

Another solution to the twenty-one puzzle has been received, which is fully as good as, if not better than, the other two published. It is as follows: Take two ones and place them side by side and call them eleven (11), then add the three threes and the other one, viz:

111	11
333	1
555	3
777	3
999	3
	21

Still another solution is to take two fives and call them five-fifths (5/5), which equals one, and then add four others to make 21. Thus:

$$\begin{array}{r} 55 \\ 3791 \\ \hline 91 \end{array}$$

The handsomest business block in Portland will be the one for which

plans have been prepared for Ira Goodnough. It will be seven stories high, cost \$125,000, and will occupy the entire quarter block on the northeast corner of Fifth and Yamhill.

Seventeen new residence buildings have been erected in the town of Bandon, Oregon, this year, together with two business blocks and repairs and enlargements to several others.

**WELL BRED
SOON WED.**

Girls who use **SAPOLIO** are QUICKLY MARRIED

SAPOLIO is one of the best known city luxuries and each time a cake is used an hour is saved. On floors, tables and painted work it acts like a charm. For scouring pots, pans and metals it has no equal. If your store-keeper does not keep it you should insist upon his doing so, as it always gives satisfaction and its immense sale all over the United States makes it an almost necessary article to any well supplied store. Everything shines after its use, and even the children delight in using it in their attempts to help around the house.
