

rear of the store and one at each side, placed directly opposite, so that a person standing in line between the two sees innumerable reflections of the center of the store. Above each side mirror is a segment surmounted by a golden eagle, and above each pilaster is a golden mortar and pestle. There are no counters, properly speaking, at the sides, the space being taken up by four large glass counter cases, the lower portions being filled with the finest toilet sets, toilet articles, perfumeries, soaps, brushes, etc.

THE NORTH SIDE OF THE STORE

Is devoted to perfumery and patent medicines, and the south to drugs and chemicals proper. Presiding with proper dignity over so elegant an establishment, is Mr. W. N. Wallace, favorably known here as a competent and careful chemist. Mr. L. Blumauer, who, we are proud to say, is a born Oregonian and thorough business man, can usually be found at the wholesale department, which is located at No. 165 First street, three blocks further up First street. The laboratory connected with the wholesale department is in charge of Mr. T. Hageny and a full corps of assistants. The firm make all their importations direct, and are sole agents for the Northwest for some of the most reliable medicines known to the trade.

The rooms in the upper floors of the block, which are not used by the occupants of the stores on the first floor, are divided into neat, well lighted offices, and are used mostly by physicians and attorneys. Amongst the most prominent of the latter, Hon. M. C. George, as well as Catlin & Nichols, occupy suits of rooms each. Dr. W. H. Saylor will be found in rooms 1, 2 and 3, and Dr. Fraser in rooms 5 and 6. Both of the latter gentlemen's cards appear in our directory of respectable physicians, wherein none but regular graduates are admitted.

One of the neatest and best furnished suit of rooms in the building are occupied by Dr. J. Welch's dental operating rooms. To make them agreeable and pleasant, nothing has been left undone that even the most exacting taste could possibly suggest. The Doctor has been established in Oregon for over 15 years and has a very extensive practice. Some of the most difficult operations in dental surgery ever performed in the North-

west, were either done by him or under his special advice and supervision. Besides the Portland office, the Doctor has an office in Oregon City, his place of residence, where he can be personally consulted on Saturdays of each week.

THE LAWS OF LIFE.—A valuable Magazine, bearing the above title, reaches us from Danville, N. Y. Every family should subscribe for it, read and heed its advice, and thereafter enjoy life and save hundreds of dollars in doctor's bills. Subscription per year, \$1.50. AUSTIN, JACKSON & Co., Publishers, Danville, N. Y.

EVERY lover of music should be a regular subscriber to *Whitney's Musical Guest*, published quarterly for \$1.00 per year, at Toledo, Ohio. It furnishes valuable music in every number, well worth five times the amount charged for subscription.

The light running "New Wilson" still remains the favorite amongst Sewing Machine buyers. John B. Garrison, at No. 149 Front street, tells us that they can't be beat.

SOMETHING ABOUT SEEDS.—It frequently becomes a source of great annoyance and disappointment to have spent large sums of money on seeds and a great amount of labor in preparing the soil, to be afterwards unrewarded by any yield of vegetables or flowers. The principal reason often arises from the fact that the seeds are not suited for our climate. To avoid the possibility of failures of this kind, our readers should send their orders for seeds to H. Hanson, of this city. He never offers any seeds for sale unless he has previously given them a thorough trial. He has been established here for a number of years, and bearing the general reputation of a reliable gentleman, we take especial pleasure in recommending him to the seed-buying public.

A large and varied assortment of Valentines, from the most comical to the most elegant, can be found at Charles Hirstel & Co.'s Book and Stationery house on First and Front streets, between Stark and Washington. They import direct from manufacturers, and supply country dealers in any desired quantity.
