

# New Attitudes

ABOUT LIVING, LOVING, SEX AND AIDS

is a four-hour AIDS and Safer Sex Awareness workshop offered by the Cascade AIDS Project. **NEW ATTITUDES** is for all gay men, especially men who:

- are still practicing unsafe sex (even part of the time),
- think they know enough about AIDS,
- still have difficulty discussing safer sex with their friends or partners,
- spend more time than necessary worrying about AIDS, or
- want support from other men for making changes towards safer sex and just want to **TALK** about it!!

- *The centers For Disease Control has stated that AIDS will become the major cause of death for gay men and I.V. drug users in the near future. They think they know everything!*
- *What they don't know is that gay men in Portland are developing a New Attitude!*
- *We know that AIDS is a preventable disease. The CDC doesn't think we're brave or smart enough to do what it takes to **STOP AIDS**. We're going to show them that we **ARE** and it's up to **YOU!!!***

You have an important decision to make. It may be the most important decision of your life. Don't miss this opportunity to inform yourself and to get support from other people confronted with the same decision.
