Genital Herpes Treatment Study

Volunteers are needed to participate in a medical research study evaluating an experimental plant-derived antiviral drug that is a topical gel for the treatment of recurrent genital herpes in conjunction with a standard of care oral antiviral agent.

Interested individuals must be 18 years of age or older, have AIDS and have herpes outbreaks in the genital area.

Involvement in this study will require visits to the clinic 3 days a week, a total of 8 visits.

There is no cost to subjects accepted into the study. All study related examinations, laboratory tests and study drug will be free of charge.

This study is being conducted by: Dr. Bruce Miller of the Dermatology Associates in Portland

Individuals interested in knowing more about this study are encouraged to call Patty or Nancy at 245-1525 for additional information.
