CMV HOTLINE

The National Association of People with AIDS (NAPWA) has launched an education and prevention program to provide information about HIV-related cytomegalovirus (CMV) disease for health care providers and people living with HIV disease.

As part of the program, a confidential 24-hour toll-free "CMV Prevention Hotline" will operate until June 14, 1996.

CMV can cause serious sight-threatening and/or life-threatening illness in individuals with compromised immune systems. Approximately 40 percent of people with HIV disease develop CMV retinitis.

NAPWA's CMV education and prevention program is being supported by a grant from Roche Laboratories.

*Nora Isacson
 Portland's Alternative Realtor*

I have chosen to take a more human approach as a Realtor. I build my business on a referral basis and firmly believe that the satisfaction of my client is far more important than my financial gain. I communicate clearly and openly, and I'm always honest with my clients. I'll gladly climb a nearby tree to check on a roof or get a bit dirty investigating a crawl space or an attic. I work mainly in Portland's close-in Southeast and Northeast neighborhoods and specialize in older homes with character. Whether you're thinking of buying or selling, *please do give me a call.*
