Luxury Defined:
LINEN

Linen is the oldest fabric known to man, pre-dating even the Ancient Egyptians, who were said to create linen so luminous that it changed colors with the changing light of day.

The practical origin of linen is a rough, resilient plant called flax, which is bleached and softened to create durable and luxurious fabric.

Stronger and softer than cotton, linen drapes beautifully and feels wonderful against the skin.

Although it has long been the bedding of choice in Europe, the extra ironing it requires sometimes deters Americans from experiencing its benefits. But with each wash, linen actually becomes more-wrinkle free and easier to care for, making it a worthwhile investment in more ways than one.
