

INFORMATION FOR IMMIGRANTS.

In order to enable immigrants arriving in this State to obtain suitable lands and farms for settlement immediately after their arrival in Oregon, the publisher of THE WEST SHORE caused the following advertisement to be inserted in all the leading country papers:

Important Notice.

"Farmers and others having improved or unimproved farms to let for sale can have them advertised free of charge in THE WEST SHORE, an eight-page monthly illustrated paper published at Portland. State location of farms, what improvements, price asked, name of owner, and where to inquire. Address: "Publisher West Shore, Portland, Oregon."

Below will be found the answers received to the advertisement. The publisher of the West Shore is not a real estate or land agent, and therefore in no way undertakes the sale or negotiation for sale of any of these lands, but does verify the accuracy of the notices made thereunder, and refers purchasers to the owners or agents of same.

All bona fide owners of lands, who wish to sell or rent the same, can have them advertised free of charge in these columns.

Railroad Lands in Oregon.

The Oregon & California R. R. Company have a large tract of land from the United States Government, which they sell on very liberal conditions at the low price of \$1.25 to \$7 per acre, payable in United States currency. The purchaser can pay cash, in which case he will be allowed a discount of ten per cent. on the purchase price, or he can have ten years' time in which to make up the same by small annual payments, with interest at seven per cent. per annum. In the case the purchaser pays down one-tenth of the price. One year from the sale he pays seven per cent. interest on the remaining nine-tenths of the principal. At the end of the second year he pays one-tenth of the principal and one year's interest on the remainder, and the same at the end of each successive year until all has been paid at the end of the ten year.

Government Lands.

Although surveys have been carried on for many years, vast tracts of public lands still remain unsurveyed. Most government land is, however, in the market, there is likely to be taken up for a long time to come. There are three land offices in the State, located respectively at Oregon City, Roseburg, and La Grande (in Eastern Oregon), which afford the usual facilities to settlers wishing to avail themselves of the homestead and pre-emption laws. Under the "Homestead Law," every head of a family, male or female, or single man over twenty-one years, a citizen of the United States or having declared his intention to become such, can enter, on payment of the registry fee, ranging from one to twenty dollars, eighty acres of any of the lands reserved by the government within the limits of the railroad grants, excepting lands bearing gold, silver, copper or other minerals situated outside of the latter. After five years bona-fide residence upon and improvement of the land, the Government will give the claimant a regular title. Under the "pre-emption laws," persons possessing the same qualifications as claimants under the homestead law, may "enter" at a land office, on payment of a fee of \$2.00, establish a pre-emption right, it is a right to take a tract of eighty acres, if within the limits of a railroad grant, or one hundred and sixty acres, if without, whenever the land shall be offered for sale by the government, at \$2.50 per acre in the former, and at \$1.25 per acre in the latter case.
