Local School Notes

A man from the State Department of Education at Salem, is expected at LaPine School soon to check up on the Biology, Physiology, General Science and Physics laboratory equipment which is prescribed by the State Board of Education.

After the State Department passes upon this favorably, credits earned in LaPine High School will be accepted in any Standard High School in the State.

Course of study to be followed will be printed later.

LaPine School now has a High School Library which contains 250 books as prescribed by the State Library for H. S., cased and indexed according to the State Laws. The Grades have 200 books.

What do you know about your local school?
During the past year, five

parents have visited the LaPine school while the pupils were actually at their regular school work. Just as every other institution in the country needs support, so do our schools. If parents do not take an interest in the schools and encourage their children occasionally by a visit to see what is being done, our schools can never be what we think they ought to be. "Seeing is believing" is the best axiom to be followed.

The schedule of work for the last three days of school will be as follows:

Wednesday and Thursday May 11 and 12, final examinations for all pupils, except those taking State Examinations, and pupils who have an average of 90 per cent in each subject and a behavior grade above 90 per cent.

May 12 and 13 will be used for state examinations.

Friday will be used for grading unfinished papers and classifying pupils for the next year.

The following pictures, necessary to complete the State requirements for Standardization, have been received, unframed, and will be framed as soon as possible. "Spring" for the H.S. room; "The Gleaners," for the Intermediate room; and "Return to the Farm," for the Primary room.

The LaPine School will hold a School Picnic the Friday before school is out.

Sixth, Seventh and Eighth Grade pupils will take their State Examinations on May 12 and 13.

Schools now require pupils to read the best literature out. Pupils in Junior English are required to read Julius Caesar, The Merchant of Venice, The Twelfth Night, Macbeth, Hamlet, Comus, Paradise Lost, Pilgrim's Progress, The Vicar of Wakefield, Carlyle's Essays on Burns. Pupils in Freshman English are required to read Lady of the Lake, The Making of an American, Treasure Island, Shumway's Nibelungenlied, The Great Carbuncle, The Ambitious Guest, Rip Van Winkle, Snow Bound, The Ransom of Red Chief, Tennessee's Partner, The Purloined Letter, The Vision of Sir Launfal, The Cask of Amontillado and Lays of Ancient Rome.

As many books as possible are read and discussed during the class hours, the rest are read by the pupil outside of school and reports are handed in on the work. The purpose in view is to create in the pupil desire for the best literature and to be able to read it intelligently.

The La Pine School Board will meet this week to transact the usual routine business and to examine into the qualifications of the various applicants for the local schools for the coming term.

Miss Julia Clock, county nurse will make another trip to LaPine and will bring a Bend dentist along, who will examine the pupils teeth free of charge and make fillings at the very lowest price. Miss Clock would be glad to meet all the parents of the district and talk over matters which concern the health of the children.

The Forest Service

The Forest Service is planning on constructing a new telephone line in the Lava Lake country to connect Lava Lake with Elk Lake.

Better grazing methods was a subject of much interest to the Walker Basin section, discussed fully at the conference.

Douglas Johnson, who has been detailed as plating clerk in this district, will assume his duties in the LaPine Forest Service Office June 1.

Burton Oney started work on the East Lake road Tuesday, putting it in shape for summer travel, he also repaired the telephone line.

Law enforcement on fires within the National Forests, is to be an important part of the Forest Ranger's duties this summer.

That the Walker Basin will soon become one of the greatest recreation grounds of the state was clearly brought out at the Forest Service Conference.

At the general conference of Forest Service officials held at Bend last week considerable attention was given to discussing methods of caring for the heavy influx of tourists that is expected here this year. Four officials from the District National Headquarters at Portland, and Supervisors of the Deschutes, Ochoco and Fremont Forests, and eighteen rangers from the three forests attended. Burton Oney of LaPine and Glenn Howard of Crescent represented this section.

Spring cleaning of the various Forest Service camp grounds will start this week. A heavy tourist traffic is expected in this section this summer and preparations are being made to accommodate them.

Pringle Falls Items

Mr. and Mrs. Isaac Zierolf were among the LaPine visitors who spent Sunday at the Falls, they were the guests of Mr. and Mrs. Wm. Brown.

Fred Winters and Jack Cole of Bend, formerly residents of LaPine, were fishing at Pringle Falls and Fall River last Sunday.

LA PINE RIFLE CLUB

Affiliated with, and conducted under the auspices of the Improved Order of Red Men of La Pine.

Rifle range on Railway right-of-way.

Wm. F. Arnold, editor of the LaPine Inter-Mountain, and family were Sunday visitors at the Falls.

Dr. Bessen donned a new pair of boots, and started out to break them in—then he forgot about the new boots in the excitement of fishing—then he forgot the fishing in the excitement of getting himself out of the river, where the treacherous, slippery soles of the new foot wear precipitated him.

E. B. Tones, and A. G. Cholick and family, of the LaPine State Bank, spent last Sunday in this section looking over property interests and enjoying a brief outing.

Mike Donovan and family of Bend, were among the visitors at Pringle Falls last Sunday.

Violets at Fall River and Dandelions at Pringle Falls herald the arrival of the fishing season and vacation time.

LA PINE On the Main Highway OREGON

AN IRRIGATED FARM

YOU can get an irrigated farm in the Walker Basin for \$60 dollars an acre. The Irrigation Company will prepare 25% of your acreage ready for the plow free of charge. You can get terms of \$15 an acre down and balance in 20 years. There is a saw mill close by from which lumber can be obtained at reasonable prices. This is an excellent dairy country and there is always a ready market for dairy products. Water costs you fifty cents per acre per year. Plenty of fuel, and good well water close to the surface. Of the ten thousand acres in the tract for which water is now available, there are but sixteen hundred acres left to sell. Just forty forty-acre tracts. There are also a few

GOOD 160-ACRE HOMESTEADS

WHEN YOU go home after your day's work whose house do you go into.

Your own, or a landlord's.

Did you ever figure out how many houses could have been built with the rent money you've spent.

Come to LaPine and put that money into a home of your own.

The homesteads are all level, no rock, good well water, lots of trees for fuel and fencing. The Irrigation Company agrees to furnish water for irrigation on the homesteads at a very reasonable rate when the settler obtains title to the land, providing the homestead is tributary to the canal system. The Walker Basin Realty Co. is positively the only homestead locator authorized to make this offer.
