

The Graham mill and other property, owned by an English company, and sold at Sheriff's sale last week, went for next to nothing, the Idaho World is informed. The mill, one of the finest in the territory, put up at a cost of \$350,000, was sold for \$9,500, and the thirteen mines, tramway, buildings and other property, brought only \$500. It is said that this English company has expended, all told, in the neighborhood of \$1,000,000. "This," remarks the Ketchum Keystone, "is another instance of remarkably bad management, a monument of folly and ill-advised operation. It is only another illustration of the folly of constructing costly reduction mills and smelting furnaces before mining properties are sufficiently opened to ascertain by development work whether or not they possess merit and value enough to warrant the expenditure of such large sums of money for the erection of colossal works. All such absurd, and to all intents and purposes, visionary operations, have in a measure been the cause of retarding the mining industry, intimidating capital and bankrupting unsuspecting promoters of mining enterprises more than any other thing connected with the mining business."

The largest fig orchard in the United States, says the Los Angeles Champion, is about to be set in Pomona valley, between Pomona and Ontario. The orchard will consist of 11,000 white Adriatic and 5,000 Smyrna fig trees, planted eighty to the acre on 200 acres.

The total product of the mines on the Comstock lode, Nevada, for the quarter ending the first of October was \$835,419.32. For the preceding quarter the production of the same mines amounted to \$1,350,000.

A FAMOUS WOMAN AND WHAT SHE SAYS OF A FAMOUS ARTICLE.

A Clear, Concise, Conscientious Certificate.

November 13, 1888.

MR. WISDOM,

Dear Sir.—I beg to thank you for the delightful and refreshing "Robertine" you so kindly sent me. I have used the toilet preparations of the most celebrated manufacturers of London and Paris, but consider your "Robertine" their superior in point of purity and excellence. Wishing you the unbounded success you deserve, I remain,

Faithfully yours,
EMMA ABBOTT.

CATARRH, CATARRHAL DEAFNESS, HAY FEVER.

A NEW HOME TREATMENT.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness, and hay fever, are permanently cured in from one to three simple applications made at home by the patient once in two weeks. N. B.—This treatment is not a snuff or an ointment; both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent free, on receipt of stamp to pay postage, by A. H. DIXON & SON, 337 and 339 West King street, Toronto, Canada.—N. Y. Tribune.

Sufferers from catarrhal troubles should carefully read the above.

A party of capitalists has obtained control of the site commanding the use of Prosser falls, on the Yakima river, forty-five miles from North Yakima, which is said to be the best natural water power in the state, except Spokane falls. A new city is being laid out there, the proprietors guaranteeing to every investor to establish a system of water supply and electric light within a specified time.

Pfunder's Oregon Fever and Ague Remedy when properly used never fails to effect safe, sure and speedy cure.
