

It's a witch hunt! Are you next?

What is Measure 8?

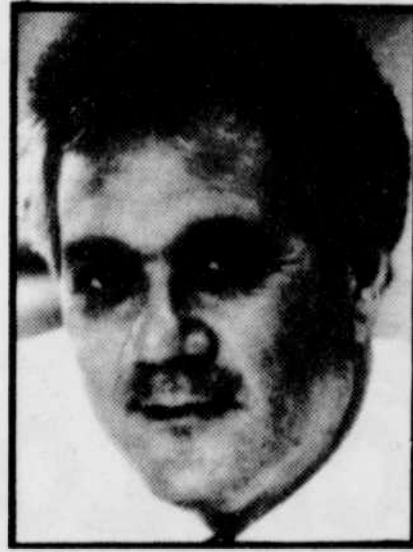

Sponsored by the ultra right wing, Ballot Measure 8 in Oregon is the first statewide vote in the country seeking to revoke an existing statewide policy of non-discrimination based on sexual orientation. This initiative is no more and no less than Jerry Falwell's and the religious right's attempt to erode the rights all of us have fought so hard to secure. We must view this as an attack on our entire community, not just the community in Oregon. Help stop them in Oregon now before they try the same thing in your part of America. Give generously.

Rev. Troy D. Perry, Founder and Moderator
Universal Fellowships of Metropolitan Community Churches

How Can I Help?

"This is a critical election. We've been making progress in Washington, D.C., because we've been able to convince members of Congress that anti-gay and lesbian prejudice has been diminished in the electorate. Passage of this initiative, especially in a state known to be as progressive as Oregon, would be dangerous and very detrimental to our goals in Washington and would strongly send the wrong message to Congress. We must all get actively involved in defeating Measure 8 in Oregon."

Congressman Barney Frank
Democrat, Massachusetts
