A new grassroots coalition is being formed in Portland to address **lesbian/gay rights and discrimination based on sexual orientation** in the state of Oregon. According to Dan Stutesman, Director of American Friends Service Committee Gay/Lesbian Program in Portland, and one of the founders of the new group, concerned persons from all walks of life are both needed and welcome to help educate Oregonians on a grassroots level on the truth about being gay, and why all persons should support gay rights regardless of their own personal lifestyle or belief.

Stutesman says that some of the specific actions the new organization plans to undertake could include leafleting, gathering signatures, door-to-door canvassing, media events, and protest marches. "But," he emphasizes, "The group will pretty much be whatever we make it. We're so new, we still haven't picked out a name. If you've got ideas and energy, you're just the kind of person we want."
