## City of Ellensburg, WASHINGTON.

Ellensburg, the county seat of Kittitas county, is a town that takes its growth since four years ago. Its population is about 5,000, half of whom came the past year. Its resources are, first, agricultural; second, stock, the tributary ranges now feeding 150,000 head. Its minerals well developed are gold, silver, copper, lime, marble, but the greatest is iron in untold quantities, all kinds, ore assaying from 40 to 89 per cent.

Kittitas county is the geographical center of Washington. The valley is the center of the county, the town the center of the valley. There are abundant resources to support a large town. The universal belief is that the population will equal 15,000 in a few years. Property has doubled in value annually, and investments made now will bring four-fold returns. D7 89 52

COEUR D'ALENE CITY, - IDAHO.

**ELLENSBURGH, WASHINGTON,**  
The Central City of the new state has more varied Resources than any city of 5,000 population in the Pacific Northwest.

First, agricultural. Second, stock. Minerals well developed, gold, silver, copper, lime, marble, but the greatest is iron and coal in untold quantities. Over 2,000 tons of coal mined daily in this county, which comes to and through Ellensburg, the distributing point for all the mines in Central Washington. Nearly \$1,000,000 have been expended in brick buildings since our big fire last July. Real estate, and especially business property, has no value compared with other cities of half the importance. In less than five years the population will outnumber 20,000. 800 per cent. increase in population means at least 800 per cent. on investments. Men of nerve and brains, I invite you to come and personally examine. I refer by permission to Ben E. Snipes & Co., Bankers, and the Ellensburg National Bank. Respectfully yours,  
**GEO. W. ELLIOTT,** Investment Broker,  
D7 89 ixm Ellensburg, Wash.
