

The Best Fruit Dryer of All.

I now have control, for this coast, of the machines invented by Hampton Kelly for preserving and drying fruit and vegetables...

Kelly's Fruit and Vegetable Grinder, That makes a pulp of fruit - preparatory to evaporation and drying for market.

Kelly's Centennial Fruit Dryer, That prepares the pulp above described for use, by drying the same.

Kelly & Cole Fruit Dryer,

Of sizes that range in cost from \$75 to \$125 each, with capacity to dry from 15 to 30 bushels of apples per day of ten hours' work.

Reference is made to the following named persons: Linus Brooks and Shaw & Allen, Brooks' station, and many others who have used the dryers and know the quality of fruit

when dried and the capacity and safety of the machines, which are heated by steam, so they cannot burn the fruit, neither are they liable to destroy the building, as has been the case in this State with others.

Colliver's Fruit and Vegetable Press

Is intended for packing dried fruit or vegetable in two to five-pound boxes, and runs it in the best possible condition and form for private use, at trifling cost.

I shall be prepared to fill orders for the paper boxes from Eastern manufacturers, at low prices. Three years ago I put up on my fruit farm on Coos river, Coos county, an Alden Fruit Drying Factory that is now owned and operated successfully by my son.
