured and cheerful. Grip your load, whatever it may be, and pull with all your might. Have no fear of failure—no fear of anything or anybody but yourself.

Be patient and persevering. Put jealousy and hate in a weighted bag and throw them overboard. They will wreck the stoutest ship and blight the fondest ambition.

Be not disturbed about rivalry, except the rivalry existing between your good, and evil self.

It is only the mortal who overcomes himself who has the power to uplift humanity and lead others from darkness to light; capable at all times to measure strength with the mental Goliaths, and equipped to hold his own in the sternest strife when storms beat hardest against him. Jackson County Jacksonville

The banner county of Oregon—which captures nearly all the prizes at the state fairs—has a population of about 25,000 happy and prosperous people and enjoys the distinction of having the most delightful and healthful climate in America—not even excelled in Southern California. No county in the west-country is richer in resources—the principal ones being farming, stockraising, dairying, fruit, alfalfa, lumbering, gold, silver and copper mining, cement, marble, lime, etc. This county, which lies in the southwestern part of the state, adjoins California and is a happy medium between the extremely wet climate of the north coast and the dry desert climate of California—being the most perfect climate found on the western continent.

A modern town of 8000 people, is the county seat of Jackson county and is situated in the most fertile and productive portion of the famous Rogue River Valley—correctly termed the "Italy of America." The town is beautifully located in a cove at the base of magnificent pine-clad mountains and is surrounded by the finest irrigated alfalfa farms and fruit orchards in the entire country. The town is five miles west of Medford, a modern city of 8000 people, with which it is connected by a steam and electric railroad and splendid highway. The altitude of the town is 1568 feet and there are no extremes in heat or cold. The annual rainfall is about 25 inches—there being little or no snow in the valley. A more healthful place could not be found.
