*"With more than her share of patience, Tina helped us both as newcomers to Portland and as first-time home buyers. Not only did we enjoy searching for a home with her, but we found the home we were truly meant to have. We would recommend Tina to absolutely everyone!"*

Hair removal made  
easy with EpiLight™

*EpiLight™* is a medically approved method, that eliminates unwanted hair from most areas of the body. In a flash of light, hair is removed faster, easier, and more efficiently than any method used before.

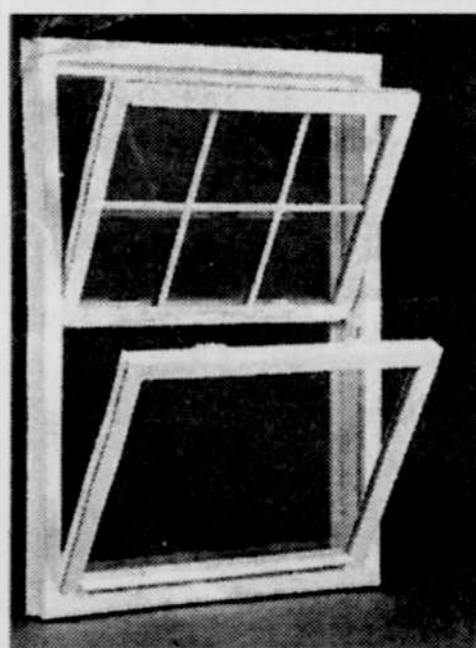

- eliminates the need to shave, pluck or wax.
- a few gentle one-second flashes removes more hair than electrolysis can in an hour.

men: eliminates hair from back, chest, arms, ears, neck and feet.

women: eliminates hair from upper lip, chin, arms, underarms, legs, back, tummy, bikini area and feet.

For more information on an *EpiLight* consult, contact **Contours**.
