Portland, Oregon

Since November 1995,
four new therapies have
been approved to treat HIV,
and five more will likely be
approved by spring of
1997.

The new viral load test
makes rational use of
therapies possible for the
first time.

Get the latest information
on how to use these tools
before you make your
choices.

Access to new therapies
is not valuable without
knowing how to use them.

To find out more information about this meeting or HIV/AIDS
treatments call the toll free Project Inform National
HIV/AIDS Treatment Hotline, 800-822-7422.
