Database Administrator SQL Server/Data Warehouse

Help to make a difference. Join an environment that values diversity. Make Money and support your community. Multnomah County is seeking a Database Administrator SQL Server/Data Warehouse. This position supports the Relational Database Management System used by the Department of Community and Family Services and all functions related to such database administration. Database Administrator will also be an integral part of the Data Resources Team which is responsible for the development, evaluation and implementation of a comprehensive data warehouse as well as the analysis, design, implementation, and maintenance of new and existing relational databases. Work location is downtown Portland. The Database Administrator will install, implement, manage, and upgrade RDBMS software (MS SQL Server); create databases and all database components; design database models; implement and manage all facets of the physical layout of database objects, and RDBMS use of hard disk space; ensure that database and transaction log backups are performed regularly; manage all security for database access and for application front-ends; monitor RDBMS and database performance; and perform regular database maintenance. Requires five years of increasingly responsible systems analysis and programming experience. At least three years of database programming experience and six months project coordination experience; AND a Bachelors degree or equivalent from an accredited college or university with major course work in computer science, information systems or a related field. Starting salary is \$24.77 per hour (\$24.77- \$30.47 full range). Apply by June 22, 2001. Further information and application materials are available at www.co.multnomah.or.us or by calling (503) 988-5035.
